City of Ottawa‡.....119	Toronto.....165	Utica.....112
Montreal.....200	Hamilton.....210	Albany.....205
Quebec.....380	Buffalo.....275	New York§.....350

The Kingston Marine Railway is the property of a Company incorporated by the Legislature, carrying on extensively the business of ship-building, both for inland and ocean navigation. This Railway hauls out for repair the largest class of both steam and sailing vessels. The machinery is propelled by an engine of thirty horse power. During the year just ending, by the enterprise of private individuals, several splendid sea-going vessels have been built at this port which have found a ready and profitable market in Europe.

In Portsmouth, a village a short distance from the city, there is another marine railway, under the superintendence of Mr John Ault, where two beautiful steamers, the Banshee and Bowmanville, were built during the past year, several schooners, &c.

* When the new Kingston and Perth Road is completed this distance will be shortened to about 50 miles.

† A railway is in active operation between Prescott and Ottawa.

‡ Travellers can either proceed by land to Cobourg, and thence take the steamer to Toronto, &c., or they can take the steamer up the beautiful Bay of Quinte to Belleville or Trenton, and there take the stage to Cobourg.

§ By this route the distance to New York city is reduced to sixteen hours travel.
