ANNUAL SESSION STUDENTS' CONFERENCE OF MARITIME PROVINCES HELD AT KINGS

Prominent and Interesting Speakers Discussed Most Entertainingly and Instructively Questions and Problems Affecting the Student in His Work as Well as Plans for His Future—Officers Elected for Ensuing Year.

Annual Conference of the Student's Movement at Windsor, N. S., (by R. Parnell and G. Edworthy.)

For the first time since its inauguration, the Annual Student Conference of the Maritime Provinces has been held at a College, and that College was King's. When it was found that the conference could not be held in Truro, as in former years, the secretary, Mr. G. E. Cock had to seek some other town, a place which would be suitable for and agreeable to all concerned. Hearing of the problem which Dr. Cock had to solve, the Missionary Society of King's was quick to offer its services and after a rapid consultation with other colleges it was decided to accept King's offer and to hold the conference at Windsor.

The conference opened Friday evening, March 21st, at 7:45 p. m., with prayers by Archdeacon Vroom. Dr. E. G. Cock, the Y. M. C. A. secretary, briefly addressed the meeting and spoke of the great pleasure which it gave the other colleges to meet together at King's.

The following officers were then unanimously elected:

Chairman—Dr. E. G. Cock.

Secretary—Mr. S. M. Zink, Dalhousie.

Treasurer—Mr. Estabrooks, Acadia.

Representatives on Student's Nominating Committee:

U. N. B.—Mr. A. E. Seely.

Mt. A.—Mr. W. Burbridge.

Acadia—Mr. Longley.

Dalhousie—Mr. W. O. Thompson.

King's—Mr. G. E. Trueman.

After the election of these officers, Archdeacon Vroom delivered an address of welcome. He emphasized the need of preaching the Gospel of the Lord. He felt that one of the greatest mistakes that the church has made in recent years has been the attempt of many people to ignore the Gospel of Christ and to endeavor to substitute science. The Great War, he felt, was a great step in the right direction, and he hoped that the deliberations at King's would be crowned with success, and that a lasting good would accrue from the conference held within the walls of King's College.

The chairman then asked Dean McRae of Dalhousie Law School to address the conference at the Holy Ghost.

Dean McRae spoke on "The Young Man and His Plans." All young men, he said, had a plan, some were conscious of it, some were not. A person's plans are influenced, determined, and conditioned by his opinion of, and attitude towards life, accordingly they may be selfish or high-minded, as his case may be. Dean McRae said that he would like to see, in the faculty of colleges, a new kind of professor—a professor of things worth while, one who could appraise and assess things, and tell us which were worthy of consideration. In the absence of such an authority, a young man is forced to make his own decisions and set his own standards. Certain things, such as wealth, happiness, profession, or political ambition, may be the watch-word of every young man of today. As Canadians we should restrain ourselves from undue pride and the tendencies towards Bolshevism. We should endeavor to be worthy of the splendid name that our boys have won in the Great War. Co-operation, the prospect of the future is the way in which the British Empire and the United States have learned to work together. Dean McRae said that he wished to strengthen the bond still more and be in a position to smooth over any difficulties which the future may present between the two peoples. As University men, knowledge and reverence should be the goal. Knowledge divorced from reverence, he felt, is immoral. Knowledge should be devoted to try some noble cause. We should strive after and try to cultivate fellowship and friendship. For many years the Y. M. C. A. has been doing this by bringing institutions together and by helping to establish a spirit of united purpose. The English constitution had survived, he said, because the men who framed it had a common end—the welfare of the race. He wished the conference every success and felt sure that a real and lasting good would result from it.

The session was brought to a close with prayer by Dr. Cock.

Saturday, March 22nd.

The meeting was called to order at 9:45. After a short song service, business proceeded.

The minutes of the previous meeting were read and confirmed.

The delegates of the various colleges then gave reports on the Mission Study Classes of their institutions.

Mr. G. Bacon of Mount A., testified to the splendid success which attended his college's campaign, both financially and spiritually. The students of Mount Allison, he said, had laid emphasis on the spiritual rather than on the financial side of mission work, and the result of their efforts was all the more gratifying to them for that reason.

Mount Allison conducts its meetings through discussions and whilst the number of those meetings was somewhat curtailed through influenza and other reasons, yet Mr. Bacon felt that the work done had been highly satisfactory.

Mr. Seely spoke for U. N. B., he said, that his college was closed last fall for nearly six weeks and that this recess had had a very negative influence on the Y. M. C. A. Also, there are no college residences at U. N. B., and this lack greatly handicaps missionary work. However, Mr. Seely said that interest in Y. M. C. A. work is on the increase and that the outlook for next year is a good one.

For Acadia Mr. S. B. Gray gave the report. Mr. Gray lamented the lack of interest and enterprise in Y. M. C. A. work at his institution, but spoke enthusiastically of the efforts put forth by the Student Volunteer Society. The students at Acadia set out to raise a sum of \$1,000.00 for Christian work, and already \$900 had been obtained.

Mr. J. McKay of Dalhousie, next reported. Mr. McKay told the gathering of the splendid work which is being done at Dalhousie by an organization known as the Volunteer Band. This band comprises 16 members and 20 associate members. Mr. McKay read the constitution of the society, setting forth its aims. He also remarked that each week a lecture on Y. M. C. A. work is given at Pine Hill from which much benefit is derived.

Mr. S. M. Zink remarked on the difficulties attending the carrying on of a financial campaign at Dalhousie. The college, he said, is undergoing a financial crisis, and it is situated in two different parts of the city. He felt, however, that inside of two or three years Dalhousie would have recouped of its own and would thus be able to get together and have all branches of the University working in unison for a common end.

Mr. G. E. Trueman spoke for King's Missionary Society and the year just past has been one of the most successful since the society was founded, thirty years ago. A paper is given each month by one of the students on some subject which has a direct bearing on missions. Discussions follow. Mr. Trueman also mentioned the regular meeting which is held every week, at which time an hour is devoted to the study of a book entitled "The Why and How of Missions." He told about the \$200.00 raised annually and devoted to foreign missions. This year the society had gone a step further and had purchased a Victory Bond. The society is in a most flourishing condition and he said at the present time for lasting results was never better.

Dr. Cock, the chairman, followed up the giving of the reports by a slight survey of the work which had been done in all the colleges. He said that in spite of the difficulties encountered, the year had been a very satisfactory one and that he believed in the history of the Maritime Provinces were the prospects for obtaining real definite and concrete results so good as they are at present.

The next feature on the programme was "What Can the College Student Do for the Rural Boy?"

Mr. L. Buckley dealt with this subject in a very able manner. The great opportunity for good anyone can have is, he said, the study of the rural Canadian boy. The country will be just as good or just as bad as the ideals which are placed in the minds of young boys are good or bad. If we can give those boys good ideals, he felt that we will make good citizens of them. The German nation he said, is what it is today, because of the ideals which were planted in the minds of the German youth. As University students he said that it is the duty of those present and their privilege to see that the youths of the land have the same ideals as those men who laid down their lives overseas. He spoke of the instant effort which is being made in this direction throughout the land. He felt that Christ should be the model of every lad. It seemed to him that the Sunday School furnished the basis of this education and with that as a starting point, wonders could be wrought. There are three fundamental things in reforming those who work in rural communities: First, lack of leadership; second, lack of play spirit; 3, isolation of country life. The conference then turned its attention to the question of how to overcome and they have already been solved in many places. Mr. Buckley brought his remarks to a close by saying:

STOMACH UPSET?

Pape's Diapiesin at once ends sourness, gas, acidity indigestion.

When meals upset you and you belch gas, acids and undigested food. When you have lumps of dyspepsia pain or any distress in stomach you can get relief instantly—No waiting!

As soon as you eat a tablet of Pape's Diapiesin all the indigestion stops. Gas, acids, heartburn, flatulence and dyspepsia vanish. Pape's Diapiesin tablets cost very little at drug stores.

telling of his own personal experience and much valuable information was elicited from him.

A discussion followed.

Afternoon Session.

The first business dealt with at this session was the report of the Student's Secretary. The regular secretary of the Y is now overseas and for the past year Dr. Cock therefore gave the report. He told of the work which he personally had received from them all. He remarked that King's with all her capacity for progressiveness, had entered the ranks of the Student Movement for the first time and if nothing else had been accomplished he felt that this achievement was a very splendid one.

Mr. G. E. Trueman of King's then moved that a hearty vote of appreciation be extended to Dr. Cock for his work. It was seconded by Mr. Burbridge of Mt. A. and carried by acclamation.

The evening and after eating, reports of the various colleges were given.

King's popular president dealt with this subject. All the Universities were interested in this matter, he said, and were wrestling with the problem of doing something which would be an evening testimony to those men who have made the supreme sacrifice in the Great War. McGill and Toronto, he said, had had discussions on the matter, but as yet he did not know of anything very definite being done. Memorials should be useful, and yet not purely utilitarian. He did not believe in towns erecting schools and other buildings as memorials to their fallen heroes, which they would have to erect in any case, and for which funds would be provided through taxation. That spirit takes away and detracts from the beauty of the act he felt, and he hoped instances where such buildings are put up will be few. On the other hand the erection of monuments, drinking fountains or the planting of trees would serve no useful purpose and would to some extent constitute so much money wasted. Dr. Boyle, confessed that he himself was at a loss to know just what to do in the matter, and he called upon those present to offer suggestions in order as he said that he might submit them to those in authority at King's as well as to the faculties of the other colleges. The delegates expressed themselves as approving of Dr. Boyle's sentiments.

President Boyle was chairman for the evening and after eating, reports of the retiring president of the Student's Council and opinions on what the church can do for the returned man were listened to.

The dinner was a splendid success and those who were there said that it was the best since the King's President presided contributed in no small degree to the success of the evening.

Dr. Roberts of St. John, and Mr. Mitchell of Halifax, were nominated, whilst Dr. Reid of Windsor, was nominated to succeed the Student's Council for two years.

Sunday, March 23rd.

The conference gathered for divine worship in the Hensley Memorial Chapel at 10:30 a. m. The service lasted for one hour and was held after (Continued on Page 6.)

Took Severe Cold

ON HIS LUNGS.

COUGHED PHLEGM AND BLOOD.

On the first appearance of a cough or cold, do not neglect it, but get rid of it at once before it has a chance to grow worse, and get settled on the lungs, causing bronchitis, pneumonia and other serious lung troubles.

Dr. Wood's Norway Pine Syrup will cure the cough or cold on its first inception and perhaps save you years of suffering.

Mr. G. F. Stratchuk, Canora, Sask. writes: "Last winter I took a most severe cold on my lungs and was found no relief from them. At last a friend advised me to take Dr. Wood's Norway Pine Syrup, which I did, and it gave me great relief in a very short time, and today I am enjoying good health again."

The marvelous results that Dr. Wood's Norway Pine Syrup has achieved in its cures of coughs, and colds has caused many so-called "pine" preparations to be put on the market, which do not contain any pine whatever. So that you get the genuine when you ask for it.

Put up in a yellow wrapper; three pine trees the trade mark; price 25c. and 50c. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.
