The order-in-council passed at Ottawa, providing a registration system for Canada, is meeting with the approval of the military authorities in Poronto. It is felt now that as a police census may be taken of the eligibles in the city, and as the scheme has official approval, more satisfactory results may be obtained than was the Michael O'Leary, who said that "he case when the plan was tried in Toronto some time ago. CITY HALL NOTES

When the board of control was informed that it would cost \$3500 to have the Hydro Commission suitably decorate Toronto for Exhibition, they decided to dispense with the decorations.

The city architect yesterday granted a permit to the T. Eaton Co. to build a one-storey brick embroidery factory on Bloor street near Dufferin, at a cost

time with a material salary reduction.

During the first year the board recommended that Mr. Weber receive \$1600, with annual increases thereafter until the maximum of \$2500 is reached. The city council have ruled that Weber must start at a salary of \$1000, with annual \$100 increases until a maximum of \$1500. Chief Smith told the board he could not get a good secretary for that sum.

With a view to fostering commercial relations, between Canada and the United States and informing the American people of the security behind purchases of Canadian war bonds, half a million feet of moving pictures are to be taken in the Dominion and exhibited across the line.

This work is to be under the supervision of Francis Holley, head of the United States bureau of commercial economies at Washington, who has arrived in Winnipeg. He is the guest of the Dominion Government and of the Grand Trunk Pacific Railway.

Mr. Holley is traveling thru the west on a private car provided by the G. T. P. He leaves tomorrow night for Edmonton and will thence go to Mount Robson and Jasper Park, also making an extended trip along the coast and to Alaska.

During his travels Mr. Holley will select places for the taking of motion pictures, and he will be followed by the camera men. Several pictures of Winnipeg and Winnipeg's industries will be included.

On the completion of the pictures they will be shown thruout the United States in schools and on Chatauqua circuits. It is believed that the result in educating the American people on Canada's resources and industries will to dispose of their services for film purposes. Few of the artists are free to make independent contracts.

"The Metropolitan has not been decided to accept the terms of a its artists on the screens, but we it, but the terms of the Metropolitan Company proved to be so high that the motion picture concern abandoned the project.

There also have been rumors from time to time that Enrico Caruso had been engaged by this or that photo-play company and would make his appearance on the screen.

"The company that will be formed will have Mr. de Segurola at its head because he has had experience time to time that Enrico Caruso nad been engaged by this or that photoplay company and would make his will have Mr. de Segurola at its debut as a hero on films, but each time this was denied.
