"Ohio" 1914 Model The Improved Logical Silo Filler

"Ohio" improvements for 1913 were radical—and with marvelous results. Don't close a deal for any Cutter and take chances with unknown makes until you see what the "Ohio" offers.

59 years' experience—absolutely dependable quality.

Famous Direct Drive
The machine that is driven, cuts and elevates direct from main shaft. Simple, compact—low speed fan—non-explosive—non-clogging on any cut. Cuts clean on all crops—knives can't spring.

One Lever Controls All
Entire feed reverses by wood friction at finger pressure—no strain—not a gear tooth changes mesh. All gears perfectly housed. Famous "Bull-Dog" grip well-feed. Enormous half-inch cut tonnage, 50 to 250 tons a day—6 to 15 h. p. 20-year durability. Used by Experiment Stations everywhere. Guaranteed. Many big new features this year.

Write for free "Ohio" folder today, also "Silo Filler Logic." A postal will do.
"Modern Silage Methods" a 254-page book mailed for 10c, coin or stamp.

PEERLESS FENCE HOLDS

Made of the finest materials and is well known for its strength and durability. It is the only fence that will hold a horse or cow from jumping over it. It is made of galvanized wire and is the best fence for all purposes. It is sold by all hardware stores and fence dealers.

How Good Roads will benefit You.

THEY BENEFIT THE FARMER, because they increase the value of his farm; enable him to raise more profitable crops; his cost of hauling will be low; he can reach markets when prices are best; his children can get to school every day in the year, and he will have more social life and better conditions generally.

THEY BENEFIT THE CONSUMER, because they reduce the cost of living in proportion to what the farmer saves, and by bringing new industries to the community, enable a larger proportionate amount to be paid out in wages, and with increased population, more amusements and better stores.

Public roads are commercial feeders of the city, and every improvement of these roads means a greater prosperity through increased agricultural production and greater stimulus to all industries.

Economical Good Roads

Concrete roads are best from the start and cheapest in the end. They are free from ruts, mud and dust. They give good footing to horses and easier traction to every class of vehicle, but most important is the fact that they require practically no expenditure for upkeep.

Complete information of concrete road construction is yours for the asking, without cost or obligation.

Cut Down the Cost But Don't Cheapen Your Building

Bishopric Wall Board and Sheathing will not only save you money on material but will save 75% of the labor cost in finishing walls and ceilings.

'Bishopric' gives the best results because it is made of No. 1 Pine Laths imbedded, under great pressure, in Asphalt-Mastic on a resin surfaced cardboard. This combination means strength—proof against dampness and vermin—warmth in winter—coolness in summer.

For rough cast (Stucco Work) or cement, Bishopric Stucco Board is ideal to work on and makes a moisture-proof background that is without a competitor.

If your dealer does not handle our products, we will gladly send you samples and an illustrated booklet showing houses built of our materials, together with full details as to cost delivered at your home.

PAPEC ENSILAGE CUTTER

Lightest Running Silo Filler Made

It cuts and elevates the highest quality of silage at minimum cost for time, labor and repairs. Built of iron and steel; gear-driven throughout; easily set up; fed from ground; convenient to operate; fills highest silos; almost any power will run it; costs less for upkeep, and barring accidents will last a lifetime. It throws as well as blows and the silage is elevated in a steady stream, not in bunches; it operates at slow speed and it is absolutely safe. Our catalog which explains the construction in detail is mailed free upon request.
