

HAD BACHACHE.

Was Unable To Do House-work For Two Years

Many Women Suffer Untold Agony From Kidney Trouble.

Very often they think it is from so-called "female disease." There is less "female trouble" than they think.

Women suffer from backache, sleeplessness, nervousness, irritability and a dragging down feeling in the loins. So do men, and they do not have "female trouble."

Why, then, blame all your trouble to "female disease"?

Most of the so-called "female disorders" are no more or less than "kidney disorders," and can be easily and quickly cured by Doan's Kidney Pills.

Mrs. C. Dupuis, Bellevue Village, N.B., writes: "I was unable to do my housework for two years on account of backache. I could not get up the stairs. Doan's Kidney Pills cured me permanently after doctors failed to even relieve the pain. I can highly recommend them to all sufferers from kidney trouble."

Price 50 cts. per box or 3 boxes for \$1.25 at all dealers or mailed direct on receipt of price by The Doan Kidney Pill Co., Toronto, Ont.

O. daughters, including world's champion milk cow. For sale: 1 service bull; 10 bull calves, by 20-lb. butter cows. 75 head to select from.

W. D. BRECKON, Mgr., Bronte, Ont.

BUSINESS HOLSTEINS!

Over 60 head to select from. Milk yield from 60 to 85 lbs. a day, and from 35 to 47 lbs. a day for 2-yr-olds. There are 10 2-yr-old heifers, 8 1-yr-olds, and a number of heifer calves. Bulls from 1-yr-old down. Priced right. Truthfully described. W. HIGGINSON, Inkerman, Ont.

Imperial Holsteins!

For sale are 13 bulls from 8 to 12 mos. of age, sired by Tidy Abbecker Mercedes Posch, whose 7 nearest dams have record that average nearly 27 lbs., and out of show and high official record cows. W. H. SIMMONS, NEW DURHAM P. O., Ont. Norwich station, Co. Oxford.

Ridgedale Farm Holsteins—For sale: 4 bull calves from one to ten months old; 2 heifer calves. All bred from choice dams. Also a pair of choice cows supposed to be in calf. R. W. WALKER, Uxton P. O., Ont. Port Perry (G.T.R.) and Myrtle (C.P.R.) stations, Ontario Co.

A person suffocating or choking should hang head downward and be struck smartly on the back. If a child, hold him up by the heels and slap sharply on the back. If two persons are in the room, one should hold the child up as directed and the other should place one hand against his chest to steady it and slap the back with the other hand. The compression of the chest between the two hands will in nearly every case remove the obstruction by forcing it out by pressure of the air behind it.

QUESTIONS AND ANSWERS. Miscellaneous.

SOWING TIMOTHY IN NOVEMBER.

Would it be wise to sow timothy seed just before ground freezes in the late fall, to be a crop for 1909.

SUBSCRIBER.

Ans.—We cannot speak from experience as to this, but do not think it would prove a success. If a crop of hay is wanted the year of sowing, we should recommend millet, which, sown in May or June, on good ground, is pretty sure to yield a good crop.

PAYING RENT.

Tenant notifies landlord his rent is waiting at bank in home town near farm. Landlord, who lives in another town, writes that he will not come after it; that tenant must send it to him. Under those circumstances what is tenant obliged to do?

SUBSCRIBER.

Ans.—A safe and convenient way for both parties would be for the tenant to remit by marked check, made payable at par at the town in which the landlord resides.

CROSS-BREEDING GEESSE—EGG-LAYING.

1. Will Chinese geese breed with an Embden or Toulouse gander? I have heard that some varieties of geese will not breed with other varieties.

2. Is it true that Chinese geese lay more eggs than the larger geese do? Are they as hardy?

A YORK CO. READER.

Ans.—1. According to the authority, "Poultry Craft," they will so cross.

2. The above authority says Toulouse, old ones, will lay 30 to 36 or 40 eggs in the season, Embdens lay fewer eggs, while Chinese generally lay 40 to 50 each in a season.

REPAIRING DITCH.

Who has the right to keep in repair a ditch which starts in A's place and runs through B's and down through C's. The land is sandy loam. Now, B orders C to give him an outlet. C agrees to do so, and puts in ditch, borders it up and fetches on Engineer. So C has to take the tile up and put down according to his plans.

This ditch has 21 feet of a fall in about 50 rods. The Engineer ordered a sinkhole on the road to be filled with stone. Now, B says the tile is broken under this hole, and the ditch is all filled up, and has all to be taken up again.

W. H.

Ans.—We do not see that C should be at any expense in the matter; those who are benefited ought to bear the cost and trouble of construction and maintenance of the ditch. But the question may have been dealt with in the award made by the Engineer, and such award governs, unless successfully appealed from.

Veterinary.

FIBROUS TUMOR.

A fibrous tumor about the size of an egg has developed on the outside of one nostril. Can this be removed without leaving a blemish, or, on the other hand, if it does not develop so as to affect respirations, is it worth while to disturb it at all?

A. J. S.

Ans.—A veterinarian can remove this without leaving a blemish. The advisability of an operation depends upon your own ideas. If the tumor is not unsightly, or even if it is, and you do not care for appearances, so long as the horse's usefulness is not impaired, it will be safer and less expensive to leave it alone, as while there is little danger in removing it, there is a possibility of any operation being followed by serious results, but if you are particular about appearances, it will be necessary to operate.
