You walk with her, you rock her, you give her sugar. you try all kinds of things!

But she coughs all through the long night, just the same!

No need spending another night this way. Just a dose or two of Ayer's Cherry Pectoral will soothe the

throat, quiet the cough, insure a good night's rest. Ask your doctor about the wisdom of your keeping this remedy in the house, ready for these night coughs of the children. Doctors have the formula. They know all about this medicine.

It is said that wedding bells will ring twice during March. The first and greatest needs of the hair are cleanliness, friction and ventulation. Give your halo a sun bath once in awhile, and the silky strands will fairly laugh with happiness. For some crazy reason there are many individuals who will not wash their heads often enough to keep the hair decently clean. We are not water animals and do not need to soak our topknots every day, but it is a pretty plain fact that exce every week or two the hair should be carefully washed. If there is an inclination to dandruff or if the hair is subjected to an unusual amount of dust, a weekly shampoo is an absolute necessity.

"I would advise mothers to stop dosing their little ones with nauseous easter oil and soothling stuffs and use only Baby's Own Tablets." This is the advice of Mrs. Joseph E. Harley, of Worthington, Ont., who has proved the Tablets the best medicine in the world for the troubles that afflict young children. Mrs. Harley adds: — "My little one has had no other medicine but the Tablets since she was two months old, and they have kept her the picture of good for children of every age, and speedily sure all stomach and bowel troubles, break up colds, prevent croup, expel worms and allay the irritation of teething. And you have a solemn guarantee that there is not a particle of opiate or harmful drug in this medicine. Sold by all dealers or sent by mail at 25 cents a box by writing The Dr. Williams Medicine Co., Brockville, Ont. like this man." This event in the Court of the Temple occurs about six months from our last lessor about seven months be-fore our Lord's death. The Feast of last lessor about seven months before our Lord's death. The Feast of Tabernacles was to commemorate Israel's dwelling in booths, ere they found a home in Canaan. It was salled the "Ingathering," for it was a harvest featival and one of the three great feasts men of Israel were commanded to attend yearly, the most joyous of them all. When the kingdom was divided Jereboam provided a similar service in his dominious to prevent the ten tribes going up to Jerusalem to worship. The last, the great day of the feast, watter from Siloam, was poured out in great abundance, after the Priests had encompassed the altar of saarifice seven times, and jost then Jesus uses the type and applies it to Himself and to the Spirit which they that believed on Him were to receive when He would be glorified at His assemsion. Penticost, the early rain, and the yet more abundant latter rain, of the present revival, is the spiritual harvest festival which our Great High Priest is pouring out apon His people, and which He always will when God's conditions are met by man. See Malachi 5.10: Acts 2, 33. Water is a type of the Spirit, as rain makes fraitful our earth, so the Holy Spirit produces fruits of righteousness in the hearts and lives of God's people, making them living witnesses walking evis. When the hair persistently suffers from loss of vitality it is usually from one or more of the following causes: Uncleanliness, lack of care, anxiety, worry, late hours, overstudy, want of exercise or disease. Dyspepsia is responsible for wany thinned out halos. The hair, brang the most delicate of the body's formation, is the first to show that the body is not receiving sufficient nourishment. The use of harmful restoratives or dyes will frequently cause the hair to become gray and broken. One cannot be too carefu, what one rubs into one's thought dome.
