

Miramichi and the North Shore, etc.

NAVIGATION was closed by ice on the Miramichi on Saturday night 28th inst.

PUZZLE-AVANT, with patent bit and beam, for sale. Apply to R. A. Russell, Black Brook.

A TRIP through Europe is advertised for the month of January, with Mr. MacDonnell as guide and lecturer. Read the announcement.

REG. THERAPIST-Two men in Lunenburg, Me., with a machine run by a span of 12000 horses are reported to have thrashed 483 bushels of oats in seven hours and thirty minutes.

STURT Act in St. John: A petition has been received by the government at Ottawa asking the revocation of the second part of the Sturt Act in St. John county.

WELL DOWN, MOUNT ALLISON-On Saturday last our Mount Allison team downed a St. John team at football, while another polished off a motion team. Glory enough for one day!

CANDIDATE falling before our doughty hunters. Messrs. R. Hutchison, Arthur Johnson, E. Johnson and D. M. Logie are amongst the lucky ones this week.

IN LUCK-John Sailer, Esq. of Chatham, has drawn \$500 in Canada's Manchester lottery, the third horse having fallen to him.

GOOD TIME-A special train which ran from Chatham to Chatham last Saturday with the St. John team, made the distance in 110 minutes in three hours and forty-five minutes, including six stops at stations on the way.

THE STURT CURT-Mr. Flood is to be let the cutting out of the road from Victoria bridge to the McKinnon road, to 1200 feet. It is to be cut out to a width of 12 feet, so as to admit of its being used during the winter to shorten the distance between Bay du Vin and Chatham.

P. E. I. FISHING-The Montague correspondent of the Charlotte Harbor, Florida, dated November 24th, writes: Produce is slow in coming in. Potatoes bring 21c; oats, 27c; turkeys, 14c to 15c; pork from 42 to 50c; beef, 41c to 50c; eggs, 16c; butter in demand at from 18c to 21c, according to quality.

MR. GIBSON'S new single mill at Marsville has completed. It is a fine piece of machinery, will produce enough, four inches to the weather, to cover a farm of a hundred acres in little more than a year. If the bunches, made in one year, were placed and so they would make a fine mill from Dublin to St. Andrew's Herald.

IMPROVEMENT-Mr. MacDonnell Snowball, manager of the Electric Light Company is about to put in a new Wheelock automatic out-of-engine at the Chatham station. He is putting up an addition to the present building, which is to be the room for the engine. It is of brick 20x20 feet and will have a cement floor. The new machine will probably be running in about a month.

MR. T. O. MARQUESS-A. A. who has been appointed English master at the Collegiate Institute here, is probably the best football player in Canada. He is known all over the Dominion as an enthusiastic Rugby man and a clever, honorable exponent of the game. He has been a literary register in the past, may feel proud, being a joint author of "Stories of New France," with Miss Macfar "Fidelia" which is a cleverly written historical work.-Starfisher Beacon, Nov. 19.

NAHWAUK SHOPPERS AND THE RAILWAY-The Prefecture H. Hall's Nahwauk committee, referring to the change of timetable on the Canada-Eaters Railway, says it will be very inconvenient for persons there who wish to do shopping in the way.

THE NEW TIME-table, however, seems to be much more convenient than that of last winter. It is a great improvement. It enables the Nahwauk shoppers to leave home for their shopping about a week earlier than last winter, and instead of obliging them to leave at 7.10 a. m. on the return trip gives them until 11 a. m. on the following excellent opportunity for both afternoon calls and forenoon shopping.

NORTHAMPTON AGRICULTURAL SOCIETY-The annual meeting of Northampton Agricultural Society was held at the Canada House on Monday last. The report of the Board of Management of the 27th year showed that the show operations of the Society during the year had been limited to a winter exhibition of grains, roots, dairy produce, poultry and domestic manufactures, which took place in February last.

SMALL-FISHING-We understand that an effort is being made to have the privilege of fishing with small boats on Middle Island for a few days early in the season, which was unjustly prohibited by the Fisheries Department, restored at once. It is, unfortunately, happened that business and social enjoyment have been long for the Chatham people, but the Chatham people do not seem to be so. When Deputy Minister Tilton was here a few years ago he thought he fully understood the nature of the objections on which the Fisheries Department had refused to allow small boats, when he reached Chatham, he became unconsciously hostile to the Chatham men, who, have, in consequence,

MIRAMICHI ADVANCE, CHATHAM, NEW BRUNSWICK, DECEMBER 3, 1891.

been denied the right of fishing to which they are justly entitled.

T. M. C. A. We have the report of the proceedings of the twenty-fourth annual convention of the Young Men's Christian Association of the Maritime provinces which was held at Truro in August last. The following is a list of the association in the Maritime provinces and the number of members as far as was reported at the Truro convention.

Table listing members of the Young Men's Christian Association of the Maritime provinces, including Acadia Mines, Amherst, Bridgewater, Carleton Place, etc.

Lambing in N. S.

It is a significant fact that while lumbering operations in the North Shore are steadily increasing, Nova Scotia operators are able to enlarge the volume of their business. The Times says:

Messrs. Hantley & Egan have thirty men in the woods at present, and have already got out about 3,000 logs. They commenced sawing last Tuesday. Messrs. Young Bros. are also busy in the woods at Newville, and about an equal number at River Hebert. The Newville gang have already secured 18,000 logs, and are getting out about 800 logs every working day.

The operations of Messrs. Young Bros. & Co. will be larger this winter than ever before, and they will probably employ fully 200 men during the winter.

Chatham Sunday School Association.

A very enthusiastic meeting of the Sunday School workers of the Parish of Chatham, was held in St. Andrew's Hall Thursday evening, the 26th inst.

The meeting was called to order by Mr. D. P. MacLellan, County Secretary. After the reading of the minutes of the previous meeting, held in St. Andrew's Hall Thursday evening, the 26th inst.

The chairman then read a Scripture lesson, and after further singing the Convention proceeded to business.

Rev. N. McKay was appointed Provincial Secretary, and Mr. J. U. Leggie and Miss Fotheringham.

On motion of Rev. N. McKay, seconded by Mr. Alex. Dickson, it was resolved to form a Sabbath School Association for the Parish of Chatham.

The chairman submitted a draft constitution prepared by the New Brunswick Sunday School Association, which was read and approved.

Mr. G. W. Galloway, Snowball and 17th and Mr. T. O. Marquesse were appointed to nominate officers for the Association. While this committee was deliberating, reports were given by the representatives of St. John's Church Sunday School, St. Luke's Sunday School, Central Sunday School, and St. Andrew's School, Chatham.

The Committee on Nominations held in the following officers were elected:-President, Mr. D. P. MacLellan; Secretary, Mr. S. Miller; Treasurer, Mr. Wm. Anderson and Miss Alex. DeLellan.

Agreed that the quarterly meeting be held on the second Thursdays of Nov., Feb., May and August.

A paper on Order and Discipline in Sabbath Schools, was read by Rev. N. McKay. After a lively discussion and a vote of praise, paper prepared by Rev. J. McKay, who was too ill to be present, was read by Mr. Geo. Fraser. A very animated discussion followed, after which another song was sung, and report of Credentials Committee showed that the following were present, two Pastors, two Superintendents, two Secretaries, forty-two teachers and seventeen visitors, in all sixty-eight.

After partaking of refreshments, the Convention closed with singing and benediction.

MOTHERS!

Ostoria is recommended by physicians for children's teething. It is a purely vegetable preparation, its ingredients are published under each bottle. It is pleasant to the taste and absolutely harmless.

It relieves constipation, regulates the bowels, cures colic, soothes the stomach, and prevents convulsions, soothes the child and gives it refreshing sleep. Ostoria is the children's panacea-the mother's friend, 35 cents, 35 cents.

THESE FISHING RAMAZONS

A correspondent of the Sun, under the signature of "North Shore," undertook last week, to convey the idea that Mr. Robinson, M. P., had inspired the Glanier's "rumors" respecting political matters in the Miramichi. Mr. Robinson, however, has written his hands off the Glanier and repudiated the correspondent in the following letter, which appeared in last Saturday's Sun:-

Editor of the Sun:- My attention is drawn to a letter in your issue of the 23rd inst., and while I have little or no inclination to publicly recognize a correspondent so entirely devoid of truth and consequently of little use to anybody, I yet deem it necessary to correct the misleading suggestions or statements, in connection with which my over-imaginative friend has thought fit to use my name, and I may say just here (more for North Shore's benefit) that patience, energy and "thirty hore" might possibly accomplish all that he or his friends of the "inner circle" aim at. Your correspondent says:

James Robinson, M. P., was so disappointed because he did not get the diary, etc.

North Shore, with the extent of his knowledge, surely could not forget that, in the most recent election, I supported Mr. Snowball when he was elected as a liberal, and also supported Mr. Mitchell, and other gentlemen with him, as a liberal. Of course I support Mr. Atkinson in the last election as a Conservative. It is not possible to be a liberal and a Conservative at the same time. I could go on to look where I could go borrowing the disappointment referred to; nor could I disapprove of any appointment, or conscientiously accept of it, even were it offered. While North Shore further generally credits as having "plenty of the thirty hore," it is possible we might have more of the so-called matter which he has endeavored to bring to the public attention. It is again said:

But perhaps Mr. Robinson has been filling the Glanier man's ear about this matter, so as to bring himself before the voters, etc.

In answer to this, I can only state that I never saw the "Glanier man," but I believe at the time this matter was referred to in the woods of Daguerre river, attending

MIRAMICHI ADVANCE, CHATHAM, NEW BRUNSWICK, DECEMBER 3, 1891.

to my lumbering business for the purpose of making a dollar, which at some time might benefit my North Shore friends of the "inner circle." He further states:

This celebrated Northumberland deal has a great many sides to answer for, and the more sides the more the deal is to be commended. It is a deal that has been made for the benefit of the North Shore, and it is a deal that has been made for the benefit of the North Shore.

North Shore with his pretended knowledge of the affairs he presumes to write about, and with the best interests of his country at heart, should have no difficulty in satisfying himself concerning the letter part of his remarks. As for the "Northumberland deal," it has been endorsed by the county and province and left to my judgment, and I believe, to the full satisfaction of my constituents.

Yours respect fully, JAMES ROBINSON, M. P. P. Millerton, N. B., Nov. 24th, 1891.

A Good Water Supply at the Fall.

Referring to the pumping works put up at the County Jail, Newcastle, a brief notice of which recently appeared in the ADVANCE, the Advocate says:-

"The apparatus is from the works of the Toronto Pump Company, costing between seventy and eighty dollars, the building and tower being an additional charge.

"The windmill is so constructed that it can be started whenever required, but it is a heavy machine, and when the fans are dropped by casting of a wire in the pump house, the force, a long wire keeping the mill face to the wind, unless when it blows very hard, and then an ingenious brake attachment, as was on a certain speed is developed turns the windmill sideways to the wind when it almost stops but turned again by the vane. The windmill is about 45 feet from the ground and is reached for oiling or other purposes by a light ladder on the ground. The lower section of the framework of the tower is closed in and forms a pump room about 12 feet square, with pavilion roof the pump rising through the apex of the roof. This is being in the water at Newville, and about an equal number at River Hebert. The Newville gang have already secured 18,000 logs, and are getting out about 800 logs every working day.

The operations of Messrs. Young Bros. & Co. will be larger this winter than ever before, and they will probably employ fully 200 men during the winter.

Newfoundland Opinion.

CANADIAN FISHERMEN SAID TO BE HARSHLY AND UNFAIRLY TREATED. HALIFAX, N. S., Nov. 24.-Nova Scotia fishermen are loudly demanding protection from the hands of the Dominion Government from the outrageous treatment made use of them by the Newfoundland authorities. The masters of a number of Canadian vessels have formulated a statement of their grievances for the immediate attention of the Dominion Government. They say last year Newfoundland Government placed a heavy tax on Canadian vessels. This year they positively refuse to sell Canadian vessels but on any condition, while giving it to the American fish. This has caused a great deal of trouble to the Canadian fishers, and they are now being scolded there. During the year the fishing in Canada waters, they say, was very poor. Canada vessels are being treated in a most unfair manner. A list of Newfoundland vessels are now making Sydney, C. B. a base of their fishing operations in Canadian waters, not only so, but the great bulk of the Newfoundland catch is being landed there. During the year the fishing in Canada waters, they say, was very poor. Canada vessels are being treated in a most unfair manner. A list of Newfoundland vessels are now making Sydney, C. B. a base of their fishing operations in Canadian waters, not only so, but the great bulk of the Newfoundland catch is being landed there.
