N. S. GRAND LODGE AT LUNENBURG

Lunenburg, N. S., June 14.—The grand lodge of the Masonic Order in Nova Scotia opened its annual sessions here today. Rev. G. M. Matthews, grand chaplain, presided at the communication sermon in the Presbyterian church, taking for his text "For none of us liveth for himself," and speaking in the "Free Masons' Value to Society." Delegates and their wives to the number of five hundred visited the mouth of Lunenburg harbor by tug boat and vessel.

HERE'S FROM AN ACTUAL PHOTOGRAPH
A former Canadian Minister of Finance in his Disappearing Propeller Boat

DON'T you agree that the fellow who owns a motor boat and has the one who gets the best fun out of their vacation spent by the water? And this is just the ideal boat. In addition to its famous patented deck—automatically raising the propeller to safety—these boats have some remarkable advantages. They are beautiful boats with graceful lines and elegant fittings. They are staunchly built—strong and sturdy. They are essentially and safely stabilizing the boat in midships. A Disappearing Propeller Boat is almost an indispensable part of your vacation.

A NEW CHAMPION COW.
Produces 26,632 Pounds of Milk, 1,439 Pounds of Butter in a Year.

A new Canadian milk and butter production record has been established by De Kol Plus Segis Dixie of Vaudeville, in the Province of Quebec. This thoroughbred Holstein produced 26,632 pounds of milk and 1,439 pounds of butter, under official test conditions, in twelve months.

The test was under the supervision of officials of the Canadian government. The year's production does not constitute a Canadian record either in milk alone or in butter alone, but in combined milk and butter production it is the highest record ever made in the Dominion.

Only one cow in the world has surpassed it. This world's record was scored by Segis Pietrie of Prospect of the Carnation Farms, in the State of Washington.

The Dominion Dental Council examinations are being conducted in this city at present with Dr. A. F. McAvenny as presiding examiner. The examinations commenced yesterday and will continue until Tuesday, June 20. Nine candidates have entered. The New Brunswick examiners are Dr. F. C. Bonnell and Dr. W. P. Broderick.

You Can't Economize by Wearing One Suit Continuously

You may not know it, but suits, like people, get tired. If you keep them in service day in and day out, they lay down on the job. The thing to do, for greatest service and economy, is to alternate wearing two or more suits. Give them a chance to rest and revive.

What's more, you'll find yourself feeling better dressed if you do something about the change that makes you feel better yourself.

We constantly present a wide assortment of new ideas and this makes it easy to choose two or more suits. We'd like to show them to you. Priced 35 and upwards, specially straining values at \$30 to \$45.

GROOM KILLED; BRIDE INJURED

Honeymooners Insisted on Flight During High Wind—Pilot Escapes With Some Bruises.

Chicago, June 15.—Honeymooners bent on flying induced a pilot at Ashburn Field to take them up after he had protested because of dangerous winds. The plane reached a height of 300 feet, then crashed to the ground. The bridegroom, Leticia Wheeler of Lion City, Ill., was killed and his bride was badly injured and the pilot, Johnny Metzger, was stunned and bruised.

A score of prospective patrons visited the hangars kept by Pilot Metzger at the flying field today, but each was told that the high winds of the day made flying very dangerous—that the pilots did not want to risk their passengers' lives by making flights. And until Mr. and Mrs. Wheeler arrived there was no flight.

Wheeler called Metzger aside. He told of the long journey he and his wife made to the flying field and of how much they wanted the experience.

"But it's dangerous, man," Metzger protested.

"We'll take the risk," Wheeler assured him. "Let's go."

Metzger allowed himself to be persuaded. The trio were strapped into the plane and up it went. A gust of wind with a downward slant hit the tail of the plane. It veered, twisted and went
