LOCAL LEGISLATURE.

Will Take All the Members to the Lunatic Asylum.

Only a Short Session Yesterday, in Consequence of the Meeting of the F. and D. Association.

FREDERICTON, N. B., March 28. Hon. Mr. Tweedie introducted a bill in amendment of the Act of Assembly 54, Victoria, chapter 11, so far as re-lates to the Gulf Shore railway. Mr. Robinson introduced a bill authorizing Moneton city council to issue debentures, not to exceed \$26,-

Mr. Carvell introduced a bill authorizing an assessment by Carleton country municipality for the purpose of purchasing colors for the 67th Battalion, Carleton Light Infantry.

Hon. Mr. Tweedle rose to a ques of privilege. In the Gleaner newspa per of yesterday he observed an ar-ticle which he, as a member of the government, or the government itself, could not afford to let pass without notice. He then read a portion of the

ment, continued Mr. Tweedie, that I now desire to say a few words, I wish to say thait the statement of the Gleaner is absolutely and entirely without foundation. Not only are there not a thousand copies of the auditor general's report ready for distribution, but there is not a single copy ready. The work is entirely un-Daily Telegraph in St. John, and is in the printers' hands, and as soon as reports were ready they would be laid before the house. He made this statement lest some of the members might think there was the slightest truth in the Gleaner's statement that the government were withholding the rerorts. He wished to repeat most emphatically that the Gleaner's article was entirely without foundation. Mr. Shaw—I would like to ask the

hon provincial secretary if he could hunt up five copies of the report. The opposition have not much to do this evening and we could profitably employ our spare time in looking over auditor general's report. (Laugh-

Hon, Mr. Tweedie-I hope to give my friend not only five, but "forty-fives" in a short time. (Laughter.)
While on his feet Mr. Tweedie said he wished to call the attention of the house to the fact that the Farmers Dairymen's . Association were meeting in Fredericton today and would be in session until Thursday next. There had been a request from ers of the legislature should attend the farmers' parliament, and in order that the request of the associa-tion could be complied with, it was invitation to the members of the as-sembly to visit the functic asylum at an early date, probably some day next week. Much had been written by a portion of the press with respect the asylum and its management,

agement the members of the house should be given an opportunity of visiting the institution and judging of matters for themselves.

Mr. Shaw—Will you give us travelling expenses? (Laughter.)

Hon. Mr. Tweedie—Yes, if you are let come back. (Laughter.)

Hon. Mr. Dunn recommitted the bill to encourage the discovery and development of oil and natural gas within the province of New Bruns-

by the province of New Bruns-which was agreed to with am-ments, and the house adjourned. endments, and the house adjourned.
FREDERICTON, March 29.—Mr.
Clasier made his inquiry as to
whether it was the intention of the
government to erect a permanent
steel and stone bridge over the Oromooto river at Oromocto village?
Hon. Mr. Emmerson said the matter of erection of a new bridge at the
point named had been pressed upon
the government by the hon, members

point named had been pressed upon the government by the hon, members who had formenly represented the county of Sunbury, especially by Mr. Morrow, who had been very persist-ent in his requests that a permanent structure should be erected there. matter was now in the hands of the chief engineer of the department, and while it was the case that the government had been desirous of nursing, so to speak, the old struc-ture to have it run the full period of its natural life, yet he had no doubt the time was near at hand when it would be absolutely necessary that a permanent bridge should be erected

Mr. Hazen rose to present his mo tion for committee of inquiry into certain matters in connection with the construction of cerain permanent bridges. He said that the matter had received a good deal of attention in received a good deal of attention in the country during the last few months, and that it would be only proper that he should briefly lay before the house his reasons for making this motion at the present time.

Mr. Speaker—Before the hon members.

ber proceeds further I wish to call the attention of the house to rule 57 of the house, which provides that "whenever the speaker is of opinion that a motion offered to the house is contrary to the rules or privileges of parliament, he shall apprise the hous thereof immediately before puttin the question thereon, and quote th or authority applicable to the case." As the motion proposed by member for Sumbury provident method for the appoint a different method for the appointment of the committee from that laid down by the rules of the house, it was not in order. He would direct the attention of the house to rule 36, which after morading for the appointment. tention of the house to rule 96, which after providing for the appointment of the nominating committee which should include all general and standing committees of the house, proceeds as follows: "All other committees shall be appointed by Mr. Speaker and shall consist of not more than seven, or less than three members,

unless the house shall otherwise or-der." He felt it his duty at this early date to draw attention to this mat-ter under the rule which declares that any member may point out any in-fringement or violation of the rules of the house, but the speaker "must de so. A different practice, it rue, prevailed at Ottawa, where littees, the mover naming rs, but the rule of the parliament was different from of this house on that point Rule 89 and 30 of the house of comprovided that a member minate the committee, but if five embers of the house object, then practically the committee is selected In this matter we must be govern by our own rule entirely. It was only where no rule was explicitly laid down that the rules and practice of the house of commons obtained here. He was compelled to decide therefore that the motion was out of order and not properly brought before the

Mr. Hazen-Might I be allowed to give my reasons as to why that motion, in my opinion, is in order. I do

Hon. Mr. Tweedie—The decision the chair is not debateable. You can

Mr. Hazen-I unhesitatingly with all due respect to his ho ruling, that the rule does not admit of the construction he has placed upon it, and I would like an opportunity to discuss it.

Hon. Mr. Tweedle-Van cannot diecuss it. You can only appeal from the

Mr. Hazen-Well, I would like to make a few remarks about the matter in any case. The rule says other committees shall pointed by the speaker, and shall onsist of not more than seven, or less than three members, unless ouse shall otherwise order." I contend that if I introduce a resolution and it is carried, that is equivalent to

the house "otherwise ordering." Speaker-I submit that the qualifying clause refers to the numer of the committee, which the rule says shall be not nore than seven nor less than three Mr. Hazen-I submit not.

Hon. Mr Emmerson-It has always cen construe! that way in this

Mr. Humphrey made his inquiry for particulars with regard to bonuses ranted to flour mills under chap. 21, fist Victoria

Hon, Mr. Labillois made the following statement: The persons to whom assistance by way of bonus has been granted under the provisions of chapter 20, 61st Victoria, entitled "an act for the further encouragement of agriculture," are the following: Hon. Pascal Poirier, mill located at Shediac. West. Co., \$1,000; Michael Mc-Laughlin, mill located at Bucto Kent Co., \$1,000; J. M. Fripp, mill located at Woodstock, Carleton Co., \$1,000: Sydney Desbrisay, mill located at Petit Rocher, Glouzester Co., \$1,000. Further applications have been made by the following persons, whose ap-

morland county; L. W. Corey, Havelock, Kings county; Herry M. Dugan, Caraquet, Gloucester county; J. W. Galliraith, River Charle, Restigouche county; John M. Culligan, Armstrong ok, Restigouche county; W. W. herty, Campbellton, Restigouche county; F. C. Fish, Newcastle, Northumberland county; Edmund Clark, Drummond, Victoria county; M. F. Richard, Rogersville, Northumberland county. Further assistance by way of bonus will be paid to the parties whose applications have been approved if they build mills in accor-

dance with the regulations. Mr. Melanson, seconded by Mr. Humphrey, made his motion asking for detailed statement of the banking operations of the government.

Hon. Mr. Tweedle—The information

asked for will be furnished without the formality of an address. The mo-

Mr. Humphrey made his motion for a statement in detail, showing what public works are under construction or under contract and not appearing in the public accounts for 1898. Hon. Mr. Emmerson-The informa-

thion will be furnished without the formality of an address. Mr. Hazen, seconded by Mr. Shaw, gave notice of motion for Saturday next with reference to certain permanent bridges, the same being identical with his former motion, which was ruled out of order by the speaker, except that it asked that a special

house should be appointed on nomination of the speaker.

Hon. Mr. Tweedle laid before the louse the 12th annual report of the provincial board of health.

committee of five members of the

Hon. Mr. Dunn introduced a bill to incorporate the Royal Kenneb Yacht Club: Mr. O'Brien (Northumperland), a bill to authorize the municipality of Northumberland to control and regulate peddling in that

Mr. Hazen gave notice of motion of inquiry for Saturday, asking what was the cost of installation of electric plant in Provincial Lunatic Asylum, with particulars of tenders, etc. Mr. Hazen gave notice of inquiry: Has the attention of the government been called to the condition of the bridge near Hoyt Station, in the county of Sunbury, and is it the intention of the government to erect a perman-

# anning the second Winter Fruits

are scarce. Fruit is not only delicious to the taste but necessary to the health. The salt extracted from the juices of pure fruits is the basis of Abbey's Effervescent Salt

Its use promotes health.

60 cents a large bottle. Trial size
15 cents. Of all druggists.

Mr. Hazen presented his motion for particulars as to the construction of the Upsalquitch bridge.

Hon. Mr. Emmerson said: The Up-salquitch bridge was built in 1898. itman Brawer was the contractor. It was built under contract, the tencan, \$14,452; J. S. Simons, \$4,946; Albert I:rewer, \$5,990; W. Brewer, \$3,-880; J. R. McManus, \$1,950; John Geulette, \$6,477; Sumon McGregor, \$5,000. Whitman Brewer's tender being lowest, a contract was entered into with him. The total amount paid during the year ending October 31st was \$3,001.50, the \$1.50 being for printing notices. Since that date there had been paid the contractor \$1,200, of which \$500 was for ice guard noses and abutments, which were under a separate contract. It is not true that the plans were altered after the contract was awarded. No sapling pine was used, as far as the department new, where the plans and specifica tions called for hard pine, nor did he think any sapling pine was used all, From his knowledge of the inspector, John Dawson, he did not braces are reported loose, timbers. These counters do not take any stress unless there is a very excessive load. Under contract, all such counter braces and all adjustable members have to be readinated within three months, or in due season after the timber is properly seasoned, and all defects from loose counters remanently overcome. Including the amount of \$353.50 paid the inspector, the total outlay upon the bridge therefore \$4,555.

Hon. Mr. Emmerson presented petition of the New Brunswick branch of the Women's Franchise Association, and 3.883 other parties of the city of St. John, praying that a law will be enacted giving full parliamentary suffrage to women on the men. Adjourned.

FREDERICTON, Merch 30.- Bills were introduced by Mr. Hazen amending the act incorporating the St. John Horticultural Association, and to give if further power; by Mr. Dunn, enabling the commissioners of the Gen-eral Public Hospital, St. John, to make a further issue of debentures; ly Mr. Robertson, amending the act relating to the St. John Horticultural Association; by Mr. Venoit, enabling Gloucester municipality to issue de-Also by Mr. Venoit, bill amending chapter 34. 61st Victoria, so far as the same relates to Glo logster Co.; by Mr. Robertson, incorporating the Eurhetorean society of the University of Mount Allison; by Mr. Carvell, authorizing the Board of School Trustees of District No. 3, parish Brighton, Carleton Co., to issue bentures for the erection of a school ng; by Mr. White, incorporating lew Brunswick Sunday School Association; by Mr. Russell, author izing Charlotte municipality to grant exemptions in certain cases; also by Mr. Russell to confirm the mad assessment of the town district of the parish of St. Andraws for the year 1898, to abolish labor in lieu of road tax and provide for the maintenance of public sewers in said district

Mr. Emmerson introduced a bill to aid the erection and maintenance of bridge over the St. John river at Hartland

Mr. Hazen asked: Have the government any progress to report concerning the auditor general's report? The house had been told last week that the report would be on the table in a few days, and he had understood the provincial secretary to say that the delay was owing to the printer. If the printer could not get the report ready in five months, he (Hazen) thought it would be well for the government to employ another concern. It would be a great convenience if the house was to adjourn until Monday or a later date, if hon. members could have this report in their hands. Hon. Mr. Emmeron said that the auditor's report was not yet ready. It would be laid before the house at the earliest possible moment. He might say that the auditor was not to blame at all in the matter, but rather had placed the responsibility upon himself (Emmerson), because he had not supplied in due season certain material from the department of public works that goes in the report. He could only that he (Emmerson) had really found his time so taken up with other matters this winter, including the election—(laughter)—that he had not been able to give the attention it de-

Mr. Hazen said he had been informed that the report had been in the hands of the company printing it since December last. If so, there was no excuse whatever why the government was not now in the posse the house. He was not treating the matter from a party standpoint, but thought that this report should be in the hands of every member of the house, not only early in the session, but before the session, as was done in the case of the federal parliament, so that hon. members before entering upon their duties could become famil-larized with the financial transactions

of the government for the past year. Hon. Mr. Emmerson explained that the chief reason for delay in publishing the report was the difficulty of receiving returns from the officials throughout the county promptly Doubtless some of the copy might have been in the printers' hands as early as the first of the year, but he knew that a good deal of the manuscript was not ready until very late-

closing the fiscal year from Dec. 31st to Oct. 31st was that these reports might be printed in time to be promptly submitted to the house.

Mr. Glasier gave notice of inquiry: Has the government caused to be distributed among the schools of the province the book entitled The Life

ent bridge in said locality during the and Times of Sir Leonard Tilley, by James Hannay; if so, how many copies and what was the nature of

tege. He noticed in the columns of the St. John Record the following: sylum." He might say that the only symptoms of madness he had seen ex-hibited in the house had been by some members of the legal profession they heard the announcement that the office of the solicitor general was going to be abolished. (Laugh-He would make a motion to er would rule it out of order on the ground of involving expense. (Laugh

Hon. Mr. Emmerson-The governnent had supposed that my hon. friend wanted company at Fairville.

(Laughter). Hon. Mr. Emmerson moved that when the house adjourned it stand adjourned until Monday next at 2.30 m. While there were a good many members who favored adjournment till a later date, yet he thought this would unduly interfere with the rou ine business of the house. He hon. members, as generally de, to attend the inspec which it was proposed to make train, of the asylum and annex. It was in the highest degree desirable that hop members who were called upon to legislate with regard to this mportant institution should familiar with its magnitude and its

Mr Hazen-It is quite evident that if the house is to adjourn till Monday and then over Tuesday that many bon, members will not Monday. I suppose stood that notices of motion and everything on the order paper wil stand until Wednesday.

Mr. Emmerson-Yes.-Mr. on's motion was carried Hon. Mr. Emmerson said it evident that the amendment made

fast session to rule 78 was having a peneficial effect. at this period in the session only were before the house, there were now 21. In view of the practical adjournment of the house until Wedpesday mext he thought the vacation should not count in regard to the introduction of private bills. He would giove, seconded by Mr. Hazen, that the time for the reception of private Thursday next.-Carried.

Mr. Emmerson, in the absence Mr. Tweedie, committed a bill in amendment of act 54 Victoria, so far as the same relates to the Gulf Shore railway, which was agreed to, and the house then adjourned.

#### IN JEALOUS RAGE.

Shot His Wife, Her Mother, Sister and Brother.

NEW YORK, April 1.-John J. Schmitt, while in a fit of jealous rage temignt in Brooklyn, shot his mother- German steamer Pontos, from Rohis brother-in-law, and fired at his one year old inflant. Schmitt had been separated from his wife for some time and tonight went to the home of her mother, Mrs. Amna Wild, and tried to effect a reconciliation with his wife, who was living with her mother. Mrs. Schmitt rafused to return to her husband, and Mrs. Wild championed her Schmitt drew two revolvers and fired point blank at the two women. Mrs. Wild was instantly killed. Mrs. Schmitt was shot in the arm and thigh. Nicholas Wild, a brother-inlaw of Schmitt, attempted to interfere and received a bullet in the head. A sister-in-law, Pauline Wild, was shot in the arm, and Schmitt then fired a shot at his one year old infant. Nicholas Wild is said to be in a precarious condition, and it is believed he will die Mrs. Schmitt and Miss Pauline Wild will recover.

### HONG KONG.

ON THE ROCKS.

An Attempt Was to Have Been Made Last Night to Float the Norseman.

Various Steamers Came to Grief During Bad Weather on English Coast.

MARBLEHEAD, Mass., April 2.housands of persons made an Easter pilgrimage to this town today to se the stranded steamer Norseman on Tom Moore's rooks. The visitors showed considerable courage, for the wind was bitterly cold at the neck. There was little to be seen, as no efforts were made to move the big craft, A stern line was put out for protec tion, and several tugs at high tide took a bight on this as a precautionary measure. The steam rumps were kept going all day, but little headway hing the water in the hold

Tonight it was stated that if the wind is not too strong an attempt will be made to float the Norseman at flood tide at about three o'clock in the morning. Captain Stephen Perkins. a local pilot, has been engaged with the object of beaching the steamer at

SOUTHAMPTON, April 1.-The London and Southwestern Steamship company's steamer Southwestern which was sent to search for bodies of vidtims in the wreck of the same company's steamer Stella, which sank after running on the Casquet rocks on Thursday afternoon, went ashore last night. The news of the disaster to the Southwestern was received in a despatch from the signal station at Cape La Hague, on the coast of Normandy, opposite Aurigny Island, in the same district as the Casquet western was as ore in that vicinity with her hold stove in. The crew remained on board.

DOVER, England, April 1 .- The sunk in the mannel after being in collision with the steamer Star of New Zealand, which arrived at London Feb. 28 from Wellington, New Zealand, and which was outward bound. The boats of the Star of New Zealand were stove in, and she is returning to London. It appears that the Zualand ram into the Pontos during the darkness of the early morning, striking her amidships. Twelve seamen who left the German steamer in boat were picked up exhausted and have been landed here. The captain and nineteen of the crew have been landed at Hastings.

A large up-channel steamer has signalled that she has rescued twelve of the crew and six passengers of the Pontos. Thus all the crew, numbering fifty men, and all the passengers of the sunken steamer have been res-

DOVER, England, April 1.—The British steamer Ethelhilda is off Dungenness, proceeding slowly and not under control, according to the signal flying. She has canvas about her bows and her boats are banging over her sides. She has signalled that she has been in collision and that her forepeak is full of water. A French fishing smack which was off Dover yesterday evening was in collision with an unknown vessel, possibly the Ethelhilda. Six of her crew were drowned. The Ethelhilda, which is commanded by Capit, Harrison, left Buenos Ayres on Feb. 26 for Antwerp. BRIGHTON, Eng., April 1.-The British steam collier Heathpool, from Sunderland for St. Nazaire, France, was run down and sunk off Beachy Head. Only one of her crew were enved. The Heathpool was a steame of 600 tons, built at Sunderland in 1865 and owned by the Lambton Colleries Limited of Sunderland. She was 210 feet long, had 32 feet 6 inches beam and was 14 feet 6 inches deep.

DOVER, Eng., April 1.-The sole survivor of the collier Heathpool has been landed. He says the crew numbered 16 men. They left Sunderland on Thursday and collided with un unknown vessel yesterday evening. The Heathpool commenced to sink immediately and her captain called out to the other vessel, a larger vessel, to slow down, but the latter swung around and apparently proceeded. The survivor jumped into the water and clung to a life boat until picked

LONDON, April 2-The morning papers publish approximate lists of the saved and dnowned passengers of Southwestern Railway Co., which was wrecked upon the Casquet Rocks near the Island of Alderney last Thursday afternoon. These show the death roll to include about eighty.

### Children Cry for CASTORIA

There were 21 births, of which 16 were males, reported last week, also one marriage and 13 deaths.

## ANNUAL SESSION

Of the Provincial Farmers' and Dairymen's Association.

An Interesting Discussion on Pork Raising-Reports from the County Vice Presidents.

The Election of Officers John McLaughlan of West Glassville, Carleton County, Chosen President.

FREDERICTON, March 28.-In the discretion on pork packing, G. W. White of Centreville remarked that he had been trying to persuade neighbors to change their methods of farming. He thought the principle wrong, to sell hay, oats, etc., from the farm. These should be fed to cows making butter, cheese, pork and beef, The production of pork could greatly increased, if their system of farming was changed to meet the ne-

W. A. West of Albert said that good pork could be made very cheaply. He had good success by feeding mangolds in their raw condition, adding ground grain to the rations. The mar-ket did not demand fat pork, and this food would give the lean meat, which

Mr. Frye of Shediac said it was new to him that pigs could be successfully grown without some portion of skim milk in the ration. was favorable to the proposed packing house, and thought we could greatly increase the production of pigs of suitable quality.

Mr. Robertson, manager of the experimental farm alt Nappan, said that in an experiment made by feeding pigs he found that he could realize 15 cents per 100 lbs. for his skim milk. His judgment was that perk could be made a cent a pound heaper in summer than winter.

W. E. Turnbull of St. John thought it would be impossible to get a uniform price the year round. The value of it would fluctuate the same as any other commercial product. The great object would be to have a continuous Mr. McLaughlin of Glassville would like to know what would be the aver age price the farmers would receive for their pigs, live weight. If the price was remunerative there would be no question about the amount re-

S. L. Peters of Queenstown was of the opinion that once the pork packing establishment was a certainty located in St. John which was the desirable point—the farmers would use every effort to supply the possible for New Brunswick farmers to do what had been accomplished in Nova Scotia and Prince Edward Is

of the follo ving committee: Finance and audit-W A West Jesse T. Prescott, Chas. R. Carmen. Resolutions-W. S. Tompkins, H. B.

Hall, Robert C. Williams EVENING SESSION. The further consideration of the sulfect of pork packing was resumed with J. J. Ferguson of Smith's Falls, Ontario, as the first speaker. He felt he was at a disadvantage in dealing with this subject, as he followed after it had received much consideration in the afternoon session. He did not presume to teach the farmers present as to how they should do, but he would refer to what they had done in Ontario. We have some 11 or 12 pork packing establishments in our province, and they have all succeeded. The output of many of these establishthere is no difficulty in furnishing sufficient pigs to enable all of them to do a large business. There must be a community of interest between the farmers and the packers, so that the supply will be steady and continuous so long as the season lasts. He had found that there was an active and profitable business done at St. John in pigs weighing 120 to 150 lbs. These weights were fairly suitable for the manufacture of bacon, but it was important to have them feed on food of the right character in order to obtain the best results. A weight from 160 to 260 lbs. would be more suitable. Among the most desirable breeds for the purpose of bacon were the Tamworth, improved Yorkshire, and the arge improved Berkshire. It was not desirable for every farrmer to spend large amounts of money for purebred stock; but it was desirable to select a pur:-bred sire of the class mentioned. Well bred pigs are most estrable, but it was equally important that they should be well fed and cared for to give the best results. thought it would be a mistake expect to make pork in this province at a profit and purchase Ontario feed to make it with. It could not be done successfully. Young pigs should not be separated from their mothers until at least six weeks old. The best results in the growth of bacon pigs is sure to follow with the farmer who has a generous supply of skim milk to use with the other food upon the far. It should be remembered that it is absolutely necessary to have quality as well as quality, and the use of an inferior quality of meat would reult in lamentable packers are anxious to have the pigs
