

	PAGE.		PAGE.
Elevated railroads, discussion on...	589	Energy, the importance of.....	835
Elevated railroads, Dr. Waddell's preparation for writing upon....	589	Engagements for educational purposes .....	931
Elevated railroads, economical design of.....	644, 673	Engagements, professional, difficulties in obtaining.....	783
Elevated railroads, elements of....	664	Engine diagrams.....	262, 263
Elevated railroads, faulty design of.	648	Engine diagrams, delusions relative to .....	406
Elevated railroads, field for.....	590	Engine diagrams, inaccuracy of....	395
Elevated railroads, floor systems for	657	Engine diagrams, labor they involve	362
Elevated railroads, foundations for.	663	Engine diagrams, persistent use of..	448
Elevated railroads, fundamental design for.....	635, 636, 637, 639	Engine diagrams, use of in calculating .....	370, 395, 427, 432
Elevated railroads, general design of .....	641, 690	Engine diagrams, value of.....	421, 422
Elevated railroads, height above street .....	655, 673	Engineering books.....	80
Elevated railroads, longitudinal thrust in .....	695	Engineering, business in relation to	854
Elevated railroads, methods of construction .....	591	Engineering course, objections to increase in length of.....	935
Elevated railroads, methods of designing .....	779	Engineering course, time for.....	845
Elevated railroads, modification in design .....	766	Engineering courses, character of..	155
Elevated railroads, Northwestern and Union Loop, Boston.....	7	Engineering courses, extension of..	145
Elevated railroads of New York, maintenance of.....	757	Engineering courses, length of....	150
Elevated railroads, proportion of cost of, to cost of operation.....	644	Engineering courses, methods of strengthening .....	941
Elevated railroads, proportioning of	772	Engineering, development of.....	934
Elevated railroads, proportioning of columns .....	642	Engineering, economic, the importance of.....	837
Elevated railroads, rigidity of.....	774	Engineering education.....	151
Elevated railroads, sites for.....	589	Engineering education, apprenticeship system of.....	821
Elevated railroads, success of four-track .....	641	Engineering education, as a preparation for business.....	952
Elevated railroads, value of simplicity in design.....	646	Engineering education, development of .....	934, 952
Embankment, finish to subgrade...	59	Engineering education, Dr. Waddell's ideas relating to.....	931
Embankment for railroads, advantages of .....	754	Engineering education, Dr. Waddell's interest in.....	935
Embankment, obtaining material for	17	Engineering education, Dr. Waddell's latest views on.....	841
Embankment, to prevent the sliding of .....	45	Engineering graduate's first work, his idea of.....	507
Embankments, construction of....	44	Engineering graduate's first work, value of.....	507
Embankments, destruction of.....	16	Engineering graduates, character of their training.....	934
Embankments, materials used in....	44	Engineering history, instruction in.	187
Embankments, refuse in.....	22	Engineering, history of.....	185
Embankments, shrinkage of.....	59	Engineering, purpose of.....	961
Employment, changes of.....	795	Engineering schools, equipment of..	88
Employment of young engineers by manufacturers.....	822	Engineering societies, the importance of .....	853
End shears, calculation of.....	487, 490	Engineering, specialization in.....	963
End stiffeners for elevated railway girders .....	759	Engineering studies, methods of obtaining time for.....	941
Energy, demanded of instructor....	181	Engineering, teaching principles of.	173
Energy, employment of by young engineers .....	787	Engineering, the breadth of.....	854
Energy, required for bridge engineer .....	790	Engineering, the development of....	962
Energy, result of lack of.....	520	Engineering work, charges for.....	792
		Engineering work, on railway construction .....	41
		Engineering works, conditions governing construction of.....	915
