ST. JOHN, N. B., JULY 6, 1904. McKENZIE AND McDOUGALL,

Auditor-general J. Lorne McDougall, Canadian treasury, should be able to understand the feelings of staunch Alexapder McKenzie, when as Liberal premier of Canada he work to Gagetown.

O'clock.

At a well attended meeting of the District L. O. L. held last evening it was decided to turn out in regalia on the 12th inst. to attend the excursion to Gagetown.

Alexander McKenzle, when as Liberal premier of Canada he wrote to a friend describing his relations to the greedy hangers-on of his own party as follows:

"Some attempt to storm the office; some dig trenches at a distance and approach in regular siege form. I feel like the besieged lying on my arms night and day. I have offended at least twenty parliamentary friends by my defence of the citadel A weak minister here would ruin the party in a month, and the country very soon. So I must drudge on as best I may, and carry out the experiment of doing the harbor last evening in the dense fog, ran into the schooner Helen M. The stream. The jibboom of the schooner was badly damaged, but otherwise she sustained no injury. The St, Croix landed 85 passengers last night.

A well attended meeting of the Tailors' Union was held last night. The strike is still on, although most of the men are now working in union shops. Those who are not are receiving regular strike pay. It was reported that George Salmon, C. B. Pidgeon and E. R. Taylor of Carleton had signed the union scale of prices.

If the increased salaries and wages of which Mr. Emmerson speaks had gone only to those who do the work of the railway the deficit would be much less than it is. But the real and necessary working force should not be charged with the cost of the political hangerson, of those who are engaged in party campaigning, or the friends of politicals who are unloaded on the railway and become a charge upon it without rendering corresponding service, or of the maintenance of half a dozen palace cars for the private jaunts of ministers or their friends, or of the two-price sleepers and other goods purchased from political supporters and campaign contributors.

from Sydney, where for some years he has been in the employ of the Dominion Iron and Steel Co. in the mechanical department.

Speaking of the strike at Sydney, Mr. Hunter said that the outlook is very gloomy and that it is impossible to predict at present which side will win out. There can be no denying, Mr. Hunter says, that the lot of the employes of the Dominion Iron and Steel Co. is a hard one. Many of the men receive inadequate wages and they and their families barely exist. The majority of the men on strike are Canadians.
