SHOCKING CHILD MURDER.

A Parent's Horrible Confession.

Lynn, Mass., May 25.—Lynn is just now enjoying another highly flavored sensation, which is creating almost as much comment as the trunk mystery. It is the murder of a child ten days old, by its unnatural parents to save themselves from disgrace. The body was found in the woods near Malden, and John N. Buzzell was arraigned in the Court to-day as one of the principals. A man answering his description, with a woman was seen to drive into the woods last Saturday and the Police with this clue captured him. The woman was soon arrested. Her story of the awful scene in the woods is briefly as follows:—"I have been intimate with Buzzell for over a year. Some time since I became aware that I was likely to become a mother, and my parents also came to the knowledge of my condition. Marriage was suggested, but Buzzell represented that he had married on the 4th of this month. It was really his father who married on that date, and so of course this way out of the difficulty had to be abandoned. Buzzell proposed that I should be taken to the house of his sister Mrs. Currie Mayo, Chelsea. This was done, and on the 6th of May the child, a girl was born. Proper medical attendance was procured and both I and my child were soon doing well. The next question was how to dispose of the unwelcome babe, and it was decided to take it to some lying-in hospital in Boston and leave it. On Saturday I went from Chelsea to Boston in a horse car, to meet Buzzell by appointment. I met him near School street, and we went to the hospital and made an effort to have the child taken in. The admission of the child was refused on account of its age, the manager saying that if the child could be brought there when it was two weeks older it would be provided for. I then returned to Chelsea, and soon after was joined by Buzzell, who, during the time we were separated, had hired a team, and when he came with it I got in with the child in my arms.

THE FATHER STRANGLES HIS BABE.

"We started for the woods. Upon reaching the woods Buzzell stopped the team, and deliberately asked me to strangle my child. This I refused to do, and I was horrified at the proposition. Buzzell then said, "Why, you can run your finger down its throat and kill the little thing in a minute." I was overcome with horror at this suggestion, but Buzzell angrily took the child and deliberately strangled it until it ceased to struggle, and was apparently dead. I covered my face with my shawl while he did it.

Boston, Mass., May 25.—John Buzzell, of Lynn, confesses to murdering the child for which he was arrested on suspicion.

PEACE WITH AFGHANISTAN.

The Treaty Signed by Both Sides—Great Advantages Secured.

London, May 26.—The Secretary of State for India this afternoon received a telegram from Major Cavagnari stating that he had signed a treaty with the Amirs of Afghanistan. A Simla despatch states that the British will remain at Candahar until the autumn. It is probable Yakoub will request them to stay longer, as his brother Ayoub is at Herat preparing to seize Candahar whenever it is evacuated. The treaty with Yakoub is most satisfactory. Every political and commercial advantage the British hoped for has been gained.

TERRIBLE DEATH AT ELORA.

A Miller Torn in Pieces Among Revolving Machinery.

Elora, Ont., May 22.—A shocking accident occurred in Elora grist mill about four o'clock, by which one of the proprietors, Mr. Henry Dorton, aged about 65, lost his life. While in the act of oiling the machinery on the second, his clothing was caught by a revolving shaft, making 150 revolutions a minute, and in less than a moment his body was torn to pieces. The limbs were severed from the body, and entrails strewn on the floor. The sight was of the most shocking description. Deceased had been absent from the first that about half an hour, and was not known to have been upstairs. His son, on going to change the slide on the 3rd story, discovered his father revolving in the machinery. He immediately stopped the belt, ran to the lower floor, stopping the entire machinery. An inquest was held, and a verdict of accidental death returned.

THE TORONTO WALKING MATCH.—This is the record at the close of this six day's match: Walker, 434 miles, 5 laps; Nelson, 428, 6; Warnes, 341, 3; Alberti, 300; O'Grady, 222, 13.

The Marquis of Lorne is having two beautiful cars built for him in Troy at a cost of \$15,000. One is to be used as a sitting-room, the other for smoking. Their fittings are luxurious, and they are made to run on any road. They will carry the Marquis and the Princess on their trip to the States.

HANLAN, ELLIOTT, AND PLAISTED.—Both Hanlan and Elliott continue to practice diligently. Hanlan had a sort of informal trial with Plaisted on Saturday, on the Tyne opposite the Meadows. Hanlan beat Plaisted by fifty yards without any apparent exertion, and at 34 strokes to the minute broke right away from him. A rowing match between Plaisted and Nicholson, for £100 a side, has been arranged for the 23rd of June.

A. H. Havill is a young man who commenced business in Palmerston (Ont.) 18 months since, as tinmith and stove dealer, on borrowed capital, without money, without experience, and no discretion. In his short career he shows a loss of \$1,000, or more, having assets nominally of that value and liabilities of double the amount. Too much credit and too little discretion have combined to place him in the Insolvent Court, from which he is not likely soon to escape.—*Journal of Commerce.*

No Medicine But Food.

The fall and early winter season is the harvest time for hacking coughs and debilitating forms of Catarrh, just as the later spring is the seed time of malarial fever. To know a certain cure of the one and a preventive of the other, is to have within our reach the most inestimable blessing of the period. We do know of them, for these really marvelous properties are combined in Scott's Emulsion of Pure Cod Liver Oil with the Hypophosphites of Lime and Soda.

There is no form of physical waste and prostrated vitality, that a bountiful use of the Emulsion, will not change to glowing health and full life and vigor, and then it is not a disagreeable medicine, but the most delightful kind of food.
