INVEST BEFORE IT IS TOO LATE

Lone Star Stock Is the Best Investment Ever Offered to the Public.

We claim we have the mother lode. Can you deny these facts. The mines. are situated at the head of the two richest creeks on earth-Eldorado and Bonanza. Gold is found on everyclaim on Bonanza creek, and up Victoria Gulch to the quartz mines. If it did not come from this ledge, where did it come from?

The gold found in the creek is the same as that found in the ledge.

The gold is found in slide matter on Seven pup. Where did it come from ?

The best pay found in Gay Gulch is at the head of the gulch, below the quartz mines. There are eight gulches heading at the Lone Star mines. They all carry gold. Where did it come from ?

Lone Star stock is the best invest-

ment ever offered to the public. Buy now. The books will soon be closed and you will be too late. Don't let the man who knows it all tell you that there is no quarts in this country. The fools who make that statement have no bank account, which is the proof of their wisdom.

Every placer camp in the world turned into a quartz camp.

Cripple Creek was a placer camp. The men who knew it all were there. They made the same statement. A carpenter found the quartz after the wise men had left.

Have you ever visited the Lone Star mines? If not, you have no right to even think. Go up and satisly yourself. Yours for business and LEW CRADEN. a quartz camp,

LONE STAR MINING AND MILLING CO.

LEW CRADEN, Acting Manager.
