

## MINES AND MINING STOCKS

Will Canadian Lead Ores and Bullion Be Admitted Free to the United States?

## LOCAL MINING SHARE MARKET.

Output of Bullion From Ymir Camp—Allen Michipicottan Company.

According to information received from a private source, one result of the deliberations of the International High Commission at Washington will be the removal of trade restrictions as regards lead bullion and ore containing lead. The present United States tariff regulations are so arranged as to force the silver-lead ores of British Columbia to cross the line to the American smelters and to pay 1 1/2 per cent duty in so doing. This means a charge of \$2 per ton on Canadian ore. At the same time the duty on the bullion is made so high that Canadians are prevented from having recourse to building lead smelters of their own. If the pending treaty gives practical free trade in lead and lead products, the Kootenay will see a vast increase in silver-lead mining and smelting. Senator Fairbank, chairman of the American section of the High Commission, is working in favor of the proposed change in the tariff and he is likely, it is said, to succeed. The recent appreciation in Noble Five and other silver-lead stocks is no doubt partially due to news of the above effect looking out.

**Mining Stock Market.**  
On the local mining stock market to-day Crow's Nest Coal held its own at from \$53 to \$54 per \$25 share. Athabasca brought \$35 and 60c. Dundee and Minnehaha were strong, the former selling up to 19 1/2 and the latter to 32 1/2. Hammond Reef and Golden Star were weaker.

**Michipicottan Mining.**  
Among the mining men in town just now is Mr. W. H. Wylie of Niagara and Michipicottan. Mr. Wylie recently severed his connection with the Great Northern Mining Company and organized a development company of his own, to carry on operations in the Michipicottan district. The new venture is known as the Corona Mining Company and it already owns nine quartz and placer locations in the section in question. These claims have been made up of preliminary work done upon them and the quartz propositions show up veins of good size and quality. Mr. Wylie carries out his work from the Corona Mining Company's office at 100 York Street, which is also the office of the Michipicottan Development Company. The latter is a corporation organized for the purpose of developing the placer and quartz claims in the section in question. Mr. Wylie is a well-known mining man and his future developments will be kept in the public eye.

**Output of Ymir Camp.**  
It has been estimated, says The Miner, that the output from Ymir camp will be close on 7000 tons for the month of February. The output for the month of January was 6000 tons. The output for the month of December was 5000 tons. The output for the month of November was 4000 tons. The output for the month of October was 3000 tons. The output for the month of September was 2000 tons. The output for the month of August was 1000 tons. The output for the month of July was 500 tons. The output for the month of June was 200 tons. The output for the month of May was 100 tons. The output for the month of April was 50 tons. The output for the month of March was 20 tons. The output for the month of February was 10 tons. The output for the month of January was 5 tons. The output for the month of December was 2 tons. The output for the month of November was 1 ton. The output for the month of October was 1/2 ton. The output for the month of September was 1/4 ton. The output for the month of August was 1/8 ton. The output for the month of July was 1/16 ton. The output for the month of June was 1/32 ton. The output for the month of May was 1/64 ton. The output for the month of April was 1/128 ton. The output for the month of March was 1/256 ton. The output for the month of February was 1/512 ton. The output for the month of January was 1/1024 ton. The output for the month of December was 1/2048 ton. The output for the month of November was 1/4096 ton. The output for the month of October was 1/8192 ton. The output for the month of September was 1/16384 ton. The output for the month of August was 1/32768 ton. The output for the month of July was 1/65536 ton. The output for the month of June was 1/131072 ton. The output for the month of May was 1/262144 ton. The output for the month of April was 1/524288 ton. The output for the month of March was 1/1048576 ton. The output for the month of February was 1/2097152 ton. The output for the month of January was 1/4194304 ton. The output for the month of December was 1/8388608 ton. The output for the month of November was 1/16777216 ton.
