Baltimore 1

## Note and Comment

The story of the first day's cricket between Toronto and Winnipeg would indicate that the victory must include in some heavy hitting, or at least patient batting, to escape defeat. The game will be resumed this morning, and a follow-on is possible.

On the result of two of the lacrosse matches in the N. L. U. this afternoon will have the championship. It was at first thought that when Toronto had lost three games they were out of it, but things have changed, and now a tie may result all round. That is, of course, if Toronto can defeat Cornwall and thus secure only three losses. Toronto's record in the N. L. U. is not as good as it should be, and one of the other must have three losses when the final score is announced. The game will be played at home, and away from home, but with four games still to play, hardly hope to win them all, particularly when two of the games are with Montreal.

The Leafs are back home, even undaunted because of the loss of a mere game straight, with not a victory since they left the island shores. Their friends said that they would land the championship, via, by winning these four from Baltimore and Montreal. The Leafs are in a position to win them all, particularly when two of the games are with Montreal.

Talking about records: The Leafs have killed 24 games to date and plenty of opportunity to overtop the mark of the Austin team in the Texas League, which has won both the National and American League records for straight victories. Winning its twenty-first consecutive game the other day at Houston, its showing now is within eight games of the record. The Leafs were at the bottom of the list in the old Texas League in 1912. The Austin team was at the bottom of the list in the old Texas League in 1912. The Leafs were at the bottom of the list in the old Texas League in 1912.

Has Sam Langford a chance to defeat Jack Johnson? Plattsburgh in his prime was generally regarded as the better fighter in the world. Those who remember that Plattsburgh and have seen Langford and Johnson inside the ring know that Johnson is a better fighter than Plattsburgh. Johnson is a better fighter than Plattsburgh. Johnson is a better fighter than Plattsburgh.
