

# "VICTORY" FLOUR-- THE HIGHEST GRADE MILLED

## Our Naval Boys Entertained

At the Grenfell Hall last night a large number of our Naval Reservists were entertained with a concert which they thoroughly enjoyed. The programme was varied and very interesting and consisted of solos, duets, dances and instrumental selections. The performers were Messrs. H. Job Hayward, Bartlett, Marc Dunfield, Orr, Windler, and Mitchell, Rev. H. Uphill, Mesdames Chater and Colville, and Messrs Lloyd, Collier and Luxon of H.M.S. Calypso, D. Winter and A. Cameron.

During the interval handsome pipes, donated by the members of the Board of Trade, were presented to the men, as well as cigarettes, kindly given by the Imperial Tobacco Co.

The entertainment, which was given by the Board of Trade, was thoroughly appreciated by our gallant tars. The concert concluded with the singing of the National Anthem, after which the men were given refreshments by Mrs. W. H. Jones and several other ladies.

## Fireman B. Haggerty Ill

We regret to hear of the illness of Fireman Bart Haggerty of the Western Fire Station, possibly one of the best men in the service. Mr. Haggerty some years ago was laid off for some time with a severe attack of rheumatism and it is a recurrence of the malady which causes his present indisposition. His many friends in the city hope to see him return to active duty once more.

## No Dividends Yet

The shareholders in the Bell Island Transportation Co., to whom we alluded a couple of weeks ago, have not yet received the dividends on their stock guaranteed by the Government. As might be supposed they are intensely disgusted, as nearly 10 months have passed with no payments forthcoming. We hear that several of them who were ardent followers of the Peoples Party, so called, now recognize how false the promises of the Government are, and they have disavowed any further allegiance to the graballs, who are rapidly losing what little hold they had on the political friendship of the people of the Colony.

## Fire Alarms Last Evening

Last evening the firemen were called out twice for two fires which were however of a slight character. The first was at the residence of Mr. Thos Griffin, Plymouth Road, where some live coals from the grate in the kitchen ignited a mat.

The second was at Mr. Page's, Pen-ywell Road, the roof catching thru a defective chimney. A few pails of water extinguished both, and little if any danger was done.

## A Heavy S.E. Gale

Yesterday as the Toronto weather probe foretold, a S.E. gale occurred which was felt pretty well over the whole country. It was particularly severe on the S.W. Coast, and on the Western end of the railway line the wind reached the force of a hurricane in the afternoon but had spent itself by night. The wind was not heavy in the city but between 8 and 10 o'clock last night it rained heavily, clearing later and becoming very fine by midnight.

## After the Caribou

The migration of the caribou, South has now set in in real earnest and they have been seen crossing the railway track at Hovley and other places. Some American sportsmen who arrived not long since are beginning to stalk them, while Americans and Canadians are preparing to come here later for the hunt. Some good herds have been already secured by local sportsmen.

Mr. L. G. Chafe of Nicholle, Inkpen and Chafe, accompanied by his wife and son is at present at Camp 4 doing well with partridge. He sent to the city 40 fine birds yesterday. Another son of Mr. Chafe's who was on the barrens near Bay Bulls, returned Tuesday with 14 brace of birds.

## OUR THEATRES

**ROSSLEY'S EAST END**  
Mr. Rossley who has been in New York for some time securing feature films of the very best quality, has succeeded at very great expense, in procuring an elaborate motion picture production of Dumas' Emotional drama "Camille" in which the principal part is taken by the great and divine actress, Sarah Bernhardt. Mr. Rossley is to be congratulated on his managing to secure this wonderful film of this great play in which the "Divine Sarah," as her countrymen call her, takes the leading character. It will be a revelation to the people here to see the power of this great woman. There will be another complete change of programme during the remainder of the week. Ian Mackenzie, in addition to his "Scottish" song and story, will introduce the great patriotic song, "The Veteran's Song," and Miss Rix Guerin, the gifted soprano, and Mr. William Wallace, the wonderful violinist, will also produce new numbers. The feature films are excellent and include: "A Modest Hero," Biograph; "The Will of the People," Edison; and "Poker Paid," and "This Isn't John," Lubin.

## ROSSLEY'S WEST END

**"When We Have Wound up the Watch On the Rhine."**  
Mrs. Rossley who is taking personal charge of the musical arrangements at this theatre, has been asked to repeat the above great song success which was rendered some weeks ago with so much acceptance by her quartette of girls, and thus patrons who have not heard it will have an opportunity of hearing it. There will be the usual splendid films and popular melodies by the popular girls.

## THE NICKEL

The attendance at the Nickel theatre last evening was very large. The Million Dollar Mystery is always attractive but yesterday's episode was specially so, and the other pictures were as fine as ever shown there. The great drawing card, however, was the song of the Harmony duo, Messrs Huskins and Cairns. It was entitled "When We've wound up the Watch on the Rhine"—the latest song hit at the London Hippodrome. It is all the rage in the Old Country. It was heard for the first time in St. John's and it brought down the house. It was thunderously applauded. If you did not hear it yesterday don't miss it today. The whole programme will be repeated.

## Venus Drawing pencils are perfect.—ap12,tf

## WEDDING BELLS

**GABRIEL—PHILLIPS**  
A very pretty wedding took place at the C. E. Cathedral last evening, the ceremony being performed by the Rev. J. Briton, when Miss Mary Helen, (Nellie) daughter of Mr. Frederick Gabriel of Trinity, and daughter of the late Rev. Alfred Gaurel, was united in the holy bonds of matrimony to Mr. George Phillips. The bride, who was given away by her uncle, Mr. Herbert Gabriel, was prettily attired in Ivory Crepe Poperine with hat to match and was attended by Miss Ethel Rees and Miss Muriel Christian, who wore dresses of Old Rose, which looked very charming. The groom was ably supported by Mr. W. Duffitt. After the ceremony the party drove to the residence of the bride's uncle, Flemming Street, where a reception was held. The groom's present to the bride was a cheque, to the bridesmaids, gold brooches, and best man, gold stick pin. The bride was the recipient of many useful presents. After the reception they left for their future home, Burton's Pond.

## Damaged in Storm

Sunday last the schr. Lornia put into Placentia with her head gear damaged while she was in the mouth of Placentia Bay in the N. E. breeze of Saturday. The vessel, which was bound from St. John's to Anticosti to load fish for Halifax, is being repaired at Placentia.

Don't forget to ask your grocer about LaFrance & Satina Tablets.—ap12,tf

## Health Campaign

### Replies to Questions Respecting Foods

Some of the questions asked at this morning's session, the remainder will be answered at the Casino to-night. Do you consider it wise to scald milk? Milk should be scalded under certain conditions only. Sterilized milk means milk which has been brought to a temperature of 212 degrees F. The chemical composition of the milk has been changed, the albumin being coagulated and in many cases the lactose or sugar of milk caramelized. In sterilized milk all diseased germs are killed, but on account of the chemical composition of the milk being changed it is not as readily digested. Pasteurized milk means milk which has been brought to a temperature of 140 degrees F. Kept at that temperature for thirty minutes and then quickly cooled. In this way all animal bacteria are killed but the chemical composition of the milk is not changed. For that reason it is more readily digested and should be given to children in preference to the sterilized milk.

Certified milk means milk which has been produced from healthy cows under clean conditions and delivered to the consumer in a sanitary condition. The bacterial count in certified milk is very low as compared with the bacterial count in ordinary market milk. After the milk reaches the home of the consumer it must be kept at a low temperature in order that the bacteria will not multiply. If milk is delivered in bottles the top of the bottles should be thoroughly washed before the milk is poured from the bottle. We often find hundreds and thousands of bacteria on the top of the bottle and unless they are removed they will be washed into the glass or receptacle with the milk.

There are a few foods ways to determine the freshness of milk. There should be no blue line where the top of the milk and the glass meets. There should be no sediment in the bottom of the milk bottle. Milk should not be stringy or ropey.

Sour milk is good providing the milk is quickly soured. Milk which has been soured by the lactic acid bacteria (which are the harmless bacteria) should have a firm clabber. Milk which is soured by the harmful or putrefactive bacteria does not have a firm clabber and often possesses a bitter flavor. This sour milk should be avoided.

Buttermilk a good food? Buttermilk does not have as much food value as whole milk, on account of the fat being removed. It is readily taken care of by the body, however, and is recommended by many physicians on account of the action of the lactic acid upon the putrefactive bacteria in the intestines. What is your opinion of a Fireless Cooker? Do you consider it makes food more nutritious? The fireless cooker is one of the best labour-saving devices that has come to the housewife in recent years. It is especially good for cooking cereals, many of our vegetables which require long cooking, and tough cuts of meat which should be cooked at a low temperature in order to soften the connective tissues. Give the food value of Bananas. A banana has about the same amount of food value as a slice of butter or a potato has. All three are carbohydrates food-producing energy. Banas are often indigestible because they are eaten green, or at least underripe. When a banana is green the skin is thick and when the skin is removed there is a fuzzy substance on the outside. If this is stripped off and tasted it will be found to bite bitter. This substance on the outside of the banana acts much as tanning in tea does and the banana under such conditions is not readily digested. To be thoroughly digestible a banana should have a thin skin and freckles on it. I do not mean by this that banana should be over-ripe. It should be firm, for in a ripe banana the starch will have been converted into sugar. The small children should not be given bananas to eat unless the mother sees that they chew them very thoroughly. It is a good plan to slice the banana, serve it at the table with cream and some well-toasted bread or hard crackers. In this way the banana will be thoroughly chewed and will not cause trouble afterwards.

## LOCAL ITEMS

**Velvet pencils for commercial use.—ap12,tf**

The police were a little busy last night and again arrested four drunks. \* \* \*

**Wallace's Chocolates R most excellent.—ap12,tf**

Up to 6 p.m. yesterday, no word of the Durango leaving Liverpool had been received. \* \* \*

**Venus and Velvet pencils will give you satisfaction.—ap12,tf**

Messrs Baine, Johnston & Co., yesterday received a message from their agent, J. T. Cronche, at Battle Hr., saying that a heavy sea runs along the coast with high winds and a re-ult fishery operations are suspended. \* \* \*

**U can get Elastic Cement Roofing Paint in 1, 2, 5 and 10 gallon tins from your dealer.—ap14,ed**

We learn from the Reid Mfd. Company that to-day a hurricane from the West is blowing on the West Coast. The telegraph lines are down and considerable damage is feared. It rains hard in some places. \* \* \*

**Elastic Cement Roofing Paint will save you dollars and trouble.—ap14,ed**

## Presentation To Sgt.-Mjr. Jarvis, R.N.

Sergt. Major Jarvis, who commanded the Harbor Deep section doing duty in the North, was today presented with a safety razor as an appreciation of his interest in the Volunteers, and his still greater interest in instructing the N.C.O.'s and the men generally as to their duties in keeping an efficient and thoroughly organized camp. The presentation was made by Corp. W. G. McDonald, who expressed to Mr. Jarvis the thanks of his section for his valuable advice. The recipient replied by saying that in his experience of many years in the navy he had never met with a finer lot of chaps or none more willing to do their part than the boys of H.D. section.

**Dear Madam:**  
You know how necessary it is that your husband should leave home in good humour every morning. He has many troubles to face all day, but he can easily surmount them if his attitude towards them is right. Nothing goes well with the man who starts the day in a bad temper. You have it in your power to put him in a pleasant frame of mind. Serve him at breakfast with Arbuckle's delicious Breakfast Coffee. He will appreciate it.  
Yours faithfully,  
CLEVELAND TRADING CO.

## SHIPPING

The S.S. Coban did not get away for Louisburg last evening owing to the storm, and sailed today. \* \* \*

The schr. Kitchener arrived at Gaultois yesterday with a coal cargo from North Sydney. \* \* \*

The schooner "Dove" arrived here yesterday from Halifax bringing a cargo of gasoline for Colin Campbell. She left there Tuesday week and had a deal of head winds which was the cause of delaying her. \* \* \*

The Norwegian steamer Joseph Di Georgia, Capt. Kundson, is now on her way here from Europe to return with a fish cargo. The ship was here before some years ago and we hear will take some 20,000 qtls. of cod. \* \* \*

The Belleaventure, Capt. Taylor, arrived at Sydney yesterday from Hudson Bay and left again last night for Halifax. She will likely make another trip to Hudson Bay before coming here.

READ THE MAIL AND ADVOCATE.

## PAROCHIAL CIRCULAR

ISSUED BY THE REV. FRANK SMART, RURAL DEAN, OF TRINITY BAY.

To the Members of the Church of England in the Parish of Heart's Content.

My dear Parishioners:—As you know the great campaign for the total Prohibition of the importation, manufacture and sale of intoxicating liquor is under way, and in November the election to decide the question will be held. All of us who are voters—Clergy and People alike—are concerned in this great matter. It affects us in the house, in the Church, and in the community. We must each do one of three things:

- 1st—We must vote straight for Prohibition, or
  - 2nd—We must vote against it, or
  - 3rd—We must remain indifferent.
- What position will you take? I do not think many will cast a vote against Prohibition, but many will help defeat Prohibition and uphold the liquor interests if they remain indifferent. As your clergyman I wish to make clear my own position. I will not sit on the fence, therefore I must vote for Prohibition. Up to this time, I have always refused to agitate for, or to work on behalf of, Total Prohibition, although I have never tasted intoxicating liquor in any shape or form—a Rechebit in my birth. But now that all citizens, who are voters, have either to bring about Total Prohibition, or defeat it by abstaining from voting, I have had to make a decision, and my decision is **TO VOTE FOR TOTAL PROHIBITION.**

and to do what I can to persuade others to do the same.

### The Attitude of Some Prominent Church Laymen.

In St. John's is to my mind a wonderful exhibition of the Christ spirit. The Hons. R. Watson, John Harvey, Sir Joseph Outerbridge, Mr. John Browning say with one voice:—"We are not Total Abstinents, we like our glass of wine, or spirit, it will mean a real sacrifice on our part to give it up, yet for the sake of others we will give it up and vote for Prohibition that we may help remove the misery and the poverty that is caused by the abuse of strong drink." All honour to such men. I, as a clergyman, am proud to march shoulder to shoulder with these honourable, self-sacrificing laymen, who are willing to give up what they like, and what they can afford, for the sake of others. Many many of the Church laymen in this large and important parish follow their example, give up what they like, what is lawful, what they enjoy, what they can afford, for the sake of the weaker brother. These gentlemen are no temperance crazies, no screaming fanatics, no judges of other men in respect of what they eat or drink, but philanthropists—lovers of their brother men—who feel constrained to act as they are acting for the good of their fellow men.

I would have you all ask yourselves seriously and prayerfully, "What is the Will of God in this matter?" We all recognize that as followers of Jesus of Nazareth our duty is not to do our own will, but to do the Will of God. Read and meditate upon St. Matthew, Chap 18 verse 14: "Even so, it is not the Will of your Father which is Heaven that one of these little ones should perish." Think God there is not much drunkenness in our outputs, very little excessive drinking. There is some, and if there were only one case, it would be one too many, and "it is not the Will of your Father, . . . that one should perish." It would be our duty to try and save that one.

I must not write at much greater length. I have had to face an issue, and make a decision. You must do the same. In making your decision do not put your own liking first, do not say "I can take a glass and it does me no harm," but think of the little soul whom God had given you, of the big boy of whom you are so proud, and remember that what does you no harm may destroy your boy in body and soul. I have known boys who have left sheltered, proud homes, the hope and joy of proud parents, who have become "sots in the gutter" in Boston and Pittsburg.

Face the issue as the Hon. Robert Watson has done, ask yourself as he has done in Scripture language, "Am

## PERSONAL

Dr. V. P. Burke left here by the express Tuesday, for the West Coast, to inspect the R. C. Schools there. \* \* \*

Sir Robert Bond arrived here yesterday on a visit to friends in the city. \* \* \*

Capt. Thos Fitzpatrick, subcollector at Placentia arrived here by last night's train on a business visit. \* \* \*

Hon. J. Harvey and Mr. S. Foote who were out partridge shooting, returned last night. They found birds very scarce. \* \* \*

His Grace Archbishop Roche and Rev. J. McDermott, Admr., went to Petty Hr. and the Goulds this morning on an episcopal visit to these settlements. \* \* \*

Const John Power who for some months past has been on duty at the post office, has been confined to his home for some time past, and his place is being filled by Const. R. O'Keefe. \* \* \*

Mr. Peter Power of Dunville who has been in the city the past few days on a short business visit, returned home by train this morning. Mr. Power was accompanied by his daughter. \* \* \*

Mr. H. W. LeMessurier had a message last evening saying that the following schooners had arrived at Trinity from Labrador:—The R. B. Fowlow with 80 qtls; Dolphin, 60; Norman, 250; Melba 300; Edith May, 300; Sarah M., 300; Minnie May, 300; Orange Blossom 300. \* \* \*

Mr. W. B. Grieve had a telegram from Labrador at 12.45 p.m. to-day which said that there was plenty of fish on the coast but no bait. The weather continues very good. The Sagona is at Battle Hr. with a full cargo on board.

**Everybody's doin' it now. What? Selling Elastic Cement Paint. Your dealer sells it in 1, 2, 5 and 10 gallon tins, also in barrels.—ap14,ed**

Mr. Wm. Pridoux, the Supt. of the Poor Asylum has been very ill for the past week or more and his condition is giving serious concern to his friends.

I my brother's keeper? May each one be guided to make a right decision, and determine to vote for Total Prohibition of the liquor traffic in our beloved Newfoundland.

Your pastor and friend,  
FRANK SMART,  
The Rectory, Heart's Content.

## Let's Talk "Injun"

Do you want an engine? Yes! Well start in time, make some inquiries, get some information, size up the different makes, get the right one and don't repent at leisure. A poor engine costs more than a good one, that's an established fact. Mark that down and don't wait for the loss of hard-earned dollars to teach it to you. I have no interest in engines except an intense desire to get the right one. I don't ask you to believe this. I am going to prove it. I will give \$20.00 to any man who can install the engines in most cases, and make my decision, backed up by me orders for boats they ask me all kinds of questions about engines. That is one reason why I have found it necessary to know all about engines; another reason that I ought to install the engines in most cases, and another is that I want purchasers of my boats to have engines that will do them justice and give them all the speed and utility they are capable of. I will give \$20.00 to any man who can make me more than one under obligation to any one firm more than another, therefore I have consulted not the manufacturers or importers but the engines, ransacked the hatch and made my decision, backed up by stories of scores of those who have used the respective makes and depend their lives and property on them. Boats and engines will go together more and more from year to year. It would be impossible to send 100 engines to 100 inexperienced men and have not a hitch. Some men can't wind the clock without making it strike wrong. You are not asking impossibilities. What you want and what I want is the best available engine at a usual price; an engine that will go when it ought to. I have studied them in the repair shop. You can't do this, you have other demands on your time. Write me, especially if you want a boat, write whether you do or not. If you want a boat and engine concentrate your order; have me build the boat, supply the engine, and install it. This is the way to get the right outfit and save cost of installation on the first outfit. If you are considering anything in this line, write me: P. J. TREMBLETT, Designer and builder, Salmonier, St. Mary's Bay. adv23

Ask your dealer for Wallace's Souvenir box chocolates. Three pictures of 1st Nfld. Contingent on cover—quality "Most excellent." ap12,tf

Capt. White, formerly commander of the "Tobiac" and now mate of the Helen Steward will be married on Saturday next. The bride to be is a charming young lady of Channell. Both are receiving the hearty congratulations of their friends.
