Awful Earthquake.

The following are all the particulars yet published of the terrible earthquare which nearly destroyed the city of Quito, and caused the death of several thousand persons: " On the 22nd day of March, at half past

eight in the morning, an earthquake which shook the mountain range of the Chimborazo for the space of four minutes destroyed almost entirely the city of Quito, and killed from 2000 to 5000 the city of Quito, and killed from 2000 to 5000 persons. The churches, monasteries, convents and State edifices and almost all rent to fragments. The Convent of San Augustin, the Tabernacle de la Capilla, the Temple of the Segrario, the Cathedral, the Convent of Santa Catalina, the Palacia del Obispo, the Chapel of la Merced, the Chapels of the Cathedral, of the Compania, of the Hospital, of Carnien Vajo, the cloisters of the Convent of Santa Domingo, a part of the Convictorio of San Fernando, are all partially or wholly in ruins. Also, the convents of San Diego, Santa Clara and Santa Barbara. There is scarcely a house in the city that is not badly damaged. that is not badly damaged.

College of San Luis, and the splendid mansion of Dr. Albuja, have also fallen. All the principal building of the neighboring towns of San Antonio, Cotocolla, Machachia, Chillogallo and Magdalena have deen destroyed. The loss of property is estimated at three millions of dollars; and from the recently of the property and from the poverty of the people it will be im-possible to repair and rebuild any great number of the better class of edifices destroyed. The shocks were felt simultaneously in Tacungs, Ambato and Alausi, and in Tinpullo the earth opened in various places. The earthquake was also felt at Guayaquii, but did no damage there.

The temples of San Francisco, del Sagrario and Santa Clara were of beautiful architecture: the temples and convents of Santo Domingo, la Merced and San Augustin, all had fine stone facades and towers: the temples of Santa Catalina and Conception, and the Hospital, also

Quito is said to contain about 50,000 inhabitants. It is built on an extensive plain, against the mountains of Panecillo and Pichincha, and is about 9500 feet above the level of the sea. Most of the houses are two stories, some three, and a part one story. Many are built of burnt brick, with bandsome facades, but the greatest portion

Rev. D. P. LIVERMORE, Editor of the Chicago New Covenant, says of Brown's Bronchial Troches: "We have frequently had occa sion to test the efficacy of Brown's Bronchial Troches," and have invariably found them to answer the purpose for which they are recommended. Through our influence, others have tried them, and always with the most beneficial results, and so from our own personal experience and observation, we know them to be a superior remedy for colds, coughs, and bronchial com-plaints. No family should be without them, and every public speaker will find them absolutely invaluable. The two distinguished divines of our country, Henry Ward Beecher and E. H. Chapin, bear testimony to their excellency, as our readers can see by getting a box of the 1 ins.

S. D. & H. W. SMITH. MANUFACTURERS OF ORGAN-MELODEONS.

PEDAL BASS HARMONIUMS. THE first premium over all other competitors at the Fair of the Massachusetts Charitable Mechanics' Association, of the National Fair, Washington, D. C., also at the Unio State Fair, held at Columbus, O., was awarded to the Manufacturers. By means of a new method of Voicing, known only t

are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals or banks of keys, the lowest set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by the use of the compler, two banks may be played at the same time by the use of the front set only. This connection with the Pedal Base will produce the effect of a large organ, and sufficiently heavy to fill a house that seats from 1,600 to 1,600 persons. The Organ Melodeon

Is designed for parlour and private use. The construction is similar to the Church Instrument, being arrange with two banks of keps, and when used together, by mean of the coupler, is capable of as great power as the churc instrument, when used without the Fedals.

Also, every variety of Melodeons for Parlour use.

Purchasers may rely upon instruments from our man ufactory being made in the most complete and thorough manner. Having removed to the spacious buildings 51: W ashington Street, where we have every facility for man ufacturing puoposes, and employ none but the most experienced workmen. In short, we will promise our cast tomers an instrument equal if not superior to any man ufacturer, and guarantee entire and perfect estisfaction. Music Teachers, Leaders of Choirs, and others interested in musical matters. are resuschifully invited to write our MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing to obtain it at the expense of the manufacterers, to the extent, at least of a year's rent. i
Orders from any part of the country or world, shat direct to the manufactory in Boston, with cash or satisfactory reference, will be promptly attended to, and as faithfully ference, will be promptly attended to, and as faithful couted as if the parties were present, or employed ent to select, and on as reasonable terms.
