TIA. THE CANADA COMPANY WOULD SCO-TIA. THE CANADA COMPANY WOULD SUBMIT to the se-rious consideration of parties who may contemplate leav-ing Nova Scotia whether the Western Section of Canada (formerly the Province of Upper Canada,) does not of-fer every inducement for them to settle there, rather than that they should proceed to the United States. In Upper Canada they will find a most healthy climate, the soil very fertile, and abundance of excellent Land to be ob-tained upon easy terms from the Gonerannet and Canada Campany. The great success which has attended Settlers in Upper Canada is abundantly evidenced by the prosper-ous condition of the Farmers throughout the Country, and is also shown by the success of many Natives of New Brunswick and Nova Scotia who have settled in many Townships of the Country :- and the individual progrees made by several thousands of people who have taken Lands from the Company, corroborates the success which has attended settlement in Upper Canada. The Canada Company's Lands are offered by way of Lease for Ten Years; or for Sale Cash down. The plan of 1-5th Cash and Balance is Instainments, being done away with. The Rents, payable 1st February each Year, are about the Interest, at six per Cent., upon the Cash / Price of the Land. Upon most of the Lots, when Leased, no Money is requised down ; whilst upon the others, according to lo-cating, One, Theo, or Three Fars? Reat must be paid in ad-temer, but these payments will free the Settler from fur-ther Calls, until the Second, Third or Fourth year of his Term of Lease. TO INTENDING EMIGRANTS FROM NOVA SCO

his Lease into a Freehold, and of course, stopping payments of further Rents, before the expiration of the Term, upon paying the purchase Money specified in the Lease. The Lessee has thus guaranteed to him the entire benefit of his Improvements and increased value of the Land he co-cupies, should he wish to purchase. But he may, if he pleases, refuse to call for the Freehold; the option being completely with the Settler A Discount, after the rate of Two per Cent., will be al-lowed for anticipated payment of the purchase Money for every unexpired year of Lease, before entering the Tentu Year. The Lessee has also secured to him the benefit of the Settler's Saving's Bank Account. Frinted Papers containing full and detailed particulars, may be procured gratis from every Post Master in Nova Secota, as likewise from the Rev. E. Railway Despatch.

Extract from a communication, addressed by the Under Secretary of State to the Delegate, on the subject of the Railway :---

Downing Street, March 10, 1851.

SIR,-I am directed by Earl Grey to inform you, that he is at length enabled to communicate to you the decision of her Majesty's Government on the application for assistance towards the construction of the projected railway through Nova Scotia, contained in your letters of the 25th of November and 16th of January last.

You are already aware, from the repeated conversations which you have had with Lord Grey, of the strong sense entertained by his Lordship and colleagues, of the extreme importance, not only to the colonies directly interested, but to the empire at large, of providing for the construction of a railway by which a line of communication may be established on British territory between the Provinces of Nova Scotia, New Brunswick, and Canada, and that various plans which have been suggested for the accomplishment of this object have undergone the most altentive consideration. It appears from Sir John Harvey's Despatch of

August 20th, 1850, as well as from your letters and the verbal communications you have made in Lord Grev, that the Provincial Governmen of Nova Scotin, fully relying on the concurrence of the Legislature, is desirous of undertaking the construction of that part of the projected line which would pass through that province, and prop. secto obtain for that purpose a loan of 2500,000, which is the estimated expense of the work. The assistance which Lord Grey understands you to apply for on behalf of the Province, is, that the payment of the interest of a loan to this amount should be guaranteed by the Imperial Parliament, the effect of which would be that the money might be raised on terms much more favourable than would be otherwise required by the lenders.

commend to Parliament that the like assistance shall be rendered to these Provinces as to Nova Scotia, in obtaining loans for the construction of their respective portions of the work. It it should appear that by leaving each Province to make that part of the line passing through its own territory, the proportion of the whole cost of the work which would tall upon any one Province, would exceed its proportion of the advantage to be gained by it, then the question is to remain open for future consideration, whether some contribution should not be made by the other Provinces towards that part of the line ; but it is to be clearly understood that the whole cost of the line is to be provided for by loans raised by the Provinces in such proportions as may be agreed up-

on, with the guarantee of the Imperial Parliament The manner in which the profits to be derived

from the Railway when completed are to be divided between the Provinces will also remain for future consideration. You will observe that I have stated that the

line is to pass entirely through British territory ; but Her Majesty's Government do not require that the line shall necessarily be that recommended by Major Robinson and Captain Henderson.

If the opinion which is entertained by many persons well qualified to form a judgment, is correct, that a shorter and better line may be found through New Brunswick, it will of course be preferred, and there will be sufficient time for determining this question while the earlier part of the line is in progress. It is also to be understood that Her Majesty's Government will by no means ob ject to its forming part of the plan which may be determined upon, that it should include a provision for establishing a communication between the projected railway and the railways of the United States. Any deviation from the line re-commended by Major Robinson and CaptainHenderson, must, however, be subject to the approval of Her Majesty's Government. It will further be required that the several

Provincial Legislatures should pass laws making the loan's which they are to raise a first charge upon the Provincial Revenue, after any existing debts and payments on account of the Civil Lists settled on Her Majesty's by laws now in force and also that permanent taxes shall be imposed (or taxes to continue in force till the debt shall be extinguished) sufficient to provide for the pay ment of the interest and sinking fund of the loans proposed to be raised after discharging the above prior claims. It will further be necessary that the expenditure of the money raised under the guarantee of the Imperial Parhament shall take place under the superintendence of Commission ers appointed by Her Majesty's Government, and armed with sufficient power to secure the due apolication of the funds so raised to their intended object. The Commissioners so appointed are not however to interfere with the arrangements of the Provincial Governments, except for the above purpose.

If on the part of the Government of Nova Scotia you should express your concurrence in the above proposals, Lord Grey will immediately direct the Governor-General of the British North American Provinces to communicate with the neutenant Governors of New Brunswick and Nova Scotia, who will also be directed to bring the subject under the consideration of their respective Executive Councils, in order that if they hould be prepared to join in carrying the undertaking-into effect on the terms proposed, the details of the arrangement between the Provinces may be settled, and the sanction of the Legislature obtained for the plan, so that it may with as httle delay as possible be submitted for the approval of Parliament.

A discussion is proceeding in the House of Assembly on Mr. Henry's Motion to postpone action on the Railway for a month, when the house would be required again to meet.

I am directed to inform you that her Majesty's Government are prepared to recommend to Parhament that this guarantee should be granted, or that the money required should be advanced from the British Treasury, on the conditions which I will now proceed to state.

In the first place, as her Majesty's Government are of opinion that they would not be justified in asking Parliament to allow the credit of this country to be pledged for any object not of great importance to the British Empire as a whole (and they do not consider that the projected Railway would answer this description, unless it should establish a line of communication between the three British Provinces) it must be distinctly understood that the work is not to be commenced. nor is any part of the loan, for the interest on which the British Treasury is to be responsible, to be raised, until arrangements are made with the Provinces of Canada and New Brunswick, by which the construction of a line of railway passing wholly through British territory, from Halifax to Quebec or Montreal, shall be provided for to the salesfaction of her Majesty's Government.

In order that such arrangements may be made Her Majesty's Government, will undertake to re- | MORTON & CO., and JOHN NAYLOR

CAUTION!

From the (Boston) Chronotype.

The great popularity of Wistar's Balsam of Wild Cherry has induced some mercenary individuals in various parts of the country to compound quack nostrums for the purpose of deceiving the public and raising money on the coll-carned reputation of this truly valuable medecine. The interests of the proprietor cannot suffer, if he can but keep the public informed against the false preparations attempted to be palmed off in the name of the Wild Cherry; for certain it is that no medecine ever proved so efficacions in a long catalogue of the most common dicases which "human flesh is heir to," or preserve the health and life of so many thousands of our race as Dr. Wistar's Balsam. MR. SETH W. FOWLE, druggist, No. 138, Washington street, is the sole proprietor for the original receipt for the manufacture of the genuine medecine, and supplies both at wholesale and retail, and of whom, also, agencies, can be obtained.
