

shall include all such other insects and diseases. Public notice of such order in council shall be given by publication in two successive issues of the *Ontario Gazette*. 10 Edw. VII., c. 99, s. 14.

Regulations.

20. The Lieutenant Governor in Council may make such regulations as may be deemed expedient for the better carrying out the provisions of this Act. *New*.

10 Edw. VII., c. 99, 1 Geo. V., c. 17, of His late Majesty, King Edward the Seventh, and sections 60, 61, ss. 60-62, repealed, and 62 of *The Statute Law Amendment Act, 1911*, are repealed.

21. *The Fruit Pests Act*, passed in the 10th year of the reign

REGULATIONS GOVERNING THE FUMIGATION OF NURSERY STOCK PASSED UNDER THE FRUIT PEST ACT.

1. Fumigation must be carried on in a box, room, compartment or house suitable for the purpose, which must be air-tight and capable of rapid ventilation. The owner or proprietor will notify the Minister as soon as preparation for fumigation is complete. The Minister will thereupon order an inspection of the fumigation appliances. No fumigation under the Act is to be carried on until such inspection has been made and a satisfactory report sent to the Minister.

2. The inspector, after examining and measuring the box or house, or other compartment in which fumigation is to be carried on, will prescribe the amounts of material to be used for every fumigation, and the instructions as to the same must be carefully followed out. The inspector may, if thought advisable, supply the material for each fumigation in weighed packages.

3. The fumigation house (which shall include all apparatus or appliances used in the fumigation, such as generators, &c.) is to be subject to the orders of the Minister on the recommendation of the inspector. Subject to the approval of the inspector, the fumigation house may be on other lots than those on which the nursery stock is growing.

4. The fumigation is to be by hydrocyanic acid gas, produced according to the instructions of the inspector, and from such formula as he prescribes for the purpose.

5. The fumigation is to be continued for a period of not less than forty-five minutes. After the expiration of this time or longer, and when fumigation is complete, the house is to be thoroughly ventilated for fifteen minutes at least.

6. No person is to be allowed to enter the fumigating house until after the ventilation period has expired. Entering before may prove injurious, if not fatal, as the gas is a deadly poison.

7. The fumigation of buds and scions may be done in fumigation boxes of not less than thirty cubic feet capacity, the same to be subject to inspection and approval.

8. Immediately after inspection of the fumigation house, the inspector will report to the Minister, and the Minister or inspector will thereupon give permission in writing for the owner or proprietor to begin fumigation.

9. The owner or proprietor of every nursery will attach to every box and to every package of nursery stock a certificate as follows, and he will furnish to every purchaser who so desires, a copy of the same:—

CERTIFICATE OF FUMIGATION.

This is to certify that this package of nursery stock consisting of.....
.....was properly fumigated on or about
the.....day of.....19....., in accordance with the regulations
prescribed by the Lieutenant Governor in Council, in accordance with 10 Edw. VII.,
Chapter 9.
