

# STRONG PLEA FOR HOME FOR FEEBLE MENDED

What Nova Scotia Is Doing For Neglected Children—Some of The Public Institutions Are Overcrowded At The Present Time

(Halifax Chronicle.)

The report of the Superintendent of Neglected and Delinquent Children for the Province of Nova Scotia, Ernest H. Block, was laid on the table of the House of Assembly last week by the Attorney-General, under whose department this most important work is administered. The report is a humbling contrast to the many voluminous statistical reports which are produced weekly on the part of the province, and in a most comprehensive manner with the conditions affecting the care of children who are wards of the state to a great degree makes a plea from almost every part of the province for a home for the feeble-minded in order that those unfortunate may be better cared for, and at the same time so detrimentally affect those with whom they are now forced to come into contact.

There is no section of the report of greater interest than the report of Dr. J. J. Hunt, of the Juvenile Court of Halifax. During the year that court dealt with 269 cases of children brought before it, eleven of whom were females, and their ages were from six to sixteen years. Judge Hunt speaks of the improvement in the accommodation for his court. He says that the formation of a juvenile court has made a great and desirable change in the treatment of children. At one time when a child did wrong he was treated in the same way as an adult criminal, and the effect of this was most disastrous. The object of the juvenile court is to prevent crime among children. "It was indeed regrettable that crime was prevalent among the children. In view of the number of truant and other cases coming before me, I am persuaded that something is wrong behind the boy, as well as with the boy, either in the home or in the environment, or perhaps in a little of both, said Judge Hunt.

Judge Hunt classified the children coming before him into the following classes:—

First—Truancy, children who do not attend school as the law requires.

Second—Delinquency children who violate the law.

Third—Neglected children, children who are homeless and destitute.

In concluding his report Judge Hunt refers to the children as the treasures of the nation.

**Wide Field For Work.**

What is being done for the delinquent and neglected children of this province is well set forth in the report; at the same time one may readily learn from a perusal of its pages that there is a wide field for far more aggressive work, and for far greater provision than has yet been made for the children of Nova Scotia, who are orphaned at an early age who are born under circumstances of illegitimacy as the law now declares them, who are born of parents that err in the natural instincts of fatherhood or motherhood and leaves them to the cold neglect of the world, or with whom nature itself dealt unkindly and gave them not the advantages of normal minds and moral conceptions.

The report on poor farms and county homes shows conditions which the inspectors report most strongly against. As to the compulsory school laws, the report says that in most of the towns, especially the smaller ones, little effort is made to enforce attendance, with the result that a considerable number of children are growing up without common school education. Last year's report of the superintendent very strongly urged a uniform compulsory school law for the whole province, as he questioned whether any municipality had the right to say that its children did not require an education.

The report has to deal with a number of agencies which are dealing with the problem of neglected and delinquent children. There are the Children's Aid Societies in many of the counties. There are reformatory institutions, the Juvenile Courts of Halifax and Pictou County, poor farms and county homes.

The Institutions.

There are four reformatory institutions in the province, namely, the Halifax Industrial School for Protestant Boys; the Maritime Home for Girls at Truro; the Protestant Home for Girls at St. John's; the Roman Catholic Home, Halifax, for Roman Catholic Boys; and the Monastery of the Good Shepherd, Halifax, for Roman Catholic Girls.

The report says that the present system of committing children to our reformatory for fixed terms, and then confining them together in the institutions of all grades of mental and moral defects, cannot be too strongly condemned.

The Maritime Home for Girls at Truro is a credit to its board of management and to the whole province.

Special praise is given to the work of the Monastery of the Good Shepherd at Halifax. With regard to clothing there is a strong complaint that the clothing furnished to the Halifax Industrial School is neither in quality nor quantity reasonably sufficient. At St. Patrick's Home there is overcrowding, and new buildings are urgently needed.

On September 30th, 1920, there were 185 inmates of the Monastery of the Good Shepherd, Halifax.

The Maritime Home for Girls at Truro on that date was housing fifty-six inmates.

The total number in St. Patrick's Home was 110, and in the Halifax Industrial School, ninety-three.

Besides these foregoing institutions there are a number especially catering for orphaned or neglected children run under both Protestant and Catholic administration.

**A KIDNEY REMEDY**

Kidney troubles are frequently caused by badly digested food, which overtaxes the organs, and eliminate the irritant acids formed. Help your stomach to properly digest the food by taking 15 to 30 drops of Extract of Root, said as Mother Seigel's Curative Syrup, and your kidney disorder will promptly disappear. Get the genuine.

tration. The report says they are doing good work, and, in view of the superintendency of Dr. Eliza Brison, for which they were established than the reformatory institutions which receive large public grants. "Loving care is a greater factor in the successful management of these institutions than untold wealth."

The money invested in reformatory institutions in Nova Scotia is given as \$716,000, including real estate, furnishing and equipment and cost of annual maintenance. For institutions for caring for children approximately half a million is invested.

There is a very comprehensive report on the splendid work which the Daughters of the Empire are doing in their home for Mentally Defective Girls under the superintendency of Dr. Eliza Brison. St. Mary's Home in Sydney is another institution, opened only for a few years, but has cared for 250 children in that time. The Orphans' Home at Halifax, the Infants' Home, also in Halifax, Protestant Orphans' Home at Truro, Home of the Guardian Angel, St. Paul's Home for Girls, Halifax, St. Joseph's Catholic Orphanage, all show wonderful work being attempted and accomplished for the children of the province who are the wards of the nation.

The past year, for which the report is made, witnessed the erection of a home for colored children near Hantsport. The Juvenile Court.

The report on the Juvenile Courts of the province, of which there are two, one at Halifax and another at Pictou, showed that the total number of delinquents before the Halifax court, and before the Pictou court, twenty-five, of which one was a female.

The superintendent reports some very bad conditions existing in the county home and poor farms. For instance, he tells of individual cases, as follows: "It is deplorable that children of normal mentality should be confined in such institutions. At Marshalltown, in the county of Digby, we found a bright and attractive little girl of about ten years of age in the same ward with seven other inmates ranging in ages from four years to twenty years, and three, nearly all of whom were suffering from mental and physical diseases. There were present, the imbecile and idiot, epileptic and morose, together with an unfortunate woman awaiting confinement, and the aged and infirm. As these people all lived by day and sleep by night in the one ward, it is plain to the public that this would not be a fit place to bring up a normal and bright child. In this case we received notice from the superintendent of the home and responsible representatives of the municipality, to take the child and a proper home for her, and we agreed to report that a most excellent home was found where the little girl is very happy and contented.

In a charitable almshouse, Shelburne county, is a bright little girl of about ten years of age, who certainly should not be in this institution.

At the Shelburne asylum there were five children under the age of sixteen, three boys and two girls. One boy, twelve years of age, was healthy and bright, and attending the school, which was at some distance from the institution. This lad has been in the institution for some years, and his mother, who speaks very highly of this little lad, left in this environment.

In this institution there were two girls, sisters, six and eight years of age, whose parents are feeble-minded. One girl appears to be mentally normal.

Minard's Liniment Relieves Neuralgia.

## HIS TESTIMONY HITS MINISTER OF THE CROWN

Toronto, April 1.—That Hon. F. C. Biggs, Ontario minister of highways, told the House of Commons yesterday that he "kept their mouths shut" there would be no tenders on the \$117,000 government order for motor trucks given Parliament on behalf of a Milwaukee firm, was the evidence given today by Roy A. Reynolds, who at the time was an employee of Parkin Reynolds made a statement to this effect before the public accounts committee of the legislature investigating the matter. The witness said that he discussed the question as to what Mr. Biggs was entitled to in connection with the contract, and \$3,000 was the amount mentioned in a letter to a question by Hon. E. C. Drury, premier, as to whether he had any idea that the \$3,000 he was talking about would ever have reached Mr. Biggs. He testified that he had never been approached in that regard.

**Minard's Liniment For Burns, Etc.**

**A POST-MORTEM EXAMINATION ON BODY OF PERRY**

Yarmouth, N. S., April 1.—An autopsy was held today on the body of Captain Perry, who was killed yesterday by a train at Yarmouth. The body was exhumed in Mount Pleasant cemetery yesterday by Thomas H. Grace, the superintendent and his assistants. At noon Undertaker Sweeney arrived at the cemetery and took the body to his undertaking room, where Medical Examiner Finn examined it today.

The medical examiner confirmed the findings of the Yarmouth physicians and expressed the opinion that the wounds could have been inflicted with an instrument, such as the iron bar exhibited at the inquest.

**Perry Estate Probated.**

In the probate court this week administration was granted to the estate of Captain Perry to the widow, Mrs. Clara Eliza Perry, formerly of St. John, who made application therefor. Miss Clara E. Perry, the only daughter of age at present living in the province, renounced all her right and title to such administration.

The estate, for purpose of administration, is valued at \$15,400, of which \$34,000 is real estate, and \$11,800 consisting principally of shares in companies, is personal estate. There are four daughters, besides the widow, interested in the estate. They are Clara Eliza Perry and Eleanor Rogers Perry, the eldest and youngest at present at home, and Florence Evangeline Perry, of Toronto, and Caroline Alice Perry, of Outlook (Sask.).

Conductor Miles B. Wilson of the C. N. R. was taken ill in St. John Thursday and was obliged to return to Montreal as a passenger on his express.

## Cuticura For All Skin Irritations

Bathe with Cuticura Soap and hot water to free the pores of impurities and follow with a gentle application of Cuticura Ointment to soothe and heal. They are ideal for the toilet as is also Cuticura Talcum for perfuming.

See it at: O'Connell 25 and St. John 25, Sold Everywhere. Cuticura Soap and Ointment, 344 St. Paul St., W. Montreal.

## FREE TO ASTHMA SUFFERERS

Free Trial of a Method That Anyone Can Use Without Discomfort or Loss of Time.

We have a method for the control of Asthma, and we want you to try it at our expense. No matter whether your case is of long standing or recent development, whether it is seasonal or perennial or chronic asthma, you should send for a free trial of our method. No matter in what climate you live, no matter what your age or occupation, if you are troubled with Asthma, our method should relieve you promptly.

We especially want to send it to those apparently hopeless cases, where all forms of inhalers, douches, opium preparations, fumes, "patent medicines," etc., have failed. We want to show everyone at our expense, that our method is designed to end all difficult breathing, all wheezing, and all those terrible paroxysms.

This free offer is too important to neglect a single day. Write now and begin the method at once. Send no money. Simply mail coupon below. Do it Today—you do not even pay postage.

## FREE TRIAL COUPON

FRONTIER ASTHMA CO., Room 533 N. Niagara and Hudson Streets, Buffalo, N. Y.

Send free trial of your method to:

## C. P. R. TAKES OVER C. P. C. S. TRAFFIC

The amalgamation of the Canadian Pacific Ocean Services with the C. P. R. took place yesterday all over Canada. According to local officials of the C. P. R. and C. P. O. S., however, this change means that the C. P. R. will take over the traffic department of the C. P. O. S. The traffic department was transferred yesterday afternoon from the C. P. R. building, West St. John, but the passenger department remains, as before, under William Webster, who will be known as general passenger agent at the station of embarkation for the C. P. R. steamship traffic. The traffic department of the C. P. O. S. is being transferred to the C. P. R. building, West St. John, but the passenger department remains, as before, under William Webster, who will be known as general passenger agent at the station of embarkation for the C. P. R. steamship traffic. The traffic department of the C. P. O. S. is being transferred to the C. P. R. building, West St. John, but the passenger department remains, as before, under William Webster, who will be known as general passenger agent at the station of embarkation for the C. P. R. steamship traffic.

## APPENDICITIS OPERATIONS NOT ALWAYS NECESSARY

Warm Water Properly Applied Cures All Advanced Cases.

Among the thousands of letters we receive expressing gratitude over restoration to health through the use of the internal B. L. Cascade, completely re-opens the bowels of many persons who have been sufferers from appendicitis.

Hundreds of surgical operations for appendicitis have been avoided by reason of the timely employment of the J. B. L. Cascade. Most troubles arise from the accumulation of waste in the colon, a lower intestine, from which poisons are carried to other parts of the system. Cleansing of the Intestinal tract with pure warm water, applied with the J. B. L. Cascade, removes the causes of a large number of common ailments—constipation, indigestion, headache, loss of energy and rheumatism.

Mr. James McLaughlin, 91 Evanston street, Winnipeg, writes: "I bought a J. B. L. Cascade for the cure of a bad case of appendicitis. My doctor told me I must have an operation at once. I had spent more than fifty dollars in doctor bills, but the Cascade completely re-opened my bowels in a few days every trace of soreness and pain. I eat and sleep well and have regained my former weight, and am now in the best of health."

A mother from R. R. No. 1, Leamington, Ont., writes: "About two weeks ago our eldest son, who is sick with cramps in the bowels so bad he could not move. Our doctor gave him hypodermic injections and ordered him to the hospital to be operated on at once. Before doing so, however, I induced him to use the J. B. L. Cascade, and in less than a week he was up and around, and has been well ever since. It has cured me of severe headaches and constipation."

The "J. B. L. Cascade" is being shown and explained at Clinton E. Brown's and P. W. Munro's druggists, St. John.

Ask for booklet or write Tyrell's Hygienic Institute, 163 College street, Toronto.

## ANOTHER VICTIM OF RHEUMATISM

Entirely Well After Six Weeks' Treatment With "FRUIT-A-TIVES"

MR. AMEDEO GARCEAU.

32 Hickory, St. Ottawa, Ont.

"I was for many years a victim of that terrible disease, Rheumatism. In 1913, I was laid up for four months with Rheumatism in the joints of the knees, hips and shoulders and was prevented from following my work, that of Electrician."

I tried many remedies and was under the care of a physician; but nothing did me any good. Then I began to take 'Fruit-a-tives' and in a week I was easier, and in six weeks I was so well I went to work again.

I look upon this fruit medicine, 'Fruit-a-tives', as simply marvellous in the cure of Rheumatism, and strongly advise everyone suffering with Rheumatism to give 'Fruit-a-tives' a trial.

AMEDEO GARCEAU.

50c a box, 6 for \$3.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

## SECOND JURY FINDS WM. NEARN GUILTY

A verdict of guilty on the second count in the indictment against him, namely of attempting to seduce a girl under the age of fourteen years, was found yesterday after about an hour's deliberation by the jury in the case of William Nearn. The code named the prisoner found guilty under the charge liable to two years' imprisonment and to be whipped. There is a simultaneous charge against Nearn in which another child is named and adjournment was made by Mr. Justice Crockett until Tuesday next when this will be commenced.

A special jury panel of twenty-one is being summoned now by the sheriff. His honor, Judge Crockett, said yesterday that the jury panel would be ready for a reserve case on the grounds, asked for, that the evidence was not sufficient to convict Nearn of the offence of seduction, but said that this would not preclude counsel from taking the matter to the court of appeal. Dr. W. B. Wallace, K.C., represents the crown.

## Tells the People He is Satisfied

QUEBEC MAN TALKS ABOUT DODD'S KIDNEY PILLS.

Mr. Joseph Soucy Gives the Reason Why the Twenty Years' Dodd's Kidney Pills Have Grown in Popularity With the People of Canada.

Mont Joli, Rimouski Co., Que., April 1.—(Special.)—I got great benefit from the use of Dodd's Kidney Pills. I am satisfied and I want to tell the people so.

That is the brief statement of Mr. Joseph Soucy, a well known and highly respected resident of this place. He tells the secret of the popularity of Dodd's Kidney Pills. Satisfied people are telling their neighbors about them.

Dodd's Kidney Pills are a kidney remedy. They strengthen the kidneys so they can do their full work of straining the impurities out of the blood. Dodd's Kidney Pills have been used for backache, diabetes, rheumatism, dropsy, urinary troubles and heart ailments. People who used them are satisfied.

Ask your neighbors about Dodd's Kidney Pills.

## GLORIOUS HAIR

Delmay's Vitale French Hair Tonic cures beautiful, luxuriant hair. Prevents baldness, benighted dandruff, nourishes the roots. A highly beneficial and delightful hair dressing. Price One Dollar for a generous sized bottle. If not obtainable at your druggist, write to: Robson & Co. Limited, Montreal.

For sale by J. BENSON MAHONEY.

## Shave, Bathe and Shampoo with one Soap—Cuticura

Cuticura Soap is the most perfect remedy for every skin disease.

## \$250,000 IN DRUGS SEIZED IN BIG PLOT

Five Men and a Woman Arrested in a Raid—Smuggled From Germany.

New York, April 2.—A woman and five men were locked up in the Police Headquarters on Wednesday on charges of violating the Harrison Narcotic law, after detectives under Dr. Carleton Simon, Special Deputy Police Commissioner, aided by Ralph A. Oyler, head of the Internal Revenue Department's narcotic division, had seized cocaine, heroin and morphine in a grocery at 829 Sackett street, Brooklyn, which they valued at \$250,000.

Detective Moog several days ago, Dr. Simon said, became acquainted with Benjamin Leon, 46 years old, of 22 Prospect street, Brooklyn, while the detective was posing as a sailor in one of his boarding houses. Moog, it was alleged, confided to Leon that he was the representative of a band of Canadian drug traffickers, who had sent him to purchase a consignment of drugs sent to Brooklyn from Germany.

Dr. Simon declared that Leon told Moog he knew where the consignment of narcotics was stored, and later introduced the detective to his wife, Mrs. Lillian Leon, 20 years old, at their home, where it was alleged, Mrs. Leon joined in the arrangement for the purchase of the drugs.

On Monday afternoon, Moog told Dr. Simon, he introduced Detective Higgins to the Leon as the head of the band of Canadians desirous of purchasing the entire consignment of narcotics. It was arranged, he said, for Higgins and Moog to meet Leon yesterday forenoon. Detective Higgins in the meantime had two detectives to cover the grocery store kept by Dominic Carullo at 829 Sackett street, where he saw them in conversation for several hours with the grocer and three other men.

When Detectives Moog and Higgins met Leon yesterday he led them to the grocery store, where they found Mrs. Leon, and three brothers, who later said they were Frank Lacata, 40, of 111 Rapelystreet; Joseph Lacata, 34, of 41 Westchester street; and Michael Lacata, 24 years old, 297 Columbia street.

The two detectives declared last night that Leon declared them to the grocer and the three brothers as the men who wanted to buy the cargo.

The grocer was alleged to have led the two detectives to a warehouse in the rear, where Detective Croger had hidden himself earlier in the day, and while the grocer and the other four men were examining the bundles of cocaine, morphine and heroin from boxes in the warehouse, Detective Croger jumped from his place and seized the men.

This same well-known authority, in describing the physiological action of Tanlac, the celebrated medicine which has been accomplishing such remarkable results throughout this country and Canada, is composed of the most beneficial roots and herbs known to science. The formula is purely ethical and complies with all National and State Pure Food and Drug Laws. Altogether, there are ten ingredients in Tanlac, each of which is of recognized therapeutic value.

Many of these ingredients have been individually known and used since civilization first began, and some of them have been used and prescribed by leading physicians everywhere, but until they were brought together in proper proportion and association, as in the Tanlac formula, humanity had not heretofore realized their full value and effect.

In referring to one of the more important ingredients of Tanlac, the Encyclopedia Britannica says: "It has been the source of the most valuable tonic medicines that have ever been discovered." In referring to others of the general tonic drugs contained in Tanlac, the 18th Edition of Poter's Therapeutics, a standard medical text book, states that: "They impart general tone and strength to the entire system, including all organs and tissues."

In referring to one of the more important ingredients of Tanlac, the Encyclopedia Britannica says: "It has been the source of the most valuable tonic medicines that have ever been discovered." In referring to others of the general tonic drugs contained in Tanlac, the 18th Edition of Poter's Therapeutics, a standard medical text book, states that: "They impart general tone and strength to the entire system, including all organs and tissues."

This same well-known authority, in describing the physiological action of Tanlac, the celebrated medicine which has been accomplishing such remarkable results throughout this country and Canada, is composed of the most beneficial roots and herbs known to science. The formula is purely ethical and complies with all National and State Pure Food and Drug Laws. Altogether, there are ten ingredients in Tanlac, each of which is of recognized therapeutic value.

Many of these ingredients have been individually known and used since civilization first began, and some of them have been used and prescribed by leading physicians everywhere, but until they were brought together in proper proportion and association, as in the Tanlac formula, humanity had not heretofore realized their full value and effect.
