FERNIE, Aug. 28.—The city council FERNIE, Aug. 28.—The city council held a meeting tonight in the temporary civic building and several matters of importance were discussed and dealt with. A communication from W. R. Poss. M. P. P., was read by the mayor, informing the council that premier McBride and his colleagues in Victoria, had decided to grant to the city of Fernie the sum of thirty-five thousand dollars for the following purposes. Public school, \$25,000; city buildings, \$5,00; sidewalks and streets, \$5,000. The government also expressed their willingness to meet the wishes of the city in the matter of exchanging building in the matter of exchanging building sites. The new provincial buildings to be erected on the school site and the city hall to occupy the lot lately occupied by the court house; the public school to be built in the north end of the town. The question of an electric last court leaves also taken an and the school to be built in the north end of the town. The question of an electric light service was also taken up and the council was addressed by L. P. Eckstein barrister, on behalf of clients who were prepared to instal a system if the municipality did not wish to undertake the establishment of a plant. He requested that a committee of the council be appointed, before whom he could submit a proposition, and discuss the matter. A committee was appointed for the purpose and the proposition laid before them, but nothing of a definite nature was decided on. Several building permits were granted and the extension of the fire limits was discussed, it being decided to add several blocks to the present limits. The council then adjourned.

A co-operative store is to be opened here immediately, the building being already nearing completion. The store is most conveniently situated on the main business street and the promptives are sparing no effort to make it up-to-date in all particulars.

HEALTH ASSOCIATION.

Conclusion of Thirty-Sixth Annual Meeting.

WINNIPEG, Aug. 28.—The thirty-sixth annual meeting of the American Public Health association is over and the members go away with very pleasar members go away with very pleasant recollections of Winnipeg, judging by the strong resolution which was passed this morning and which especially flattered Dr. R. M. Simpson, chairman of the provincial board of health; E. M. Wood, the able secretary of that body, and Dr. A. J. Douglas, the city health officer. The election of officers was also very complimentary to Winnipeg, as Dr. Simpson was elected the first vicepresident with a probable succession to the presidential chair another year. The most important business today be-yord the election of officers was the yond the election of officers was the selection of the next place of meeting. Richmond, Va., has secured this honor, on the recommendation of the advisory council passed this morning. Another matter to which the association attaches particular importance is the following resolution: "Resolved by the American orgress, the passage of such legislation as is intended to enlarge the scope and increase the efficiency of the public health and marine hospital. To this

end the association believes the power of the service should be increased, that provision should be made for the re-tirement under pay of the members of the service, and that the salaries of the said members should be made consurate with the medical service army. The secretary shall send a copy of this resolution to the chairman of the house committee on interstate and foreign commerce and the correspond-

foreign commerce and the corresponding committee in the senate."

A great number of very interesting papers were read today. They included several of especial local interest. Those on typhoid in Manitoba were by Drs. Pierce, Simpson and Douglas. Dr., Gordon Bell's paper on "Hydatid disease in Manitoba" was rather of technical more than of public interest. Another local paper of interest was that by Dr. J. H. O'Donnell, Winnipeg, on "The diseases of the northwest and interior with sanitary regulations."

The following officers were elected: President, Dr. Gardner T. Swarts, Providence, R. I.; first vice president, Dr. Simpson, Winnipeg; second vice president, Dr. Jesus Chicot, Mexico City; third vice president, major Chas.

Labor department statistics show that during July, industrial accidents happened to 282 individual workers in Canada, 92 proving fatal and 191 resulting in serious injuries.

During July, there were fewer trade disputes than in June or July of preceding year, being ten as against fourteen in June and thirty in praceding July. Seventy-five firms and 1,394 individuals were affected. Definite settlements were reached in seven cases. The number of working days lost was twenty-one thousand as compared with eighty-one thousand as compared with eighty-one thousand in July, 1907.

Department of the interior statistics show a decrease of 45 homestead entries during the first half of the year as compared with the corresponding period last year. The figures are 13,749 as against 14,154. American settlers head the list with 908; English next, 461; Ontario 484, being third.

Crossing the Track and Run Over by a Light Engine.

KENORA, Aug. 28.—Last night the remains of two Galicians, whose names are unknown, were brought here from Deception where they were run over by an engine while crossing the track just outside the station. A work train was standing still at that point and as the two men crossed behind the caboose, an engine came up on the other track and caught them, throwing them ten feet away. One was killed instantly, his skull being crushed, while the other died within twenty minutes. They were each about 30 years of age. The ministers and probationers attended almost to a man, but the harvest season was not favorable to a large attendance of laymen. The time of the convention was largely consumed in the arrangement of grants for outlying mission stations and the fixing of assessments.

COUNTRY DISTRICTS.

The fruit crop of the Okanagan, says the Victoria Colonist, will be fifty per cent larger this season than in any previous year, according to R. M. Palmer, provincial commissioner of horticulture, who has just returned from a tour of that section. Mr. Palmer attended the Western Canadian Irrigation convention at Vernon after which he visited Summerland, Peachland, Penticton, Okanagan Centre, and Kampools. Everywhere he says that the fruit crop is in very good condition, and the prospects for the fruit industry of the best.

"The fruit crop is in splendid shape," said Mr. Palmer. "When I was in Okanagan, peaches were being shipped daily in car lots, while early apples and plums were also beginning to go out in car

in car lots, while early apples and plums were also beginning to go out in car load lots. From now on these shipments will increase. The prices being obtained this year rule somewhat lower than last, but the demand is increasing and the fruit growers should have a good year. The cause of the lowered price is the unusually keen American competition. The American fruit markets are not in a satisfactory state this year, with the result that more fruit finan usual is be-

think it was found possible to spare so much fruit this year. Then there is the United Kingdom. There is an unlimited market there for high grade fruit, and some of the larger Okanagan firms are contemplating making shipments to England this year.

"Then again the northwest has 250,000 additional customers each year, which is one of the reasons why the question of distribution of the crop is such a vital one. With fresh consumers and fresh dealers, both wholesale and retail, springing up every year, in the prairie, the question of marketing is one which requires both wisdom and care and not a little enterprise. It constitutes, I think, one of the most important problems in the fruit industry at the present moment.

"The fruit industry, like everything else, has its difficulties to face and its problems to solve, but, speaking broadly, everything seems in a most prosperous condition. The young orchards are coming up well. In fact those in the Coldstream valley, at Penticton and Summerland are in splendid shape and could hardly be improved upon."

CAROLINA AND GEORGIA ESTIMATED ABOUT 100 LIVES ARE

LOST.

ATLANTA, Aug. 28.—With the number of dead estimated at a hundred, the financial loss placed at from two to five million dollars, the floods of the past week throughout the Carolinas and Georgia have been the most severe ever experienced in the history of these states. Citles have been submerged, business demoralized, stocks of goods covered with slime, house furniture ruined, and buildings undermined and collapsed. Hundreds of acres of land have been whed clean of growing crops, while other hundreds are covered with sand and slime, and practically ruined. Travel by railroad is impossible, and many will suffer for food and shelter before all can be located. Twenty-two dead bodies have been recovered at Augusta and more corpses are being found every hour. Atlanta has started a relief work for her nearest sister city, Augusta, and will rush a carload of food and supplies to that city tomorrow.

cannot leave their houses have not tasted food since Wednesday night. Many believe it will yet be necessary to ask aid of the outside world.

FAYETTEVILLE, Aug. 28—Cape Fear river has reached a height of 79 feet here, breaking all records of former floods. Houses and bridges have been swept away for miles around, and the estimated damage to the oat and corn crop will go beyond thirty-five per cent. The greater portion of Fayetteville is covered with water backed up from the covered with water packed up from the river a mile and a half distant. Three thousand people are homeless here. In the country there are thousands of people homeless, and an appeal was issued today for relief by the chairman of the county commissioners. No trains have entered or left the city for the past entered or left the city for the past three days. The food supply is short, eggs are seiling at a dollar a dozen, and vegetables are held at four times their value.

FIVE MEN KILLED.

The Warren Run Colliery the Scene A Serious Accident.

The American fruit markets are not in a satisfactory state this year, with the result that more fruit than usual is being sent into Canada.

"The old orchards are bearing more fruit than ever this year, while many of the young ones are beginning to give returns, so between the two the statement that the Okanagan fruit crop will be fifty per cent greater this year than last; is probably about right. The C. P. R. is giving special attention to the fruit trade, and is making every effort to do what it can in the way of supplying an adequate quantity of cars promptly.

"The increase in the fruit output will go on getting larger each year as the newer orchards grow up, but I don't think there is any danger of outstripping the demand. New markets are opening up. For instance this year the australian trade offered to take 40,000 foxes or 80 car loads of apples of a certain grade this year, although I don't taln grade this year, although I don't ta

CALGARY, Aug. 28.—A party of C. P. R. officials, consisting of second vice president W. R. MacInnes, general freight traffic manager of the C. P. R. system, and W. B. Lanigan, assistant freight traffic manager, spent yesterday in the city. It is the policy of Mr. MacInnes to visit the manufacturing establishments of the country on his annual trips and yesterday afternoon the party drove out to East Calgary and looked over the cement works, the abbatoir, and other industrial establishments. In this way they keep in touch with the industrial life of the west.

The rallway company, he said, is better prepared than ever before for handling the large grain crop, and he does not anticipate the slightest trouble in getting the grain to market expeditiously. The road bed never was in better condition for heavy traffic. As evidence of this, he instanced the fact that a few days ago a special train of the Winnipeg grain dealers association made the run from Portage la Prairie to Winnipeg, a distance of 56 miles, in exactly one hour.

When asked in regard to raliway construction in the west, Mr. Peters said, considerable extension is being done

AUGUSTA, Aug. 28.—The water at Augusta is receding rapidly and as the water leaves the streets it is apparent that the loss has been under estimated. In addition to the disasters already reported several large mills and wholesale houses report damage running into the hundreds of thousands in the aggregate. As the water goes further down it is feared that further damage will be revealed. Twenty-two bodies have been recovered and corpses are being found every hour or so. The Chronicle estimates the death list at sixty. The citizens in the city of Augusta and the border hills are in special session and have taken measures to relieve the distressed. In some parts people who cannot leave their houses have not tasted food since Wednesday night. they did that so as to get Mrs. Davis to go in search of her husband, when they hoped to rob the house. Mrs. Davis expressed no concern however, and the two men soon left. Davis' dead body was not discovered in the pasture until nearly midnight on Wednesday. Hill was in Oneonta last night and it is thought that he went from there towards Kingston. Officers are searching for him and it is expected he will soon be arrested. The authorities have been looking for him and Underhill for some time, they have been suspected of several robberies in Oneonta and Bambridge. The revolver found in Davis' hand was stolen from a house that was robbed a few nights ago, and Underhill had another revolver in his possession when arrested that is claimed was stolen in one of these robberies.
