WALTER HENSON APPOINTED VISITING CANADIAN
PROFESSOR TO YALE UNIVERSITY

The Department of External Affairs is pleased to announce the appointment of Dr. Walter Henson to the Yale School of Forestry and Environment Studies for the 1977-78 academic year. Dr. Henson is the second Canadian academic invited by Yale to participate in a five year visiting professor programme funded by the Canadian government in commemoration of the American Bicentennial.

A graduate of Queen's University where he received his B.A. in 1947, Dr. Henson received his M.S. in 1948 and Ph.D. in 1950 in entomology from Yale. He served with the Canadian Department of Agriculture and came to the Yale School of Forestry as an assistant professor in 1955. He returned to Canada in 1968 as Chief of Research for Ontario's Department of Lands and Forests, now the Ministry of Natural Resources.

While at Yale he will teach a course in forestry problems and control strategies and a seminar on issues in Canadian science. He will also host a series of lectures given by Canadians on ways of integrating long-term approaches in different disciplines to natural resource problems.
