## CRICKET.

Will They Visit St. John? Letters by the last arriving Australian mail give the good news that Victoria, Vancouver, Winnipeg, Montreal and the other important Canadian cities will be visited by the all-Australian cricket team going to England in March next. The Antipodeans having decided to try the all-rounder this year instead of going "home" by way of the States. It is expected that they will arrive here in mid March or later, as they are

## THE VALUE OF CHARCOAL.

Many people know how useful it is in preserving health and beauty. Charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better it is, not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or eating onions and other odorous vegetables. Charcoal effectively cleans and improves the complexion, it whitens the teeth and further acts as a natural and eminent safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disintegrates the mucus and throat from the poison of catarrh. All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges; they are composed of the finest powdered Willow charcoal, and other harmless antiseptics in tablet form or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better blood, and the beauty of it is, that no possible harm can result from their continued use, but on the contrary, great benefit.

A Buffalo physician in speaking of the benefits of charcoal, says: "I advise Stuart's Charcoal Lozenges to stomach and bowels, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the daily use of them; they cost but a few cents a box at drug stores, and although in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

not due in London until about April 20. It will be too early for matches to be thought of during the passage of the Australians through Canada, but Victoria and Vancouver will not doubt give them a hearty welcome, and perhaps they may be induced to return by Canada also, and give Canadian cricketers a taste of their quality.

## THE TURF

## Largest Wager Ever Made.

The largest wager ever made on a horse race in the history of the turf was made by Mr. Henry Chaplin when he backed his horse Hermit to win \$200,000, the odds being 80 to 1. Capt. Macell took the Hermit bet for Mr. Chaplin, and the layer was the Duke of Hamilton. But long before the Derby won by Hermit, in 1867, was run both the layer and the taker agreed to call off the wager.

## SKATING.

## The Police Sports.

The policemen are working hard for their sports, to which the citizens are looking forward with interest. Never before have the men responded so cheerfully, and each works as if the entire success of the event depended on his own particular efforts.

A large number of beautiful and appropriate presents have been contributed, which will within a few days be placed on exhibition.

The grand athletic programme of the Victoria Rink on the 18th will be replete with stirring events in which all the local crack skaters will participate. There will be costly prizes to urge them to their utmost effort. It will be really the first speed meeting of the season. As usual there will be the service races and races for other classes.

## WRESTLING.

## Hawkey Challenged.

Belleville, Ont., Jan. 7.—(Special.)—Hawkey, the wrestler of Beloit, has been challenged to a match. The proprietors of the Anglo-American Hotel, in this city, have a man whom they are willing to back for \$100 to \$500 against Hawkey for a match at 160 pounds.

## SKATERS SUSPENDED.

Should Get Reinstated Before the Policemen's Sports Are Held.

K. J. MacRae, the representative of the M. P. A. A. for New Brunswick, has been suspended this morning from skating in the Victoria rink at the rink in the city who are at present under suspension by the M. P. A. A.

Mr. MacRae said that many of these young men are under the impression that they were suspended 30 days only, and that at the end of that period they were automatically reinstated.

Mr. MacRae said that this is not so. A man is suspended until he goes before the association's representative and makes affidavit, which affidavit is forwarded to the head officials of the M. P. A. A., and they decide as to whether he shall be reinstated or not.

The police sports to be held in Victoria rink next Friday are under the sanction of the M. P. A. A., and those men who are under suspension now will not be allowed to compete unless they take the steps necessary to entitle them to do so.

Those under suspension at the present time are: Andy Price, Willie Semple, Heans, Whitehouse, McCourtin, Ramsay, Coleman, Logan and others.

If these men expect to take part in the sports next Friday, they will have to appear before Mr. MacRae, and make affidavit, so that they can be reinstated. Of course being under suspension would not bar them from skating in the Victoria rink at the scrub races when no prizes are offered, but they could not take part in any races elsewhere which were held under the sanction of the M. P. A. A.

It is to be hoped that the men will take advantage of the suggestion of Mr. MacRae, and get reinstated, so that they can skate in the different events of the policeman's sports.

## HIGH FINANCE.

The president of the National Bank of Altholm sat in his private office. The door opened and John D. Rockefeller was ushered in. "Good morning," said the president, "what can I do for you?"

"I want to borrow \$250,000," replied Rockefeller. "On what security?" "Standard Oil," was the reply.

The president of the bank shook his head. "Not good enough," he said firmly, adding, "please don't bang the door as you go out."

A few minutes later a veiled woman entered the office of the president. "I want to borrow \$1,250,000," she whispered.

"Have you any security?" asked the president. "Merely as a matter of form, I assure you," he hastened to add, as he thought no detected signs of weeping behind his visitor's veil.

"Oh, do you want security?" asked the woman. "Give me a piece of paper and a pen."

She wrote a few words and presented the paper to the president. "Ah, Carnegie's note for \$5,000,000," he exclaimed. "Are you sure of the signature is genuine?"

"Sure, Mike," responded the mysterious stranger, "didn't you see me write it?"

"Certainly, certainly. A million and a quarter, I think you said. No thing more today? No Gladstone oblige you at any time. Good day; don't forget the number."—Portland Oregonian.

THE TIMES AIMS TO BECOME PAPER EAST OF MONTREAL.

## NEURALGIC PAINS

ARE THE CRY OF THE NERVES FOR BETTER BLOOD.

Enrich The Blood and Neuralgia Will Disappear—It Is Only These Whose Blood Is Poor and Watery That Suffer.

No part of the human system is more sensitive than the nerves. Many of the most excruciating pains that afflict mankind come from weak, shaky, shattered nerves, and among the nerve pains there is perhaps none causes more intense suffering than neuralgia, which generally attacks the nerves of the face and head, sometimes causing, swift, darting, agonizing pains at other times a dull, heavy aching feeling which makes life miserable. There is only one way to get rid of neuralgia, and that is through the blood. Poor watery blood makes the nerves shaky and invites disease. Rich, red blood makes the nerves strong and banishes all nerve troubles. No medicine in the world can equal Dr. Williams' Pink Pills as a blood builder and nerve tonic; every dose helps to make rich, red blood, and every drop of this new blood feeds and strengthens the nerves and banishes all nerve aches and pains. Among those who offer strong proof of this is Mr. John McDermott, Bond Head, Ont., who says: "A few years ago while working as a carpenter in Buffalo I got neglected to change my clothes and next morning I awoke with cramps and pains throughout my entire body. I was unable to go to work so called in a doctor. I followed his treatment, but it did not help me. As I was unable to work I returned to my home at Bond Head. Here I consulted a doctor who said I was suffering from neuralgia, but though he treated me for some time, he also failed to help me. I had often read of Dr. Williams' Pink Pills, so decided to try them. I had not used more than three boxes before I felt they were helping me. From that on I gained day by day, and after I had used some ten boxes I had regained my old-time strength and had been able to work at my trade without any trouble. This remedy had no longer any effect on me, and I have gained a weight. I think Dr. Williams' Pink Pills are an invaluable medicine and shall always have a good word to say for them."

Two Robust Women Who Owe Their Restored Health and Usefulness to Pe-ru-na.

Thankful Women Who Have Been Cured by Dr. Hartman's Free Treatment. Mrs. J. E. Finn, 22 East High St., Buffalo, N. catarrh of these organs. While each case presents some minor difference as to detail, they are all in reality alike. Peruna does not relieve these cases by temporarily mitigating some symptoms, but by a removal of the cause. Many a woman can testify that local treatment does not permanently cure. A large multitude of women are constantly going from doctor to doctor to receive local treatment, with little or no result.

In Peruna these women find a prompt and permanent cure. Testimonies of cures. Peruna has come to be recognized as the greatest remedy for catarrh in the world. At first competitors tried to deny this and insisted that their remedies were just as good. This was found to be impossible, however, and now imitations are sprouting up everywhere.

To successfully palm off an imitation of Peruna even for a short time is sure to be a money-making scheme, but no one who has ever taken Peruna can be fooled on these imitations. No conscientious druggist would sell one of them. Every purchaser should look carefully at each package of Peruna he buys, to be sure that he is getting only genuine Peruna.
