NOTICE

It is now three years since I introduced Cement Brick into the county, during which time I have endeavored to supply the public with a uniform good article, and am glad to state that this result is attested to by the mass of my customers and friends. My success in Concrete products have not been attained without strenuous effort, but it is satisfactory (I hope mutual) to know that the result registers progress and finds me better equipped now to meet your requirements. I am now making Cement Brick in Kentville from my sand and gravel pit on the Meadow Road, where with more machinery and the finest material in practically unlimited quantity, machine mixed, can promise you products of unvarying high quality. I thank you for your custom and hope to be of further service to you

MIDLAND EXPRESS CAME NEAR BEING WRECKED

The Midland Express one morning last week came near being wrecked between Wentworth and the St. Croix bridge. At a point where the engine crew could see the track but a short distance ahead owing to a curve a heavy boulder had dislodged itself from the embankment and rolled to the track. It was of sufficient size to wreck any train. Engineer Young brought the train to a stop only a short distance from the rock which was estimated to weigh 3 or 4 tons. The express was held up for an hour.—Hants Journal.
