the purchases. During the present year the Im-perial Munitions Board has received from the Dominion Government ad-vances amounting to \$25,000,000 a month. Through an advance of \$10,-000,000 made by the Government the Board was able to give orders for the building of 44 wooden ships, Another advance of \$1,000,000 en-abled the Board to begin the mann. the purchases. In Albania also Italian troops are

pushing well ahead. They have entered the city of El Bassan, after crushing stubborn Austro-Hungarian resistance.

CANADA'S NEED OF MONEY A second Victory Loan is now ab abled the Board to begin the manusolutely necessary, even if peace should come at once. The placing of \$500,000,000 at the disposal of the Dominion Government through the sale of Victory bonds is needed, if for no other reason than to meet the already heavy demands of the war, and to make provision for the financing of the sale of our exportable surplus of agricultural, and manufactured, products to Great Britain.

Canada can best be realized by a

knowledge of what the 1917 Loan WHO WOULDN'T WANT made possible. The subscribing of HIS "GOVERNMENT JOB?"

made possible. The subscribing of over \$400,000,000 by the people of Canada last year enabled the Domin-ion Government not only to take care of the needs of the army, but also to make substantial advances to var-ious industries, which has resulted in unprecedented prosperity. Since the beginning of the present year Canada's war expenditure has been avaraging over \$30,000,000 a month. It has grown heavier as the army overseas has increased in numbers, and especially since the de-ginning of the greest Allied offensive in August. To date about 590,000 for \$12 monthly.

war expenditure will probably be from \$50,000,000 to \$75,000,000 larger than in 1917. The Imperial which there were numerous

MANY people have thought that the United States loans to Belgium have financed all the Relief Work necessary. As a matter of fact the loans provide the minimum ration to sustain life in a grown person. The bowl of soup and two pieces of bread are totally inadequate to build bone and muscle for a growing child. The results are ghastly !
