The obligation to cease from sinning and to practice holiness is binding upon all who profess discipleship in Christ. In regard to the outward conduct, what ever may be incongruous with a state of entire sanctification is equally so with a state of justification. Hence, if the fact that many who profess to have at tained a state of entire sanctification de not act consistently, prove that there is no such a state, then it proves too much. because, according to this mode of reasoning, it also proves there is no such a state as justification. NOT A PLAY HOUSE.

A church turned into a hall, where actors, with disfigured faces and strange apparel, play for the amusement of the crowd ! Is this right ? What says every enlightened conscience? "The church in the world," says a recent writer, "is like a ship in the ocean The ship is safe in the ocean as long as the ocean is not in the ship! The church is safe in the world so long as the world is not in the church." This

is evidently sound doctrine. The church is safe so long as she remains true to her mission ; but is she safe when her doors are thrown wide open to give an entertainment which, from beginning to end, savors more of the theatre and tune of his own church, or of his own but still there rested upon those features place or institution ?
