## LORD NELSON SUNK REPORT IN BERLIN

Turkish Fire Said to Have De stroyed British Semi-Dreadnought.

### STRANDED IN STRAIT

(Warship Cost Seven and Half Million — Russian Ships Sunk?

BERLIN (by wireless to Sayville), April 5.—A report received in Berlin from Athens says the British battle-ship Lord Nelson, stranded inside the Dardanelles Straits, has been destroyed by the fire of the Turkish guns on shore. This information was given out today by the Overseas News Agency.

says the following statement has been issued by the Turkish War Office:
"Our fleet yesterday sank two Russian ships, the Provident of 2,000 tons and the Vastochnaja of 1,500 tons at

"Our batteries off Kum Kale sank n enemy mine sweeper which at-smpted to approach the entrance to be Dardanelles."

A Semi-Dreadnought.

The Lord Nelson was built in 1906. She had a tonnage of 16,500, was 435 feet long, and 79.5 feet at her beam. She carried 865 men. She and the Agamemnon, sister ships, have both been engaged at the Dardanelies. The two are of a type dissimilar to any other British ships, and rather resemble French vessels. They are usually called semi-Dreadnoughts, Their cost was about \$7.500,000 each. Their primary battery consists of four 12-inch guns. Their armor is unusually heavy—12 inches amidships.

The British battleships Ocean and irresistible, and the French battleship Bouvet were sunk at the Dardanelles on March 18.

The admiralty on March 8 announced that at that time "the Agamemnon and Lord Nelson advanced and engaged the forts of the narrows at 14,000 to 12,000 yards by direct fire," and "the Gaulois, Agamemnon, and Lord Nelson were each struck three times, but the damage was not serious. The Agamemnon, had three men slightly wounded."

# **ANOTHER QUAKE**

Disturbance Lasted Four Seconds and Caused Panic, But No Damage.

AVEZZANO, Italy , April 5, the disastrous earthquake of January 13, but the disturbance of this morning was the most severe of any in this interval. Virtually no damage was for the reason that the January disaster worked such havoc that there was little left to be destroyed. The people are still living in encamp-ments, in all of which the shock of today was felt, causing much alarm.
Rome reports that the quake lasted four seconds. The alarm of the people The alarm of the people quickly subsided as no damage was done. Telegrams from Tivoli, Castel-madame and San Polo recorded the same disturbances. There were, however, no casualties. At Tagliacozzo the earthquake shock was violent. The people rushed into the streets and remained there, fearing to re-enter their homes. Several houses

were damaged.
A huge rock which overhangs the Village of Petrellaliri was loosened by the earthquake and the people fled from their homes, fearing that the rock would crash down upon them. Soldiers and engineers were hurried to their assistance.

### To End Catarrhal Deafness and Head Noises

Persons suffering from catarrhal deaf-ness and head noises will be glad to know that this distressing affliction can be successfully treated at home by an inter-successfully treated at home by an intersuccessfully freated at home by an inter-nal remedy that in many instances has brought complete relief after all else has falled. Sufferers who could scarcely hear a watch tick tell how they have had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from either ear.

Therefore, if you know someone who i troubled with head noises or catarrh, or catarrhal deafness, cut out this formula and hand to them, and you will have been the means of saving some poor sufferer perhaps from total deafness. The prescription can be prepared at home, and is made as follows:

Secure from your druggist 1 oz. Parmint (Double Strength), about 75c worth. Take this home, and add to it ¼ pint of hot water and 4 oz. of granulated sugar; stir until dissolved. Take one tablespoonful four times a day.

stir until dissolved. Take one tablespoonful four times a day.

The first dose should begin to relleve the distressing head noises, headache, dulness, cloudy thinking, etc., while the hearing rapidly returns as the system is invigorated by the tonic action of the treatment. Loss of smell and mucus dropping in the back of the throat are other symptoms that show the presence of catarrhal poison, and which are often entirely overcome by this efficacious treatment. Nearly ninety per cent, of all ear troubles are said to be directly sates by catarrh, therefore, there must be many people whose hearing can be be many people whose hearing can be restored by this simple home treatment.

favorable consideration of the proposal to subsidize all hydro-electric
propositions in the province.

This action by the Markham Council is part of a big general movement
and is the outcome of the visit of 2000
Ontario farmers to Pre lier Hearst a
fortnight ago. While in the earlier
stages of the hydro movement, when
the vote was submitted to the ratepayers, council were divided on the
question, yesterday's decision was
adopted without discussion.

The application of Charles Routley

ed while driving on the fourth con-cession of Markham was favorably re-ceived and he was awarded \$20.

Mr. Nesbitt of Thornhill sought to interest council in a plan to improve the waterways in front of his farm. A committee will look into the mat-ter. an issue of debendures to the amount of \$4500 for the construction of a new school in section No. 4, Etobicoke. WEST HILL RESIDENTS

W. M. Smith and H. H. Powers, representing the village council, submitted a plan for the installation of a fire wystem in Unionville, to cost approximately \$1000. The plan includes the purchasing of a gasoline engine, 600 feet of rubber hose, the use of existing water power at the dam, and bulkheads of the mill and the building of two or three small coment reserves. of two or three small cement reser-

voirs.

A public meeting will shortly be called to discuss the whole question. Reeve Nigle expressed his hearty sympathy with the plan, as did the other members of council, and following its ratification or rejection by the property owners, definite action will be taken. The assessment is in the neighborhood of \$300,000, and the saving effected in insurance rates will, it is claimed, more than carry the cost of the investment.

Wants Resurvey.

John Boynton applied for a resurvey of the fourth concession of Markham for a distance of about 1½ miles ham for a distance of about 14 miles immediately fronting and north and south of his farm. The original line is said to have been moved 20 feet at one point to the east, and the resurvey is sought to remedy this. If a survey is condered the expense will be borne by ordered the expense will be borne by the applicant.

A refund was ordered paid the Bell Telephone Co., the latter having paid an excess tax rate in 1914. The total assessment over the township is in the neighborhood of \$7000. and last night ordered a car tank of road oil for this purpose.

"Rigid Economy" the Motto Pass Resolution Re This Year—Assessment Hydro Radials. Dispute.

At the regular meeting of the Etobicoke Township Council in Islington yesterday, a resolution was passed respectfully urging the Dominion Government to declare its policy regarding federal subsidies for hydro-electric radials, in order that local commissions might issue debentures and proceed with the construction of lines already approved of by the electors, in anticipation of the grant. The resolution, which was introduced by Councillor W. Jackson and S. Wright, points out that as the money would not be required until the lines were nearly completed a definite statement now by the government would prevent a year's delay in the construction of radials, which could be gone on with at once.
