Association Notes. Thos Brownlee president of the Ontario Feotball Association, stated last night that the letter promised from Mr. Farker in reference to Saturday's game, was received, but it is not satisfactory and if Saturday's contest is played under the auspices of his organization the committee must say so at to-morrow morning's meeting.

A Montreal despatch says: The McGill scccer e-even will meet the Queen's University team at Kingston on Saturday. These teams met on the McGill campus last year on an exceedingly difficult ground, covered with small sheets of ice, on which anything transcending the same feetful was improved by approaching good football was impossible. The result then was a draw. McGill's eleven are slightly stronger than their side of last year, and under good weather conditions should win from the Presbyterians.

There will be a meeting of the Wellington Athletic Club to-night at the Majestic Hotel av 8.30 o'clock. All wishing to interest themselves in this club are requested to attend.

Kingston Curling Club.

At the annual meeting of the Kingston Curling Club these officers were elected: President, W. Bampfield; vice-president, J. M. Farrell: secretary-treasurer. F. Lyons; superintendent of the Ice, S. R. Bailey; management committee, Prof. Gill. A. Strachan. W. B. Dalten, L. L. Henderson, E. O. Sliter: It was decided to reduce the size of the rings from 14 feet to 12 feet in diameter, and to ask the Kingston Rink Association to remove the platform running down the centre of the Ice, to that a third rink can be added. To accommodate the members another rink is necessary and this method of solving the difficulty was decided upon.

Mormons Get Out of Business.

TO BREAK UP A COLD IN 24 HOURS AND CURE ANY COUCH THAT IS CURABLE.

Mix one-half ounce of the Virgin Oil of Pine (Pure) with two-ounces of Glycerine and half a pint of good Whisky. Shake well and use in tea-

nful doses every four hours. Dr. Leach, the famous throat and lung specialist, who established a camp for consumptives in the Pine Woods of Maine, and whose wonderful cures there have attracted the attention of the civilized world, declares that the above formula will strengthen weak lungs, relieve the cough, heal the bronchial tubes, and cure any case of lung trouble that is not too far advanced, providing the patient will assist by taking) plenty of outdoor exercise, inhaling long deep breaths every few min-

It is said the mixture will break up an ordinary cold in twenty-four hours, and, being free from opiates and drugs, is far preferable for use

among children to the ordinary cough mixtures.

The ingredients can be secured from any good prescription druggist at small cost and easily prepared in your own home.

Inquiry at the prescription department of one of our leading drug-gists elicited the information that Virgin Oil of Pine (Pufe) is put up only in half-ounce vials securely sealed in a round wooden case, with engraved wrapper, showing the name—"Virgin Oil of Pine (Pure)"—plainly printed thereon. There are many rank imitations of Virgin Oil of Pine (Pure), which are being put out under various names, such as Concentrated Oil of Pine, Pine Balsam, etc. Never accept these as a substitute for the Pure Virgin Oll of Pine, as they will invariably produce nausea, and never effect the desired results.

A local physician who is familiar with the treatment used by Dr Leach in his camp in the Pine Woods, says it is undoubtedly the most effective known to medical science at the present time and save for the open air life in the forest would prove just as effective if used in the home. He says the formula given above is the one used by Dr. Leach and that it has the unqualified endorsement of the leading physicians of

The physician added, if this formula was known and used generally by the people, throat, lung, and bronchial affections would rarely reach an acute stage.

The Pure Virgin Oil of Pine is also a perfect neutralizing agent for uric acid. A few drops taken on sugar night and morning will heal and regulate the kidneys and relieve the most obstinate case of rheumatism if caused by uric acid in the system.
