Over 3,000 Designer Patterns Right in Stock.

J. N. CURRIE & CO.

Glencoe's Best Clothing House with Ample Stocks for Good Selection.

The Transcript

Published every Thursday morning from The Transcript Building, Main Street, Glencoe, Ontario. Subscription—in Canada, \$2.00 per year; in the United States and other foreign countries, \$2.50 per year.

Advertising.—The Transcript covers a wide section of territory in Western Ontario, and its readers are the leading farmers and townpeople. It is a first-class advertising medium. Rates on application.

Job Printing.—The Jobbing Department has superior equipment for turning out promptly books, pamphlets, circulars, posters, blank forms, programs, cards, envelopes, office and wedding stationery, etc. A. E. Sutherland, Publisher.

The season is approaching when those who stay at home don't need to worry about being mistaken for a bear or deer.

It is just as easy and much more pleasant to boost for a home enterprise, but it's hard for some people to see it that way.

Business men should pay special attention to their advertising from now on. The opportunity for a good fall trade should not be neglected.

A slump was seen coming in the United States by Henry Ford so he arranged to spend \$7,000,000 in newspaper advertising this year. The moral is obvious.

The Province of Ontario gave dry majorities in 1894, 1898, 1902, 1919 and 1921. What she will do in 1924 depends on the interest or indifference of the voters.

The figure of a bathing girl on the windshield does not always denote a paucity of grey matter behind the steering wheel. It may be only a case of warped judgment.

The unemployment situation in urban centres will only be alleviated when the unemployed are ready to return to the country, where hundreds of farms are in urgent need of cultivation.

It is officially estimated that last year United States tourists left \$156,000,000 in Canada. How much of this fell into the hands of the speed cops and magistrates under the fee system of policing the highways is not stated, but it must have been considerable. The guest from the U. S. is usually made the "goat."

Petrolia Advertiser-Topic says:—Glencoe has passed a by-law permitting payment of taxes semi-annually. Petrolia did the same thing a few years ago but it was not worth the passing of the by-law, as only between \$2,000 and \$3,000 is paid by first instalment. People don't want to pay taxes or die before they have to.

It is recorded that at an A.Y.P.A. meeting near Tillsonburg a furore of laughter was created when in a debate it was stated that the present bootleg whiskey being sold was no-

thing but embalming fluid. But why laugh? Embalming fluid consists mostly of formaldehyde, which something tells us is also used extensively in the modern method of curing bacon to get it quickly on the market. You get the odor of it in the cooking. Well, when you get a whiff of somebody's breath who has been indulging in a bootleg jug, just note the resemblance to fried hog.

The citizen worthy of being a citizen does not need to be told that in using the ballot he is exercising one of the highest and most solemn duties of citizenship; that he, collectively, has in his keeping not only the character of the government but the good name of county, state and country. It is a responsibility whose exercise will not be taken lightly by any thoughtful man or woman.

The autumn has arrived. Colder winds and chillier rains are now the rule, and it will not be long ere the snow flies. Nature has been at work, the trees are beginning to put on their gorgeous fall clothes; the leaves are turning to brilliant colors and are found here and there scurrying and scraping along the sidewalks. Brilliance and browns have replaced greens. Christmas and winter are almost upon us.

The recent strike of postal workers cost the Government of Canada nearly \$300,000. To this must be added the loss of the workers in salaries while they were "out." When it is remembered that this strike was started while negotiations were under way and the men were in line to receive practically all they asked, it does seem that it was an almost criminal mistake to bring on the strike. A strike is a two-edged weapon that generally cuts both ways.

Insurance men say that following every disastrous fire in a community there is a demand for additional insurance, showing that it requires a practical demonstration, at somebody's cost, to force upon people the necessity of adequate protection. The premiums for insurance of all kinds are usually the most unwelcome debts we have to pay, for no one ever wishes that he will get anything in return for what he is paying except the abstract feeling of protection.

Those of us who were inclined to doubt the benefits of athletics in the schools would have had this dispelled after attending the "Wossa" exercises in Glencoe on Friday. "A sound mind in a sound body" can only be secured by vigorous exercise, and hard, everyday work cannot take the place of pleasurable recreation such as competition on the athletic field affords. It was gratifying to note the clean, sportsmanlike manner in which the events of the "Wossa" meet were conducted and the good feeling that prevailed among the competitors. Such augurs well for the return of the days of real sport in the larger world of athletics when the young of today enter into the years of maturity, commercialized, unprincipled sport, so common in recent years, will then, it is hoped, have had its day.

GLENCOE FAIR PRIZE WINNERS

(Continued from last week)

Grain and Seeds

Fall wheat, white—W. A. McCutcheon, Chas. Gould, A. B. McDonald. Fall wheat, red—Chas. Gould, Russell Walker, F. M. Siddall. Barley, bearded—W. A. McCutcheon.

O.A.C. oats—W. A. McCutcheon, A. B. McDonald. Banner oats—W. A. Coulthard, Thos. Walker, Edgar Munson. Oats, any other kind—W. A. McCutcheon.

Peas—Webster Bros., W. A. McCutcheon.

Beans—W. A. McCutcheon.

Flax—Webster Bros.

Corn, yellow, in ear—W. A. McCutcheon.

Corn, White Flint, in ear—Wm. Gould, W. A. McCutcheon.

Corn, Golden Dent, in ear—F. M. Siddall.

Corn, Yellow Dent, in ear—Wm. Gould, W. A. McCutcheon.

Corn, Strawberry Dent, in ear—F. M. Siddall.

Corn, White Cap Dent, in ear—Wm. Gould.

Corn, Wisconsin No. 7—W. A. McCutcheon.

Pop corn—Walter Hailstone, W. A. McCutcheon, J. L. Tait.

Corn for husking—Walter Hailstone, F. M. Siddall.

Clover seed, red—W. A. McCutcheon, Nevin McVicar.

Alfalfa seed—W. A. McCutcheon, Webster Bros., Nevin McVicar.

Specials

White oats—W. A. McCutcheon.

Sheaf of oats from binder—Wm. Gould, D. P. Campbell, Edgar Munson.

Sheaf of wheat from binder—J. C. Gillies, W. A. McCutcheon, Edgar Munson.

Wheat, 1924 crop—H. McKellar.

O.A.C. oats—W. A. McCutcheon, A. B. McDonald.

8 NEW FORD SEDANS AND 8 NEW FORDSON TRACTORS

FORD CONTEST ANNOUNCEMENT

The Ford Motor Company of Canada, Limited, has now been in business for twenty years. During that time 340,964 Ford cars and trucks have been built and the Ford has won a nation-wide reputation for giving satisfactory service.

In our relations with the public as local Ford dealers we have learned that the best advertising we get is the recommendation of a satisfied customer. Many Ford cars are sold on such recommendations and many more will be sold in the same way.

If you are one of the many thousands of Canada's farmer Ford-owners, here is a big opportunity for you.

Three farmer Ford-owners or members of farmer Ford-owners in each township in this territory will be given the privilege of taking orders for Ford cars, trucks and tractors. Only the first three to apply for this privilege in each territory will be enrolled. You can enroll immediately.

Order forms and complete instructions will be supplied to all contestants. All you are expected to do is to tell your friends who need a car, truck or tractor of your own experience with your Ford. If they decide to buy, you take their order and send it to the Ford Branch in this territory.

On all such orders you will get credit in points at the rate of 5% on the list price of the order. The contestant gaining the highest number of points in each Ford Branch territory will receive, absolutely free, a Ford Tudor Sedan, fully equipped, all taxes and delivery charges paid, and with 1925 license, ready to run.

Next highest contestant will receive, free, a Fordson tractor, fully equipped with fenders and belt pulley, ready to work.

All contestants who do not qualify for first or second prizes will receive credit for 3% of the list price on all orders taken by them. This will be awarded in any kind of Ford-made merchandise or in cash.

This contest closes December 30th. Prizes will be delivered January 15th. Enrollment applications will be sent to all farmer Ford-owners but if you wish to enroll immediately in order to insure acceptance application may be had from the undersigned.

GALBRAITH BROS.

APPIN, ONT.

The Moderation League of Ontario

President, I. F. Hellmuth, K.C.

ONE of the most embarrassing facts that the advocate of compulsory total abstinence has to face is that wherever his theory has been put into practice there has grown a strong movement against it; further, the longer the experiment of prohibition has been tried, the greater the opposition it has created. Time has always been against it.

This movement is that in favour of Government Control.

Had Government Control been dependent for its adoption on the votes of those who have always voted against so-called prohibition, it could never have become the law of any Province in Canada. One of the most encouraging things to those who have been active in the work of Moderation Leagues is that there have rallied around them everywhere men and women who in the past have voted with the opponents of the Leagues.

Contrary to the statements made by the prohibitionists, these men and women were not and are not concerned with promoting the interests of what is so euphoniously called "the booze business." They were not and are not men and women ignorant of conditions existing in their own communities. They were not and are not ignorant of conditions existing in other communities. They were and are, for the most part, typical sound, sane and reasonable citizens of Canada.

These men and women, just as is the case with the men and women of Ontario today, had placed before them all the usual stock arguments of the prohibition propagandist. They had placed before them rows of figures and lurid statements showing that prohibition was a success and that Government Control was a failure.

In spite of this, the greater argument of personal experience and observation made them discard prohibition and adopt Government Control.

It is impossible to enumerate all the reasons prompting the change, but it is highly significant that, to take one example only, the Province of Saskatchewan, which for years had voted strongly, whenever opportunity arose, in favour of prohibition, should last year have voted decisively against it; and the significance of this is increased when there is taken into account what the people have been told in Ontario regarding Manitoba. The people in Saskatchewan have, by their geographical position, a much better opportunity of knowing the conditions in Manitoba than have those in Ontario, and it will not be questioned that they had a much better opportunity of knowing the conditions in their own Province than people residing elsewhere.

Let it be remembered that the system in Manitoba had been in operation many months before the people in Saskatchewan voted on this question.

The conclusions are irresistible.

Prohibition was considered a lamentable failure in Manitoba, a lamentable failure in Alberta, and a lamentable failure in Saskatchewan. For their prohibitory laws these Province adopted a policy of Government Control. And Prohibition has been a lamentable failure in Ontario.

There is no substantial evidence anywhere that any of these Western Provinces would revert to its old prohibitory system.

On the other hand, after less than twelve months, the revenues of the Province of Manitoba have been increased by more than a million dollars and for the first time in years they have balanced their Budget.

No one contends that Government Control has yet attained its last degree of perfection. It is, however, contended that it is a better method of dealing with those evils with which prohibition pretends to deal, and that in addition the revenues of the Province benefit.

Government Control can be had by marking your Ballot as follows:

1	Are you in favour of the continuance of The Ontario Temperance Act?	X	MARK YOUR BALLOT HERE
2	Are you in favour of the sale as a beverage of beer and spirituous liquor in sealed packages under Government control?		

Provincial Headquarters, 9 Richmond Street East, Toronto
