**How Weather Changes Bring Death to Roofing**

The life of Roofing is Saturation and Coating. Yet this vital part is sorely neglected by nearly every Roofing maker. The Basis of most Roofing, except Brantford, is wood pulp, jute or cotton-cloth—all short fibred. When it passes through "Saturatory Process," it does not become actually saturated—merely coated. This "Coating" is of refuse and quickly evaporates—wears off—exposing foundation to savage weather. It absorbs water and moisture, and becomes brittle, cracks, rots and finally crumbles. Even when new it softens under heat, sagging and dripping. But the Foundation of Brantford Crystal Roofing is a heavy, evenly condensed sheet of long-fibred pure Wool, saturated with Asphalt, which is forced into every fibre—not merely dipped. It is heavily coated with time-defying, fire-resisting Rock Crystals, which require no painting. This special Coating cannot evaporate and protects insides. Brantford is indestructible, pliable, tight, water, weather, spark, acid, alkali, smoke, fire-proof.

**Brantford Roofing**

cannot absorb moisture, freeze and crack in cold weather, or become sticky and lifeless in hot weather. Brantford Crystal Roofing is not the kind all manufacturers care to make, because it costs extra money, yet it costs you no more than short-life Roofing. Roofing Book and Brantford Samples are free from dealer or us. Brantford Asphalt Roofing, Nos. 1, 2, 3. Brantford Rubber Roofing, Nos. 1, 2, 3. Brantford Crystal Roofing, one grade (heavy). Mohawk Roofing one grade only.

**SUMMER SHIPMENTS OF GRAIN**

Farmers who have still wheat or oats on hand should not delay now in getting the same shipped forward to Port William and Port Arthur in order to secure the comparatively high prices which will be going for old crop grain during July, and probably the most part of August.

Farmers can only be sure of getting all that they ought to realize out of their grain by shipping it in carlots to Port William or Port Arthur, and having it sold for them by a first class commission house, acting as their agent.

We possess unsurpassed facilities for handling wheat, oats, barley or flax for farmers who ship their grain themselves, because we are a reliable commission firm, of many years standing and experience, well known over Western Canada as working solely on commission as agents for shippers, and we are prepared to handle to the best advantage for our customers all grain entrusted to us. We make liberal advances against railroad car shipping bills immediately we receive the same, and make prompt returns after sales have been made. We always give our customers the name and address of the party or firm to whom we sell their grain.

When in Winnipeg, we will be much pleased to have farmers visit us at our office in the Grain Exchange Building.

Please write us regarding prices and market prospects, and for shipping instructions, any information or advice about selling will be promptly and cheerfully given.
