THE HOPE DIAMOND AT AUCTION

Paris, June 23.—The most important diamond sale this city has seen in many decades will take place next Thursday at the Hotel Drouot, when the famous Habib collection will be offered to amateurs and dealers. The collection was brought together by Selim Habib, a Turkish collector and merchant who lives here, and who is not to be confounded with his father, who still resides in Constantinople.

THE HOPE DIAMOND AT AUCTION

The collection consists of only eight stones, but it is anticipated that the sale will realize several million francs for it is intimated that seven of these stones formerly belonged to various crown collections of jewels, while the eighth is the celebrated Hope diamond. Number one in the Habib collection is a rose blue diamond of six carats. Number two is a white blue, pear shaped stone of twenty-four carats. Number three is another white blue stone of twenty-three carats. A six-carat carat diamond, the English Mathilde Bonaparte's casket is number four. Number five is an aquamarine of seven carats resembling the Nassau diamond, which is the crown collection. A rose diamond of thirty-one carats resembling the famous Mazarin diamond is number six, and number seven is the "Mirage," a colorless diamond of twenty-eight carats. Number eight is the Hope diamond, which experts predict will sell for something more than 3,000,000 francs, or more than \$600,000.

THE HOPE DIAMOND AT AUCTION

Habib, who occupies sumptuous premises in the Rue Laffitte, told a correspondent that he regretted parting with the collection, which it had taken years to amass. He said that financial considerations alone induced him to consent to the auction, particularly of the Hope diamond, which he obtained for 2,000,000 francs (\$400,000) at the Frankel sale and which he has twice sold for more than \$1,000,000.

THE HOPE DIAMOND AT AUCTION

The auction will be conducted by Eugene Bailly and Edouard, the diamond experts, while Louis Aucoc, who is considered the greatest authority in France in the matter of diamonds, will be the official expert. Mr. Aucoc said today that the Hope is a unique stone. It was valued in the Hope collection catalogue of 1830 at 230,000 francs (\$46,000) by the compiler of the catalogue, who added a note that the stone would be salable at a far higher figure.

THE HOPE DIAMOND AT AUCTION

Aluding to the superstition that the Hope brings bad luck to its owner, Aucoc said that after Young Hope sold it it passed to the firm of Weill and Blumenberg, who were prosperous. It is true that Frankel became financially embarrassed after he bought it, but all his creditors have since been satisfied. Aucoc believes that "Thursday's sale will once and for all destroy the value of the Hope as well as establish a new high record for prices of historical diamonds.

THE HOPE DIAMOND AT AUCTION

No reserve has been placed on the Hope, but it will certainly not be allowed to go at a price below its real market value. The seller is counting on the presence of rich Americans now in Paris.
