The Down Draft Principle of Heating

The Down Draft Principle in furnaces is the latest device in warm-air heating. By it the cold and foul air from the living room above are drawn to the top of the fire. There all the impurities in the air are destroyed, with the result that a much more healthy air is produced than by any other furnace.

The gas in the fuel is burned, and as the gas produces the most intense heat, that benefit also is derived. This is not the case with direct-draft furnaces where the gas is sent up the chimney and the heat lost. Every particle of heat is extracted from the fuel and less clinkers and less ashes are produced.

The Down Draft method of heating reduces your fuel bill from 10 to 20 per cent., a fact which should make you want to become acquainted with the merits of this fuel-saver. This you can do at once by sending for a catalogue.

Every furnace has our celebrated triangular grate bars which clear the fire easily and economically; and large ash pan, water pan, check damper, chain, and automatic damper regulator, etc.

Don't Become a Slave to Drugs

The drug habit is the greatest curse of humanity. Do you know how it is formed, and who is responsible for the blighting of thousands of lives by this awful habit. I'll tell you. In nine cases out of ten it is the doctor.

Suppose you are suffering from a stomach trouble. Your doctor gives you some medicine to relieve the distress. It relieves you all right for a few hours, but the pain comes back. Then you must take some more medicine. You don't know what this drug is that the doctor has given you, and you don't bother about asking until after Nature has cured the stomach and you try to stop taking the medicine. That is the time when the skeleton on the bottle grins at you triumphantly.

The stuff that you have been taking is dope—poison, and the doctor knew it all the time. You see, this dope kills pain by stupefying the nerves, and of course they are weakened by each dose. If you stop taking the drug, your nerves will not let you have ease—you can't sleep, can't eat until you feed them with the poison.

Any one who takes drugs for the cure of pain or disease is liable to become addicted to the drug habit in this very way. Nearly all drugs that you buy contain a large amount of opium or poison of some kind. The base of the doctor's prescription is poison. He uses it in nearly every case he treats.

Every time you take a drug to force the stomach, liver, kidneys or heart, you hurt them—you actually lessen their natural vitality, and any one can see that in time by steady dosing, you will have no natural action of these organs.

If you are sick or ailing in any way it is because of the failure or breaking down of some vital organ. The reason any organ fails to do its work is because it lacks electricity. When it is doing its work right, the stomach generates electricity for the support of the body and itself. When it is not able to generate this needed force it must have aid. This aid is electricity, artificial electricity, as applied by my Belt.

Electricity is a relief from the old system of drugging. It does by natural means what our expert druggists do by unnatural means. It removes the cause of disease, and after the cause has been removed Nature will do the rest.

Dr. McLaughlin's Electric Belt is easily, comfortably worn next to the body during the night, and gives out a continuous stream of that strength-building, nerve-feeding force which is the basis of all health.

Dr. McLaughlin:
Dear Sir,—I am glad to tell you that your Belt has made a great improvement in me, for which I am most thankful. I have great faith in it. It has done me more good than medicine. Wishing you every success.
BRENTON D. LAWRENCE,
Lakeville, N.S., July 4, '07.

Dr. McLaughlin:
Dear Sir,—I must say that your Belt has done me a lot of good. I have got a little fleshy, and look a lot better. I have a good appetite, and my food digests better and I sleep a lot better. Please accept my thanks for your kindness, and excuse me for neglecting to write to you.
MRS. M. McMANUS,
Smith's Falls, Ont., July 4, '07.
