ALL REMAINED STEADY

Common to Medium Classes Were Easy Yesterday, Sheep and Lambs Firm.

HOGS STILL UNCHANGED

Receipts Were Light and Several Lots Sold at Ten-Seventy-Five.

Receipts of live stock at the Union Stock Yards were 58 cars, 900 cattle, 1107 hogs, 22 sheep and lambs, 220 calves and Trade in all departments of cattle was very quiet, and altho there were not more than 700 on sale, the market was beginning to act as tho it was congested, but prices, especially for all of finished quality, remained strong. But had it not been that several lots of had it not been that several lots of butchers' steers were bought as short-keep feeders, values in the common and medium classes of fat cattle would have suffered a decline, and as it was prices for them were barely steady. Cows and bulls of good quality were about steady. Should there be a liberal supply on Wednesday we look for a decline in the common grades of cattle.

nesday we look for a decline in the common grades of cattle.

Stockers and Feeders—Few of these classes are being marketed, and those having orders to fill are finding much difficulty in doing so. That is in getting the quality desired, and as high as \$7.40 was paid for steers that had been brought on the market for butcher purposes. These were bought by H. P. Kennedy to fill orders he had obtained.

Milkers and Springers—There was a little more activity, with a few choice cows on sale. Prices ranged from \$65 to cows on sale. Prices ranged from \$65 to \$75 for good, and choice at \$80 to \$95, and \$100 to \$110 for fancy quality cows, one of this class being soid by McDonald & Halligan at the latter figure.

Veal Calves—Common calves were re-

Veal Calves—Common calves were reported as being lower in value, but good and choice were firm.

Sheep and Lambs—Not enough to constitute a market. Values are firm for all classes of sheep and lambs.

Hogs—Receipts were light, and while the packers claimed to have paid no more than the guarations given out in the packers claimed to have paid no more than the quotations given out in The World on Saturday there were several lots reported to have been sold at \$10.75 weighed off cars.

The Best Street

Any street to be best must be built of a material that embodies, to the fullest extent, the factors of Quality, Economy-Permanence, which, combined, create satisfaction. All of these factors are summed up in their highest degree of development in the street that

-is Built of Concrete

Concrete approaches nearer to the ideal for street paving than does any other Material.

Concrete has a lower first cost than materials now in general use. A minimum of maintenance and long life under any kind of traffic. It permits a low crown, has a smooth, non-slippery surface, is clean and easy of traction. It increases property values, civic pride, the satisfaction of every one using it, and decreases the street tax rate.

If you are interested in having Better Streets at less cost, let us send you our new free booklet, "Concrete Roads."
