## What Is Urlus Doing?

## Look at This Picture

Is the Great Urlus listening to himself? You have seen innumerable pictures of artists listening to their talking machine records, but Urlus IS NOT listening to himself.

## He is Comparing His Voice With Edison's Re-Creation of It

No talking machine manufacturer would dare to submit his talking machine to such a test. It would be too ridiculous. But mark this: Mr. Thomas A. Edison has submitted HIS NEW INVENTION

## The NEW EDISON

to this direct comparison before two hundred thousand music lovers in the principal cities on this continent, and this multitude, as well as the music critics of more than two hundred newspapers, were unable to distinguish the singers' living voices from Edison's Re-Creation of their voices.

## Not a Talking Machine

The New Edison is not a talking machine. When you hear this wonderful new invention, you will readily concede that it is not.

## We Want You to Hear It

We are licensed by Mr. Edison to demonstrate this new instrument, and we request the privilege of giving you an Edison Musical in our store at any time that suits your convenience.

## More Money for the Farmer

WHEN live stock is tormented by vermin, lice, mites or flies, it cannot be profitable. You can prevent this annoyance and have more profitable stock by using Creonoid. Think this over. It means money for you.

Creonoid stands alone as a lice killer and cattle spray. Economical too, because it is strong and it keeps very long. Give your horses and cattle a line, long distance spraying, so that they get the vapor. It will make them clean and vermin free. Put more Creonoid in the battery and pigery. The use of Creonoid means better stock, more eggs, more good porters, more milk. Try some now.
