A FRIGHTFUL DEATH! SUFFOCATED IN ASTHMA ATTACK.

Every sufferer from Asthma knows the terror, the abject fear that overcomes them when struggling for breath. The old-fashioned remedies may relieve but never cure. Best results come from Catarrhose, which cures Asthma after hope is abandoned. Its because Catarrhose kills the asthma germ that it cures. Choking spells and labored breathing are relieved, suffocating sensations and loss of breath are cured. Every trace of asthma is driven from the system, and even old chronic experience immediate relief and lasting cure. Equally good for Bronchitis, throat trouble and Catarrh. The large one dollar curft includes the inhaler and lasts two months, sold by all dealers or from the Catarrhose Co., Kingston, Canada.

FISHERIES EXPERTS VISIT YARMOUTH

Yarmouth, Sept. 9.—The power cruiser Prince, of the Biological station at St. Andrews, N. B., in command of Captain Elmer Rieby, arrived in port yesterday. She has quite a distinguished party on board, consisting of the following: Professor Prince, Dominion Commissioner of Fisheries; Dr. A. G. Huntsman, curator of the Biological Station, St. Andrews; Bruce Wilson, of the Toronto University; Arthur Calder, of St. Andrews.

Their purpose here is to investigate the distribution of shrimp and other small marine life, and they are also trying to ascertain what fish spawn, if any, reaches maturity in these waters. For the purpose of carrying on these investigations they are carrying all kinds of nets and trawls, from those made of the finest silk which are intended to stop even the minutest of living organisms in our waters, to the coarse and the heavy appliances used by our commercial fishermen.

This week they have been engaged in searching the depths of the Bay of Fundy, not far off this coast in 111 fathoms of water and their specimen bottles are full of many interesting species of small life.

When Cutting Teeth Babies are Subject to DIARRHOEA.

When the baby starts to cut its teeth, then it is that the poor mother is under the stress of great anxiety. For some reason or other the bowels become loose, and diarrhoea, dysentery, colic, cramps and many other bowel complaints occur; the gums become swollen, cankers form in the mouth, and in many cases the child wastes to a shadow.

When the child gets into this condition the bowels must be looked after very closely, and for this purpose we know of nothing that can equal Dr. Fowler's Extract of Wild Strawberry. This sterling remedy has been used for teething children, for over seventy years, by thousands of Canadian mothers, who will swear by its efficacy.

Mrs. R. J. Waldruft, South River, Ont., writes: "Two years ago my little girl had diarrhoea while cutting her teeth. She got thin and very weak. I had tried different remedies, but all to very little good. A friend recommended Dr. Fowler's Extract of Wild Strawberry, so I procured a bottle at once, and after she had taken a few doses I could see a change, and by the time she had taken half the bottle she was cured. I think every home should keep it on hand."

The genuine "Dr. Fowler's" is manufactured only by The T. Milburn Co., Limited, Toronto, Ont. Price 35c.
