FINED FOR SPITTING ON THE SIDEWALK

Young Man Is Punished for Offense Against the Civic By-Law.

(From Wednesday's Daily.) The first case to be brought in the police court for infraction of the city by-law against spitting on the sidewalks was disposed of this morning, when Thomas Savory was fined for the offence. Although this is the first prosecution that has been brought under this by-law it is not likely to be the last, for from now it is to be enforced to the letter.

Savory explained that he did not know it was against the law to do as he had done and promised to be more careful in the future.

The magistrate informed him that he was liable to a fine of \$50 for the offence, but, as this was his first offence, he would let him off with the payment of \$5.

Savory promptly produced the money and was allowed to go.

HOUSE DIVIDED AGAINST ITSELF

Vancouver Exclusionists Are Still Torn by Internal Dissensions.

Vancouver, March 24.—The meeting of the Asiatic Exclusion League last night was marked by several small disagreements. The financial standing of the league was under discussion, and it was shown that there was a balance in hand of \$150. Several members wanted the books to be examined by a "chartered accountant," and Sam Gothard moved a resolution to this effect, but Gordon Grant's amendment that Mr. Stafford's audit be accepted was carried.

The question of affiliation with the American League was laid over, as also were motions for the annual subscription of \$1, that the meetings be held every two weeks, and that ladies be admitted to the meetings.

Mr. Gothard and Mr. Sinfield resigned from the executive, and a motion by Mr. Armishaw, sr., censuring Mr. Grant was overwhelmingly defeated. A vote of thanks was accorded the press for its support, and Mr. Grant was appointed press agent.

J. E. Armishaw moved that a cable be sent to the secretary of state for India to the effect that the league did not want the order in council rescinded, but the meeting was of opinion that the action of local Hindus in this respect was not worth troubling about.

POLICE UNIFORM. Member of Force Expresses Preference For English Type of Clothing.

(From Wednesday's Daily.) Apropos the movement to adopt the British style of police uniform in place of the American helmets and jackets now worn, one of the local force this morning gave his opinion of the change. He prefers the London uniform in some respects. The coat is shorter and does not get so much in the way when a policeman wishes to move quickly as he is popularly supposed to have to do now and then. But then the short coat does not hide bony legs or knock knees and therefore is rather unsightly, if the wearer is not correctly built.

The English helmet is heavier than the American style but is designed to break a blow in case of a Bobby getting into a scuffle. The helmet, instead of bearing only on the rim like an ordinary hat and as the American helmet does, has a band inside which puts the weight of the helmet on the top of the head. For that reason the extra weight is not felt.

Taken on the whole the English uniform is more suitable for the work the police have to do.

Sleeping Sickness in Africa Still Destroying Thousands

Science has found it well nigh impossible to counteract the ravages of the African Sleeping Sickness. It is a painless sickness, like you feel when all tired out. In Canada people don't die of the "tired feeling," but that is no reason why they shouldn't try to overcome it. For instance take your own case, there may be no special ache or pain,—yet you are pale, nervous, colorless and weak in the muscles. Your system is crying for nourishment, clamoring for purer, richer blood. Your nerves are starving for the support that only a healthy body can give, and its small wonder you feel so fagged out, so utterly run down and helpless to work as you would like to.

There is a very simple way to get strong. All you have to do is take Ferro-China's tonic. It contains bone making, tissue forming material, contains nourishment that will redden and vitalize your blood. Under the stimulating tonic effect digestion improves—sleep comes readily and brings rest for body and mind alike. For the man who toils hard, Ferro-China is a boon—for the boy at school it does wonders—for the maiden budding into womanhood it does untold good, just as it does for the aged, the matron and the mother. In short Ferro-China is a perfect tonic and system builder. Good at all times and for all people. Can you afford to miss its benefit, 50c. per box at all dealers.

NEW BUILDING FOR NEXT HORSE SHOW

Vancouver to Have Structure to Accommodate Popular Want.

Vancouver, March 24.—Next year will see Vancouver's second annual horse show in new and commodious quarters much larger than the armories.

The proposal has already been informally considered and approved, and will be formally considered and probably finally decided within two weeks.

This was the effect of a statement made by Manager F. M. Logan just before leaving for Victoria, Esquerra in Crawford Bay on Kootenay Lake, and who has planted three acres in grapes, declares that he has succeeded beyond his expectations, and confidently expects to clear \$5,000 per acre after this season.

"It was the greatest show I have seen outside of Madison Square Garden, New York. It is larger than Montreal, and the equal, if not greater than Toronto. For promptness in carrying out and for quality of exhibits I never saw better," added Mr. Murray, one of the best known horsemen on the continent. His work as judge in connection with the show was of the highest order, and won the approval of the management and exhibitors alike. On Wednesday he will return to Toronto.

Asked as to the financial result of the show, Logan could not give a definite statement. "We will give out a statement in a few days, but it looks at present as though we will break even, and possibly have a little to the good, relative to the \$750,000 of the city grant of \$750,000."

There are fifty applicants from almost every part of the globe now waiting naturalization in Vancouver. On naturalization certificates alone can they obtain fishing licenses and other privileges.

UNDER WHICH KING DO JAPS SERVE?

In Future Immigrants Applying for Naturalization Will Be Cross Examined.

(Special to the Times.) Vancouver, March 26.—Judge Grant to-day gave permission for a cross-examination of all aliens who wish to become British subjects. This is the first time that a similar order has been made in Canada in 40 years.

Regarding Japanese, Chinese and Hindus, Judge Grant said: "With hundreds of these immigrants who seek naturalization the action has come to be purely a matter of form. It is argued that many of these Japanese not only retain their allegiance to the Mikado while swearing allegiance to King Edward, but are under the impression that the relative to return to the Flower Kingdom when called upon."

There are fifty applicants from almost every part of the globe now waiting naturalization in Vancouver. On naturalization certificates alone can they obtain fishing licenses and other privileges.

STRANGE FATE IS PURSUING FAMILY

Willis Muir of Sooke is Fourth Brother to Be Injured.

(From Thursday's Daily.) A strange fate appears to pursue the Muir family of Sooke. One member of the family, William, was brought to St. Joseph's hospital yesterday suffering from a broken leg, the result of being run over by a wagon; another, Curtis, is just recovering from the result of a similar accident, while two first cousins were killed six years ago as the result of a wagon accident. Willis and Curtis are sons of Mrs. Robert Muir, who, with her family, has resided for many years in the Sooke district.

The accident in which young William Muir suffered his injury occurred yesterday. He was driving a wagon load of lumber over a rough road, when the lumber slipped and struck him from his seat to the ground in front of the wheels, which passed over his hip, back and arm. Muir was carried to the water-front at Sooke, from where he was brought to Victoria by Capt. Frank Rucker, commander of the tug Mystery, who was engaged in driving a salmon trap in the neighborhood. The tug was met by the ambulance and the victim of the accident removed to St. Joseph's hospital, where his injuries were attended to by Dr. Frank Hall.

Curtis Muir, the brother, is just recovering from the effects of an accident which occurred about six weeks ago, and in which he had both legs broken. Six years ago the two cousins were instantly killed, through a wagon accident on the common road.

Judges from the entries received by Secretary Dunn, the last year's show is already eclipsed and the committee has every reason to believe that with the usual number of entries, the show of the last day the show will be the largest ever held west of Toronto.

This year a special new department is being added, that is the cat show. Feeding Kansas City, to the number of both domestic and fancy breeds of cats in the city, the bench committee arranged one of the best corners of the hall for the feline department. Medals and special prizes are being offered for the best in each breed. The committee hope to see a large entry for the cat show, and have lengthened the time for receiving entries. Cats can be entered up to 2 o'clock on Friday, April 3rd, and then the last day will be given over mostly to the feline pets.

The Bench Show committee deserve special praise for having secured James Cole of Kansas City, to be the judge of dogs, as he is recognized as one of the most famous of all-around judges on the continent. The bench show committee are bringing him here at great expense and it is to the interest of breeders to have their canines judged by so eminent an authority on dogs.

The judge of cats will be J. Large, a retired gentleman of this city, who has been a lifelong breeder of the pet, but he has also judged at some of the largest cat shows in the East and on the continent.

Everything points to the most successful show ever held and it is hoped that Victorians will appreciate the pains that the club has taken and give the show their patronage.

George F. Dunn, the secretary of the club, is in his office on the C. P. R. Government street ticket office, every day, and will be pleased to give any information required, so that it is hoped entries will be made without delay.

PROOF! That Zam-Buk Grows New Healthy Skin.

The unique power belonging to Zam-Buk for growing new healthy skin when it has been destroyed by injury, disease or operation is illustrated by the recent experience of Mr. J. Schofield, of 467 Hamilton Road, London, England. The wounds refused to heal, and the doctors decided to resort to skin grafting, and I consented to have some skin transplanted from my legs to his chest, although his wife was known to me. I then used Zam-Buk for the places on my leg from which the skin was removed, and I am glad to report that new skin has grown, and therefore consider Zam-Buk to be a great skin grower. I have known Zam-Buk build up new tissue in a way that is not possible with ordinary preparations. For healing eczema, running sores, cuts, burns, ulcers, boils, the skin, and other sores, it is without equal. All druggists and stores sell it, 50c. a box or post-paid from the Zam-Buk Co., Toronto.

—This is the time of year to prune the roses. Those who wish to exhibit at the rose show on June 19th should cut back their roses now or they may bloom too early. The roses are always better for pruning. Some people leave them until April but that may be too late for the show. The Horticultural society wish it known that members of the society have the privilege of cutting the rose show as well as of the flower show later. Those wishing to become members may do so by applying to J. A. Bland, Jr., at the court house.

BEAUTIFYING THE CANADIAN PACIFIC

Annual Seed Distribution of Corporation Took Place To-day.

(Special to the Times.) Montreal, March 25.—The annual distribution of seeds from the floral department of the Canadian Pacific took place to-day as a result of the efforts of Mr. Dunlop, a C. P. R. floral enthusiast. During the coming summer there will be streams of flowers and shrubs across the whole continent, from St. John to Vancouver Island. This year Mr. Dunlop has received applications for over 50,000 packages of seeds, and each package contains 29 varieties.

Discussing his campaign, Mr. Dunlop remarked that the scheme was becoming a greater success every year. "During the past few months," said Mr. Dunlop, "I have had hundreds of letters from people who received these packages of seeds telling of the great pleasure they derived from them. The work has proved a blessing to thousands of employees of the company in lonely districts of the west, where both they and their families have taken a great interest in beautifying stations with garden work. This year we expect to have more railway gardens than ever before, and the result cannot be but beneficial to the road and the employees, as well as a source of pleasure to travellers along the line."

Montreal, March 25.—A large number of home-seekers are flocking into Nelson purchasing fruit land. An Italian named Corral, who located two years ago on Crawford Bay on Kootenay Lake, and who has planted three acres in grapes, declares that he has succeeded beyond his expectations, and confidently expects to clear \$5,000 per acre after this season.

CIGARS EQUAL TO ANY ON EARTH

What Dominion Tobacco Expert Thinks of Country's Resources.

(Special to the Times.) Ottawa, March 25.—F. X. Charlier, Dominion tobacco expert, was examined before the agricultural committee to-day, and stated that in his opinion Canada could grow a cigar tobacco equal to any country in the world. In pounds which were at present grown in Canada, about only one million were inferior. He advocated government aid, especially in regard to packing houses.

Frederick Howarth Gives Exhibition of Prowess as a Wrestler.

(From Wednesday's Daily.) Frederick Howarth yesterday afternoon threw a wrestling bout with a V. S. engine, and while he did not succeed in throwing the engine or even in interfering with the speed at which it was going, he was fortunate in escaping without any great injury to himself.

The engine was rounding the turn at the corner of Fisgard and Blanchard streets, sprang forward and grabbed the front of the car, tearing down the letter, however, had Howarth outclassed as to weight, and the demonstrator was thrown some feet through the air into a small pond of mud.

Howarth had an ankle sprained, the sole torn from a boot and his clothing saturated with mud in the encounter. He was recovering from the result of a similar accident, while two first cousins were killed six years ago as the result of a wagon accident. Willis and Curtis are sons of Mrs. Robert Muir, who, with her family, has resided for many years in the Sooke district.

The accident in which young William Muir suffered his injury occurred yesterday. He was driving a wagon load of lumber over a rough road, when the lumber slipped and struck him from his seat to the ground in front of the wheels, which passed over his hip, back and arm. Muir was carried to the water-front at Sooke, from where he was brought to Victoria by Capt. Frank Rucker, commander of the tug Mystery, who was engaged in driving a salmon trap in the neighborhood. The tug was met by the ambulance and the victim of the accident removed to St. Joseph's hospital, where his injuries were attended to by Dr. Frank Hall.

Cats can be entered up to 2 o'clock on Friday, April 3rd, and then the last day will be given over mostly to the feline pets.

UNIFORM QUESTION STILL UNSETTLED

Police Commissioners Call for Tenders for Both Styles for the Force.

At a meeting of the police commissioners held yesterday afternoon, the question of adopting the British style of uniform, instead of the American pattern now in use, was discussed in all its bearings, but no decision was reached, further than that tenders will be invited for both and a choice made when the prices for both are before the commissioners. The change has been asked for by the Canadian Club and also by the board of trade.

There are several sides to the question of making a change in uniform. The uniform now worn by the police costs on an average \$32 per suit, and the helmets about \$5 each. The military style of uniform worn in Vancouver is made in Montreal and costs about \$16 per suit, and the helmets \$3 each. The \$3 helmets, it may be said, are double the weight of those now worn by the local police. There has, however, always been a feeling in civic circles in Victoria against having any work, such as the making of uniforms, done outside the city if it can be avoided. The cost in some cases may be a little higher, but it is generally recognized that it is better to patronize home products even if they do cost a little more, on account of the higher wages paid here. However, everyone will be given an opportunity to tender for the uniforms, and the style will be decided upon when the contracts are being let.

The question of estimates for the year was taken up, and the clerk was instructed to write the city clerk, saying that the commissioners had added six men to the force permanently, and four temporarily, and asking the council to make provision in the estimates for this increase.

Action in the matter of replacing present wooden patrol boxes with metal ones was left over until the next meeting of the commissioners.

MAY LIFT QUARANTINE ON SOUND VESSELS

Dr. Watt Will Report to Ottawa on Bubonic Prevention.

It is probable that the quarantine regulation compelling the examination of passengers boarding steamers at Seattle for Victoria will be lifted when Dr. A. T. Watt, quarantine officer for the province, makes his report on the bubonic plague situation to Ottawa.

Dr. Watt returned yesterday from Seattle after an investigation of the methods which are being followed by the Seattle officials to prevent another outbreak of plague. He stated to the Times this morning that while he could not say that he would recommend the abolition of the medical examination referred to, his report might result in this practice being dropped.

He stated that the officials in Seattle have found no trace of plague for months, but are still proceeding with their precautionary work in the laboratories. The present condition of affairs gave no indication of another case being discovered, and it was therefore, quite possible, that the examination of passengers would be dropped at an early date. At the same time, Dr. Watt pointed out, the officials on both sides would not relax for a moment their vigilance and vessels would have to comply with the regulations regarding fending off from wharves and rat funnels on hawvers, besides periodical fumigation. This would be an adequate safeguard against the main source of trouble, the rats.

HOTELMAN DEAD. New Westminster, March 24.—The death occurred at Abbotsford yesterday of William M. Campbell, a well known hotelman of that town. The deceased leaves a wife.

The Thermos Bottle

A great invention: keeps liquids hot 24 hours. In cool weather you can carry hot liquids—tea, coffee, broth, soup, bouillon, etc.—as hot as you can drink for one whole day. In hot weather you can keep ice cold liquids—ice cold for three days. Tourists, motorists, Yachtsmen, Hunters, etc., find a Thermos Bottle really indispensable. Leading physicians and nurses strongly recommend this wonderful bottle for the sick room. The largest baby carriage manufacturers are now making carriages with a special compartment for the Thermos Bottle.

Prices, pint, \$5.00; quart, \$7.50. Call here and let me demonstrate its many other merits.
