Oak Hall's 33rd Anniversary

Sale Ends Saturday Night.

attend this event the first few days ample opportunity to fill their requirements with every assurance that they are securing equally as good selection as would have been made during the open-

Oak Hall's 33rd Anniversary Sale, which is now conceded to be St. John's greatest mercantile event, will come to an end Saturday night at 10 o'clock, but between now and then are many shopping hours during which one can take full advantage of the hundreds of moneysaving opportunities.

Would have been made during the opening days.

The buying public fully realize that this is not an ordinary sale. They realize that it is a tremendous effort put forth by Oak Hall to strengthen their good will with their large and everywiden their circle of customers to a greater sphere. To accomplish this, Oak Hall set aside these ten days for the buying public's benefit, offering everysaving opportunities.

for cash at less than market quotation, and marked at a very minimum of pro-fit; so that this sale is really unique in character and has truly earned its place

At the opening of the Made-in-Can-ada exhibit at Eaton's, Toronto, this week, W. S. Fisher spoke. The Toronto week, W. S. Fisher spoke. The Toronto Globe report says:—

"Although we must deplore the war and its terrible sufferings, we cannot fail to recognize the impetus it has given to manufacture in Canada," said W. S. Fisher of St. John, N. B., president of the C. M. A. "The war period brought with it a necessity to embark upon new ventures in manufacture, in some cases attempts which never before had been made in Canada were now pushed forward. The war stimulated our efforts to such an extent that the progress made in Canadian manufacture during that time would equal a twenty-five-year period under ordinary conditions," he said. Should Cut Down Imports.

"During the year 1920 we exported to the Ut. d States to a value of one million and a half each day, but we imported from that same country to a value of

ed from that same country to a value of two and a half millions each day," le stated. "The question is not whether this is right, but whether it is necessary that this should continue. We ought to be able to cut this two and a half mil-

The speaker next touched upon the necessity to increase Canada's export trade. "As citizens and business men, we should stimulate the export trade of the country," he counselled. "We must increase our revenue. We must create surplus money in order to carry on the business of the country. Canada is trying to find new markets. The delegation of the Boards of Trade and the C. M. A. leave shortly for the West Indies. I know from personal experience that this delegation which sets out to Is Scrofula

Charlottetown, P. E. I., Jan. 27—J. D. McDonald of Cardigan, owner of the schooner Barbara A. McDonald, smashed to pieces on the Newfoundland Coast about two years ago when the crew had a miraculous escape, is being sued by the Dominion Government for the amount paid to the Newfoundland Government for clothing and food supplied the shipwrecked crew.

Liver Trouble Is Usually Due to Constipation

When you are constipated, there is not enough lubricant produced by your system to keep the food waste soft. Doctors prescribe Nujol because its action is so close to this natural lubricant. Nujol is a lubricant—not a medicine or laxative—so cannot gripe. Try it today.

The Joy of a Well Furnished Home

Every bride begins married life with a firmly fixed idea of what her home is to be-"some day." But how many of them realize

Brides' homes are generally furnished more or less temporarily. Odd pieces of furniture are added from time to time as necessity arises. But the years go by. Other expenses come along. Habit accustoms the family to things as they are, and ideals fade.

It is one of the great mistakes of married life to allow the ideals and hopeful aspirations of youth to fade away unrealized.

We can aid y a to "Realize Your Ideal."

that this delegation which sets out to get in touch with the people and the bus-iness men of the West Indies will be iness men of the West Indies will be received with open arms.

"Not only the West Indies, but the whole Empire of which we form a part, and even Mexico and the South American Republics, are anxious to trade with Canada," said Mr. Fisher.

In speaking of United States branch factories, which had been established in this country in the past, Mr. Fisher remarked that these factories had gained a firm footing, and they contributed a considerable percentage to Canada's export trade.

Strides in Transportation.

"Immense strides have been made in the matter of transportation in Canada during the last decade. The ships of the Canadian Government Mercantile Marine are calling at nearly every port in the world. It only takes some of the courage and initiative of our immediate

As Often Acquired as Inherited.

You have eruptions and sores, and perhaps enlarged glands of the neck. This blood disease affects the internal organs, especially the lungs, and if neglected may develop into consumption.

It causes many troubles, and is aggravated by impure air, unwholesome food, bad water, too much heat or cold, and want of proper exercise.

Hood's Sarsaparilla, the blood-purify-medicine that has been used with so much satisfaction by three generations, is wonderfully successful in the treatment of scrofula. Give it a trial.

If a cathartic or laxative is needed, take Hood's Pills.

LOWERING OF RATES

After the meetings of the Dominion board of railway commissioners in Halifax and St. John, there was a conference held between representatives of the railways and the farmers about the rates on fertilizers. C. M. Hayes represented the C. N. R., W. H. Macdonell the C. P. R., and A. A. H. Margeson and H. B. Durost the farmers. The railway men thought that it would be impossible to effect a general lowering of fertilizer rates, but suggested several concessions which brought the rates of some of the high price ones more nearly equal to the others and made rates to different parts of the province more equal. These findings will be communicated to the Railway Commission, and it is hoped that they will be effective by February 1.

Hamilton. Ont., Jan. 27 — The local Board of Health will recommend to the provincial health authorities the enactment of new legislation which will make it a breach of the Public Health Act for anyone to maintain rats or vermin in premises. Sanitary Inspector W. T. Thornley informed the board that the rat menace in Hamilton was becoming serious, yet, owing to the lack of any civic ordinance, nothing further could be done than to appeal to owners of rat-infested premises to take voluntary action toward abating Coffee
