Students who are scheduled to write more than one examination at the same time on the same day should report to the Registrar's Office as soon as possible.

developed New education continuing courses

Brunswick's department of ex- Technology Centre. tension and summer session interest to husiness, industry and labor.

"Her appointment is the university's response to an increasing demand for management education," said extension director John Morris.

Mr. Morris noted that over the past couple of years, UNB has taken several steps to become more actively involved in the development of commerce and industry in the province. It has established a Centre for Research in Engineering and Applied Science to promote co-operation with industry. It has joined forces with the New Brunswick Research and Productivity Council and provincial government departments to launch

The University of New Canada's first Manufacturing

"Mrs. Noble's appointment has hired Marilyn Noble to will enable us to contribute develop continuing education more effectively at the numan courses in areas of particular level of industry and commerce by developing courses specifically for labor and management," he said.

> Eric West, dean of UNB's administration faculty, sees professional development courses for people in business, labor and industry as "absolutely

This is a need in our province that has gone largely unmet and it is a need the university has resources to meet. I hope that Mrs. Noble's appointment is just a first step toward the establishment of a continuing education centre for management, labor and the professions at UNB."

The university's Third Century Fund campaign has targeted \$125,000 for this pro-

Since she joined the extension department last medium often used in distance courses on personal invest-November, Mrs. Noble has education which can also be ment and money managebeen talking to groups and organizations around the province to identify specific professional needs. She has also been meeting with UNB faculty members to isolate particular areas of expertise at the university and to find out what contacts individuals within the university have already established with the business and industry communities throughout the province.

She has discovered one of the major challenges of her job to be finding ways of delivering professional development courses to people whose geographic location or work schedules make it difficult to come to the campus.

"Technology is providing us with exciting new means of extending out services to these

groups," she added.

used by business. One of the first short courses Mrs. Noble has arranged will be a seminar on teleconferencing scheduled for two consecutive afternoons in mid-February. Through a telephone linkage, participants gathered on the UNB campus in Fredericton will be brought into live contact with acknowledged leaders in the teleconferencing field at the University of Wisconsin's Centre for Interactive Programs and with an array of other small groups which have convened for the seminar at centres throughout Canada and the United States.

She has scheduled a series of short-non-credit courses of interest to the general public

and small businesses beginn-Teleconferencing is a ing this month. These include and analysis of financial statements. Courses on taxation of business income and inventory management using a hand-held calculator are designed to be of particular interest to small businesses.

> A course on consumer protection legislation and its implications for small business is slated for April.

Mrs. Noble is also developing short, non-credit courses on topical issues relating to office automation, organizational behavior, personnel management, market analysis and consumer behavior. A course in investing in art and another dealing with financial, promotional and legal concerns of visual artists are being considered for spring.
