were quickly picked up at \$8.50 a cwt for
 selected lots, and as high as \$8.60 was of-
 fered for a special lot. There seems to be
 very little prospect of lower prices for
 some time to come.

Dressed hogs are firm with a very fair
 demand in spite of the fact that the
 dealers are obliged to ask. Fresh killed
 abattoir stock is quoted at \$12 a cwt.

EXPORT BUTTER AND CHEESE

Montreal, Saturday, May 22nd. The
 export demand for butter this week has
 been very active, and as anticipated at
 the beginning of the week the supply was
 not nearly sufficient to meet the demand,
 the bulk of the offerings at the country
 boards a week ago having been bought
 up by one house, and removed to the
 market here. As a consequence
 there was keen competition to get in at
 the country markets this week, which
 opened at the beginning of the week with
 prices ranging from 11c to 12c, but have
 advanced daily throughout the week, high
 water mark being reached at Ontario
 where the entire offering of colored cheese
 sold at 12 7/8c a lb, and the white cheese
 sold at 12 5/8c. The market for Col. Cheese,
 Quois, Kempsville and other boards sold
 at 12 1/2c, yesterday's ruling price being
 12 1/4c. The market for white cheese is
 strong in sympathy with the advance
 in the country, and strictly finest Belle-
 Brookville and other Ontario
 cheese are quoted at 12c, Townships at
 11c, and Quebecs at 10c. At these
 prices there is a number of exporters and
 there is every prospect of every
 available box of cheese in store here be-
 ing shipped out on this week's steamer.
 The advance in price caused by the in-
 creased demand from the other side,
 where there is evidently a shortage of
 cheese at present, especially of white
 cheese, which can be more readily sold
 than colored, and is commanding a small
 premium in price. The local market here
 is somewhat behind last year's at
 this time and this fact has also aided in
 the present advance. The local market
 here has not been quite equal to the
 demand, which would have been easily sat-
 isfied with a few boxes, and the fact
 that the butter market has been firm with
 a good demand from all sources and prices
 high has been well maintained on all
 grades of creamery. Finest Township
 creamery is quoted at 23c to 25c a lb,
 with ordinary finest quoted at 22c, and
 secondary quality at 21c. Dairy butter
 not plentiful, and selected stock is quoted
 at 10c to 12c a lb. In the Eastern Town-
 ships the offerings sold at 10c to 12c
 factories equal to 22c a lb delivered here.
 Dealers generally are looking for lower
 prices in the near future, but the fact is
 that they are about due now. The
 make is increasing with leaps and bounds
 and next week's receipts will be more
 than can conveniently be handled on this
 market without a good demand from out-
 side points.

SUCCESSFUL SALE AT MIDDLEMARCH

Success attended the sale of stock held
 by Messrs. C. H. Caughell & Son, of Mid-
 demarch, held May 18th. Implements went
 at bargain day prices. Registered Holstein
 cattle went at fairly low prices. The
 highest priced cow, loaned to Col. Calamity
 171, brought \$360. She was purchased by
 John Carroll of Middlemarch. The two
 cows, Mary and Dorothy Doulka, each
 brought \$250, and were purchased
 by C. H. Caughell, Yarmouth Centre,
 and Charles Grimley, Bedford Park, Tor-
 onto, respectively. The Hill was
 bought by E. C. Gilbert of Paynes' Mill,
 for \$300. Other prices ranged well over the
 \$100 mark. Good lots of dogs
 \$60 and \$26 for calves. The aged stock

EXCURSIONS TO GUELPH AGRICULTURAL COLLEGE

During the month of June there are
 thousands of Canada's best farmers and
 farm-owners and their families who take ad-
 vantage of the excursion routes to visit
 the O. A. College. It is worth while to
 visit the College to get the latest in-
 out, convenience and construction of the
 farm buildings, and that nearly all of
 these are roofed with "Easlake" Metallic
 Shingles. It will be noticed that the roof-
 ing is practically in perfect condition to-
 day though it has been on many of these
 buildings for more than 15 years, yet it
 has withstood the ravages of the weather,
 storms, wind and lightning absolutely. The
 "Easlake" Metallic Shingles are manufac-
 tured by the Metallic Roofing Co. of Tor-
 onto, the pioneers in the manufacture of
 metallic building materials. They will
 gladly furnish our readers with full infor-
 mation as to cost, and show how easily
 they can be applied to any roof, old or
 new.
