A GOOD JOB. City Engineer McNabb has established a record for himself, having boott the first concrete arch in Chatham in front of the east side of Eberts' Block. Span eight feet, rise two feet six inches. Depth of arch from top surface at springing from wall of Eberts' Block, thurteen feet these inches these inches inches three inches, then eighteen inches one over centre, then eighteen inches and two feet six inches towards curb, twenty-four feet long, built on cantilever principle, the sheet iron divider being one foot by twenty-four feet. A copy of the Market Guide and of our poem on the late Queen enclosed. in a (dry) champagne bottle ob-tained from Mr. Roberts, were duly built into the centre of the arch. The whole job was well and mechani-cally done and reflects much credit

on the engineer, contractors and workmen.-Market Guide.

in the Hack saw mill plant, near New Buffalo, met a horrible death late yesterday aftennoon.

The lad was employed on a carriage when his foot slipped and his body plunged forward. The lad's head struck a large buzz saw, and the left side was severed. As the big saw revolved the victim's blood and brains were tossed 30 feet in the air.

In the excitement attending the attempt to save the unfortunate youth, some sawdust in the engine room caught fire and in a short time the mill was in ashes. Wagner's charred remains were recovered.
