the following described land: Commencing at a post planted at the N.W. corner of section 21, township 28, Fire Valley, B.C., north north 80 chains; these west 20 chains; these south 80 chains; these east 20 chains to point of commencement and containing 160 acres, more or less.

JAMES D. WIGHTMAN, W. A. CALDER, Agent, 22nd June, 1907.

NELSON LAND DISTRICT, DISTRICT OF WEST KOOTENAY, B.C. TAKE NOTICE that we, D. Dye and E. Harrop, of Harrop, B.C., occupation, carpenter and more keeper, intend to apply for permission to purchase the following described land:

Commencing at a post planted 12 feet distant from B. Webster's northeast corner post (lot 882), thence south 20 chains; thence east 20 chains; thence north 20 chains; thence west 20 chains, to point of commencement, and containing 160 acres, more or less.

ERNEST HARROP, DELBERT DYE, Dated July 24, 1907.

TAKE NOTICE that Linnie Buckworth, of Ymir, B.C., married woman, intends to apply for permission to purchase the following described land:

Commencing at a post planted at the northwest corner of S. N. Ross' purchase, lot 832, near Beaver Falls bridge, Nelson and Fort Sheppard railway, thence south 80 chains along the west boundary of lot 832; thence west 20 chains, more or less, to the east boundary of N. and F. S. right of way; thence following east boundary of right of way to point of commencement, containing 220 acres, more or less.

J. B. BUCKWORTH, Agent, Dated Aug. 3, 1907.

NELSON LAND DISTRICT, DISTRICT OF KOOTENAY. TAKE NOTICE that Edward J. Keogh of Spokane, Wash., occupation, lumberman, intends to apply for a special timber license over the following described lands:

Commencing at a post planted on the South Fork of the Salmon river on the west side of the stream, about seven miles from its mouth and about three-quarters of a mile from the river in southwestern direction and southwest (Magnetic) of Stag Leaf mountain, "Ed. Keogh's N.E. corner post," thence 30 chains south; thence 30 chains west; thence 30 chains north; thence 30 chains east to place of commencement.

EDWARD J. KEOGH, Dated July 21, 1907.

LAND REGISTRY ACT TAKE NOTICE that an application has been made to register Mary Ann Sturgeon as the owner in Fee Simple under two several tax sale Deeds from R. J. Stenson, Collector of the Slocan Assessment District to C. V. Gagnon, bearing date the 21st day of November, 1906, and the 22nd day of August, 1906, respectively, of all and singular those certain parcels and tracts of land and premises situated, lying and being in the District of Kootenay in the Province of British Columbia, more particularly known as described as:

All minerals, present and future, save coal and petroleum, under lots four thousand and four hundred and seventy (4,470) "Mountain Chief No. 2" Mineral Claim, and four thousand four hundred and seventy-one (4,471) "Sarmia" Mineral Claim, both in Group One in the District of Kootenay.

And said minerals have been transferred by the said C. V. Gagnon and the said Mary Ann Sturgeon.

You and each of you are requested to contest the claim of the tax purchaser within fourteen days from the date of the service of this notice upon you, and in default of a caveat of certificate of its pendency being filed within such period, you will be forever estopped and debarr'd from setting up any claim to or in respect of the said land, and I shall register Mary Ann Sturgeon as the owner thereof.

DATED at the Land Registry Office, Nelson, Province of British Columbia, this 23rd day of July, A.D., 1907.

H. T. MACLEOD, District Registrar.

ALFRED HILL, WILSON HILL, FLORENCE L. McINNIS, ROBERT SCOTT LENNIE, JOSEPH STURGEON, DONALD McDONNELL.

NOTICE TO DELINQUENT CO-OWNERS To James Livingstone, or any other person or persons to whom he may have transferred his interest in the Alberta North Fork of Lemon Creek in the Slocan City Mining Division of West Kootenay district, and recorded in the Mining Recorder's office at Slocan, B.C.

You and each of you are hereby notified that I have expended the sum of four hundred and ten dollars (\$410.00) in labor and recording fees upon the above named mineral claim in order to hold the same under the provisions of Sec. 24 of the Mineral Act; and that if, within 90 days from the date of this notice, you fail or refuse to contribute your proportion of the above said expenditure, which is two hundred and five dollars (\$250.00) for the four years ending the 12th day of July, 1907, together with all costs of advertising, your interest in the said claim will become null and void under Sec. 4 of the Mineral Act, Amendment Act, 1900.

Dated at Slocan, B.C., this 15th day of July, 1907.

J. T. BEAUCHESNE.

NELSON FAIR

Large Increase in Exhibits This Year

AMUSEMENTS ARE NOVEL

NEW DEPARTURE TAKEN BY THE DIRECTORATE—HORSE RACING AND ROCK DRILLING EXPECTED TO DRAW BIG CROWDS TO THE GROUNDS.

All exhibitors at the Fair are again reminded that today is positively the last day upon which entries can be taken by the secretary.

This year the Fair has been a better exhibit than in any previous year. The management has allotted exactly the same number of square feet to each district and so that each portion shall not be unduly encumbered and so that no one district shall have any advantage over another.

The rule has been made that only fruit shall be exhibited, vegetables being entirely barred out. Thus the display of fruit by the various districts should be one of the chief attractions of the horticultural exhibit.

This year no cheese prevents the display of vegetables by individual exhibitors. On the contrary this is encouraged as much as possible as are also the exhibits of fruit by individuals.

In addition to the usual exhibits there are others from the other parts of the province which are not for competition as well as displays from all three of the prairie provinces.

The next feature of the fair is the mineral exhibit. This has been planned to occupy more space than it did last year when the display was too crowded altogether for a really effective exhibit.

The mineral exhibit really dates from last year when its fine showing attracted a good deal of local comment and was extensively advertised in leading papers generally throughout the country.

But as there is an impression abroad that after all Nelson is more to be known by its fruit than by its mineral products, every effort is being made by those in charge to see that Nelson is recognized in its proper position as the centre of the mining operations of the whole Kootenay and Yale.

It is impossible to realize the length of the fair which will meet every evening from 7 o'clock to 10 o'clock. This is the result of Nelson's central position topographically considered and quite apart from its real mining facilities which are an important feature.

For near to Nelson is not only the whole of the Slocan but even nearer are the important districts of Ymir and that stretching along southwestward along the Kootenay river as it breaks from the lower end of the lake. Thus the importance of the fair management is to show the importance of Nelson by having exhibits from the nearby districts, the smelters in these districts ship their ore, and to establish the centrality of the place by exhibiting from the whole of the Slocan.

The whole of the upper country whose shipments are weekly recorded through the medium of the Associated Press over the length and breadth of Canada as coming from the city of Nelson. As far as the mineral exhibit is concerned it will be seen that it has by no means as yet reached the importance and size which it will eventually attain.

For the fair is industrial as well as horticultural and the main stay of the country is its mineral resources.

In the smaller but not the less interesting parts of the fair, the ladies are well looked after in the various exhibits of lace and other work which year after year attract crowds into the galleries of the building.

Round the sides are grouped various displays by local merchants and manufacturers and at the back an annex will display poultry.

The fair management this year have made an entirely new departure in the way of amusements and it yet remains to be seen whether the attractions that have been provided will be as popular as those which have obtained in years past.

The chief attractions are the rock drilling which will take place immediately opposite the grand stand on the terrace, horse-racing and the Nat Reiss carnal attractions.

The rock drilling has so far not attracted as large a number of entries as was at first thought probable. It is of course essential that the presence of the Pauls Bros. and of the redoubtable Slocan team which lowered their record has frightened away men of lesser note.

But it is more than likely that among the thousands of miners that are gaining a livelihood in the hills and mountains of this western country there exist more than one, possibly a half dozen, whose modesty keeps them back from showing attainments in the drilling line which have but to be made public to be recognized and applauded.

The horse-racing was tried to a small extent last year and again at the Dominion Day celebration when it proved to be one of the best drawing cards of the day's program.

This year the course has been much improved and there are far more entries of better horses and it is more than probable that the races will be well attended and will be extremely popular.

Nelson is somewhat conservative in the way of amusements and therefore the Nat

Reiss carnival company has yet to make good. But as Nat himself says that he has yet not failed to make good everywhere he has been with his aggregation this season, he has no doubt of his success here.

The grounds ought to look very pretty especially by night. Some 900 electric lights for the smaller shows alone have been ordered and the city has telegraphed for additional transformers.

The big show, with its various acts and its clowns, in the old fashioned rollicking way which followed the day of Grimald, will take the centre stage every evening between two and 4 o'clock and every evening between eight and ten o'clock.

Then there are numerous attractions along the back of the grounds some of which will attract the one and some another. Altogether the fair directorate are confident of not only drawing a crowd but of keeping them satisfied once they have succeeded in getting them to the fair.

DARROW'S VIEWS. Spokane, Wash., Sept. 13.—Declaring that the trial and acquittal of Hayward of complicity in the murder of former governor Steunberger of Idaho will result in a better understanding between employer and employee, Clarence Darrow, of Chicago, chief counsel for the Western Federation of Miners, who is in Spokane with Charles H. Moyer, president of the organization, and Mrs. Moyer, Fred Miller, counsel for the Federation, and Mrs. Adams, wife of "Steve" Adams, to be tried in Kootenay county, Idaho, said:

"The evidence submitted at the Boise trial will not affect socialism in the least, but it is bound to have a great influence upon capital and labor. The mine owner will have learned to discuss matters of importance with the unions and the latter in turn will tend toward a more conservative policy; in fact, I expect to see these organizations meet half way. It has been a short-sighted policy for these bodies to be fighting each other and it has worked out to the detriment of both. A little more fairness on one side and more conservatism on the other should do a great deal for the employer and the employee."

Mr. Darrow says the hearing of the Pettibone case may be postponed until November, while the only statement Mr. Moyer would permit to be quoted is: "I believe I can say that Hayward received a fair trial at Boise."

SUNDAY LACROSSE. Toronto, Sept. 13.—The Shamrock Lacrosse club from Montreal will play the Nationals on Sunday, despite the opposition of arch-rival Bruchet. The Shamrock's executive committee intend to send the team to Ireland for a two months' trip.

LIBERAL ORGANIZATIONS. YOUNG MEN FORM A BRANCH ASSOCIATION. WILL ELECT DELEGATES TO COAST CONVENTION.

Nelson in future, so strong is the faith of its liberals, is to have two liberal party organizations. One will work in harmony, the one with the other. The older body, the liberal association, has already been in existence for many years and has a large membership and a strong organization.

But it has been felt for some time that there is a field for an organization which will carry out the work of the older association but among the younger members of the party. Hence last night a meeting was called of all young liberals who cared to attend, in the offices of A. M. Johnson, and the number who responded to the invitation was remarkable.

The meeting was thoroughly enthusiastic and was moreover eminently practical, soon getting down to the business for which it had been convened, that of organization. A provisional organization was formed and a constitution adopted. Next month an annual meeting will be called for the election of officers and next week another meeting will complete the organization and also elect delegates for the liberal convention which is to be held at the coast early in October.

The provisional officers elected are: President, V. Odium; secretary, Anthony Turner; executive committee, A. Cheyne, A. Carrie, W. G. McMorris, A. Johnson, L. Stewart, W. Clayton, W. B. Clayton, H. C. Hall, J. Goeble, C. F. McHardy, G. C. Egg and C. Newton. On September 23rd there will be another meeting to complete the organization and to elect delegates for the Vancouver convention of October 2nd. The liberal association will elect other delegates and will issue credentials for all the officers at present elected will serve until October 29th when the annual meeting will take place.

HEINZE BEATEN. (Special to The Daily News.) Vancouver, Sept. 13.—Mr. Justice Clement handed down his decision today in the case of the C. P. R. against Aug. Heinze to compel partition of the Columbia and Western land grant.

The order for immediate partition was granted with costs against Heinze, with a reference to the registrar. Beck if the parties cannot agree on a method of partition. On Heinze's application to make an order for the sale of the lands instead of partition Justice Clement directed that the Cattleman Junction townsite should be sold. It is understood that Heinze will appeal the whole case.

BAR CHINESE

Victoria School Board Are Determined

NO EDUCATION OF CHINKS

COVERT THREAT OF LITIGATION IS MADE—LARGE REVENUE IS DERIVED FROM TIMBER THIS YEAR—STUDYING PROBLEMS OF IRRIGATION.

Victoria, Sept. 13.—Hon. F. J. Fulton, chief commissioner of lands and works, left for Kelowna today accompanied by Pfr. Carpenter, the purpose of the trip being to study the irrigation system of that state.

The total revenue from timber for the fiscal year ending June 30th last, was \$1,261,220 and it is expected that if the present prosperity keeps up, at least a million and a half will be collected during the current year.

The city school board have decided to stand by their former resolution refusing admission to Chinese scholars unless the applicant possesses sufficient knowledge of English to understand the teachers. Hon. F. Peters has written to the board on behalf of Chinese clients, urging the board to reconsider the matter and thus avoid possible litigation.

CONVENTION OF TRUSTEES. SCHOOL AUTHORITIES TO MEET AT END OF MONTH. LENGTHY PROGRAM HAS ALREADY BEEN PREPARED.

On September 30th and on the next following days will be held at New Westminster the fourth annual convention of the British Columbia Association of School Trustees. At this convention there will be present one or more delegates from every school district in the province and it is the intention of the officers to deal thoroughly with every question affecting the well being and the efficiency of the schools of British Columbia.

The program prepared is somewhat lengthy and if all thoroughly discussed is an exhaustive one. Many resolutions have been prepared of which due notice has been given so that the school trustees will not come to the meeting without each and every one of them having had the opportunity of turning over the subjects in their minds and thus being more or less prepared to enter into their discussion.

The plan of the convention is therefore practical and an intelligent and the result of the labors of that body, is likely to be somewhat far reaching.

The officers of the association are Dr. E. C. Arthur, president; P. Peebles, of New Westminster, vice president; J. J. Dougan of Vancouver, secretary treasurer; A. E. Coote, of Chilliwack and R. C. Hodgson, of Burnaby, executive committee.

During the sessions of the convention a paper will be read by Dr. Fagan on the following subjects: "Are hygiene and public health sufficiently taught in our public schools; is our medical health inspection sufficient." Also an address will be given by Dr. Scott, city superintendent of the Calgary public schools on "The efficiency of the teacher and how to determine it" and address will also be made by Rev. Dr. Fraser on "What the Child has a right to expect from the state."

The afternoon sessions of the convention will be given by Hon. R. McBride, Hon. Dr. Young, minister of education; Alexander Robinson, superintendent of education, Rev. Mr. Henderson and others.

The resolutions of which notes have already been given are indeed extensive in their scope and are divided up so as to spread over the whole time of the sittings.

Each day there are to be two or three sessions, one in the morning another in the afternoon and a third at night. There are three resolutions all of which admit of considerable discussion. The first is that the association supports the centralization of schools; that the provincial government be asked for a small sum yearly for the purchase of a school library in rural districts and that it is in the interests of public education that private schools shall submit yearly a roster of the attendance of pupils upon a roll.

The afternoon sessions of the same day is to be taken up by four resolutions the latter two of which if carried and acted upon are particularly likely to accomplish a great deal of good. These resolutions are (1) that the government provide a stipend for all rural schools; (2) that the necessity be urged upon the government of a thorough and systematic examination of all public school children and teachers; (3) that educational interests would be best conserved by having reciprocity between the provinces in the matter of public school teachers; (4) that it would be beneficial to have a uniform qualification for teachers and a uniform grading of scholars throughout Canada.

In the evening there is only one resolution to come up, the time being taken up by various addresses. The one resolution, however, is more likely to pass than to come into effect although there is little doubt of the ill effect of different text books even with the best of the best of the history and geography of Great Brit-

IN CONGLAVE

Alberta Press Association at Cranbrook

EDITORS EXCHANGE VIEWS

ASSOCIATION CHANGES NAME TO EMBRACE BRITISH COLUMBIA—WILL MEET NEXT YEAR AT NELSON—ELECTION OF THE OFFICERS.

(Special to The Daily News) Cranbrook, Sept. 13.—The fourth annual convention of the Alberta Press Association opened in the opera house here this afternoon. Owing to severe storms in southern Alberta many members were unable to attend, but when the convention opened some score or more editors of Alberta and British Columbia papers were present.

Cranbrook had made elaborate preparations for the entertainment of the visitors, one of the special features of which was the very fine display of home grown fruits and vegetables, well displayed in the spacious store windows of Beattie & Atchison, including fine bunches of bananas from the Simpson ranch.

The convention was called to order by president Simpson when an address of welcome was delivered by alderman Fink, in the unavoidable absence of mayor Findlay and replied to on behalf of the association by D. H. Elton, of Cardston, Alberta.

The president's annual address followed a forcible plea for greater co-operation among publishers. Brief talks by two veteran newspapermen, Dr. Watts, of Fort Steele and A. B. Grace, of Cranbrook, Alberta, Mr. G. F. Freeman, of Camrose, Alberta, Mr. B. Thomas of the press, followed.

The hour being late the election of officers was then proceeded with, resulting as follows: Hon. president, F. E. Simpson, Cranbrook; president, D. H. Elton, Cardston; first vice-president, F. J. Deane, Nelson; second vice-president, A. D. Watt, Edmonton; third vice-president, J. A. Ker, Leduc, Alberta; secretary, B. Thomas, Camrose, Alberta; executive committee, W. L. Amy, Medicine Hat; Bob Edwards, Calgary; F. G. Foster, Medicine Hat; E. Freeman, Innisfail, Alberta; A. B. Grace, Cranbrook.

The place of the next annual meeting was the next item on the program. F. J. Deane invited the convention to Nelson, T. B. Thomas put forward Camrose as the meeting place. On a ballot the place was taken by Nelson.

On a motion to change the name of the association it was agreed upon to change from the Alberta Press Association to the Alberta and Eastern British Columbia Press Association. The convention then adjourned.

This evening the visitors were entertained at a smoking concert in the opera house by the business men of Cranbrook. Those in attendance were: D. H. Elton, Cardston, D. C. McMillan, Calgary, W. C. Hunter, Calgary, Joseph Ryan, Spokesman-Review correspondent, Edward J. Freeman, The Province, Innisfail, F. H. Schooley, The Advertiser, Lacombe, F. J. Smith, Moyle Leader, Jas. A. Ker, Leduc, W. Lacy Avery, The Times, Medicine Hat, A. B. Watt, The Saturday News, Edmonton, F. G. Foster, The News, Medicine Hat, D. V. News, Nelson, John Hutchinson, Cranbrook, captain T. B. Thomas, Camrose, W. G. Lowrey Leduc, F. E. Simpson, Cranbrook, A. B. Grace, Cranbrook, and Dr. Watt, Fort Steele.

ONTARIO BY-ELECTION. Toronto, Sept. 13.—The bye-election for the Ontario legislature, to fill the vacancy in Brockville, caused by the resignation of G. P. Graham, leader of the opposition to become minister of railways and canals for the dominion, takes place September 30.

BANK CLEARINGS. Montreal, Sept. 13.—Bradstreet's report for the week ending September 12, shows bank clearings for the week to \$83,000 against \$70,000 the week last week and \$80,501,000 in the same week last year.

The following is a list of the Canadian cities.

Table with 2 columns: City, Amount. Halifax \$1,148,000; Toronto \$2,846,000; Winnipeg \$1,210,000; Ottawa \$3,274,000; Vancouver \$4,227,000; Montreal \$1,824,000; Quebec \$2,227,000; Hamilton \$1,662,000; St. John \$1,552,000; London \$1,270,000; Victoria \$1,118,000; Calgary \$1,157,000; Edmonton \$845,000.

PUGLESY GOES IN. Will be Elected by Acclamation on Next Wednesday.

St. John, N. B., Sept. 13.—Hon. William Pugsley will be elected by acclamation next Wednesday, mayor Sears, his only opponent, having decided to retire.

PUBLICITY WANTED. (Special to The Daily News.) Vancouver, Sept. 13.—Mr. R. H. Court, publisher of "Canada," a London magazine, states that while the dominion is making the northwest the old colony, British Columbia was receiving very slight attention. He advises an expensive campaign of publicity, the results of which he states would be most helpful.

FOR ENQUIRY

Ottawa Despatches Official to Vancouver

HINDUS TERRIBLE PLIGHT

CAN FIND NO ACCOMMODATION IN CITY AND ARE SLEEPING IN UTTERLY INADEQUATE TENTS—DRILL HALL REQUISITIONED IN THEIR BEHALF.

(Special to The Daily News) Vancouver, Sept. 13.—As the riotous feeling towards Asiatics is decreasing the city finds itself face to face with serious problems through the absolute lack of proper accommodation for hordes of Hindus who came over on the steamer Mntezga. This afternoon K. Das, an educated Hindu, appealed to the authorities in their behalf.

For a human being a current of 35 volts is applied intermittently in its full strength for minute fractions of a second.

Two electrodes are applied to the skull in a special manner the points of application being first carefully shaved. Prof. Leduc made a series of experiments on dogs and himself. All were successful. The application of the current was not dangerous and no ill effects followed, even when the experiments lasted for hours.

GOMPERTS TO AGIT. Washington, Sept. 13.—President Gompers on his way back to New York to confer with president Small of the Telegraphers' Union regarding a proposition to settle the great strike. Officials of the Telegraphers' Union here wired to president Small the following telegram:

"Samuel Gompers requests you to meet him at New York this evening. Mr. Gompers will have a proposition to make to you, and we urge that you give it most serious consideration, and if possible bring the strike to an honorable termination."

The nature of the proposition which president Gompers has to make is not known.

TO UNITE THE CHURCHES. PRESBYTERIAN AND METHODIST COMMITTEE. DIFFICULT PROBLEMS ARE NOW BEING DISCUSSED.

Toronto, Sept. 13.—The hardest proposition before the joint committee on church union at present, appears to be that with which one of the sub-committees wrestled yesterday, viz., administration of the benevolent funds, such as that for the support of aged and infirm ministers; widows and orphans. In the Presbyterian church, the contribution to such a fund is voluntary but in the Methodist church is obligatory, and the Methodist obtaining and disbursing the revenue on these funds differ materially.

The different methods adopted were gone into by a sub-committee of the committee on administration, but a solution is still in the future.

The sub-committee on administration has the biggest task on hand. Its work has been sub-divided among four smaller committees. These are dealing respectively, with benevolent funds, publishing interests, colleges and their support and missions. The added congregational members of the sub-committees are: W. L. Gunn, F. J. David and Henry O'Hara.

MAN'S VIEW. Asiatic Immigration Must Be Excluded or Controlled.

Winnipeg, Sept. 13.—D. Mann was asked today "what is the feeling at the coast regarding the question of Asiatic labor?" The census of intelligent public opinion seems to be," said Mr. Mann earnestly, "that Asiatic labor in British Columbia should be either controlled or excluded."

"That I might be in favor of controlling it by stringent and wise legislation is neither here nor there. The point is that it should come with legal management or supervision. International complications would then be rendered practically impossible by the acts of irresponsible mobs or individuals. I am convinced that it will not be the better or more intelligent order of citizens that were implicated in the acts of hoodlumism and disorder that marked the feeling against Asiatic labor in Vancouver the other night."

MILLS TO CLOSE. (Special to The Daily News.) Vancouver, Sept. 13.—It is understood that all local sawmills will be shut down on December 20th for an indefinite period. The alleged reason is because of the slackness of northwest trade and it is stated that reopening depended entirely on the picking up of orders from that district. All travelers for local mills throughout the northwest were recalled sometime ago but are now again being sent out. Upon the result of this present trip will depend the detail of the coming shutdown.

TUPPER WANTS JAPS. No Objection to Asiatic if Healthy Says Old Man.

Montreal, Sept. 13.—Sir Charles Tupper, lady Tupper and Marie Tupper, arrived here this morning from England, and leave tonight for Winnipeg.

"I can hardly believe that a member of parliament would so forget himself to make such a statement. It is an

idiotic way to talk. Why he practically constitutes himself a defender of the 'nearly mob.' This was Sir Charles' indignant exclamation when newspaper reporters repeated to him of the recent interview given out by R. G. Macpherson, M. P., for Vancouver, in which Mr. Macpherson states that unless the government stepped in to prevent the immigration of Japanese and to keep British Columbia a white man's country there would be another episode like the "Boston harbor tea party." Sir Charles resented the occurrence and said there should be no objection to strong healthy settlers coming into Canada, whether Japanese or Chinese.

ELECTRIC SLEEP. New York, Sept. 13.—Prof. Stéphane Leduc, of the school of medicine at Nantes, has discovered a method of causing electric sleep, says a Paris dispatch to the Times. It is claimed for the discovery that it will replace chloroform and other anesthetics in all surgical operations. The discovery proceeded from study of the effects of intermittent currents and from the knowledge that skull and brain offer but little resistance to the currents.

For a human being a current of 35 volts is applied intermittently in its full strength for minute fractions of a second.

Two electrodes are applied to the skull in a special manner the points of application being first carefully shaved. Prof. Leduc made a series of experiments on dogs and himself. All were successful. The application of the current was not dangerous and no ill effects followed, even when the experiments lasted for hours.
