ORTHIXON.
 MONDAY, Jan. 21.—Mr. Richard Ross is busy these days talking up the proposed company to develop the mineral wealth said to abound in the vicinity of Hudson's Bay and Fortifon. The Ex-President of the Bell firm has been resting at the hotel after his arduous work of the past summer, and has grown quite complacent. His muscles were beginning to contract a little from non-exercition and he strove down a few days ago to "jig" stretch his legs a little. While there he heard the name of his revered and honored chief-in-trade in a manner that caused his loyal blood to boil and he consulted the tradesman "two just hold on a bit or he would knock him."

The insult was repeated and Billy struck out from the shoulder. There was no return blow as the excited client (who pines himself on never striking twice in the same spot or following up an undue advantage), reserved his muscle for a future occasion, if required. "It is said that there is a prospect of law over the encounter.

Three of our most prominent young men started out from Fortifon the other evening to attend the legation main show at Addison. Long from Hudson's Bay, Slick Jack who revels in Glossiville clover, and hungry Pete composed the cutter load. They drove out from under the Fortifon shed and wondered what made the home have to labor so hard to draw the load. When about half way between the two haunts the horse gave out and stopped. The trio got out to re-ascend and they saw that the cutter remained imbedded in a snow and that the appearance of the track behind them resembled the track cleared for training "ladirect." A party held it suggested that they lift the cutter when it and beheld they found one of "Genial John's" log trunks firmly wedged in between the runners of the cutter, which required it to be unfastened by releasing the cutter. They attribute their mishap to the spell thrown over them by the Prof. the evening before.

Added to the usual Christmas decorations, an arch of evergreens, studded with silver leaves, gave the dainty little church an appearance of untold beauty. The bride was beautifully and becomingly attired in seal brown, as was also her bride-smaid, Miss Maria Godkin. Mr. Charlie Murphy, brother-in-law of the bride, acted as best man. The ceremony of the wedding party drove to Brockville by way of Athens, at which place they were joined by Mr. A. E. Moulton and Miss Annie Earl who were also made one of that party at the fire in the Central Hotel, Brockville, they departed for Montreal and other eastern cities. On their return a reception will be given by the first named couple at their home in the village near his father's residence. Monday we had the regulation January thaw. It was a welcome break in the rigor of winter and brought a plentiful supply of soft water, a famine in which was impending.

A Bias Averted.
 About three o'clock on Sunday last an alarm fire was sounded on the fire alarm at the engine house which quickly brought a majority of the citizens to the streets. The fire soon located in the vacant Halladay house, belonging to H. H. Arnold, on Reid street. It appears that Mr. Arnold had built up a fire in the furnace at about 11 a.m. to dry out the house for a party who was to move on Monday. Mr. Arnold's daughter happened to look over towards the vacant house and saw smoke issuing from the chamber window, and immediately called attention to it. When Mr. Arnold reached the house he found the rooms full of smoke, and being unable to locate the blaze, at once gave the alarm. The fire engine and hose reel were on the ground in a few minutes, but it was not found necessary to put on a stream, as a chemical engine in the hands of B. Laverin and a few pals of water soon got the fire under control. The damage consists of a slight injury to the furnace pipes, and the castings and baseboards in one room were torn off.

Mr. and Mrs. Godkin joined in matrimony at 12 o'clock on Monday. The happy quartette house at Brockville and took the afternoon train for Montreal and other points east, carrying with them the best wishes of a host of friends who were present by whom they are well known and highly esteemed.

ATHENS WIFE AT WORK.
 On Wednesday evening Athens and Delta hockey teams met on the rink here for the first match of the season. The rink is not yet as smooth as it will be, but as the local boys had a few hours of play, the game was not so easy on the teams. Shortly after 8 p.m. the score lined up as follows:

Athens—Dr. C. Giles (Capt.), J. A. J. McKelvey, M. Dwyer, G. Merrick, J. Bellamy, F. Wing, Delta.—Dr. Creggan (Capt.), VanLosa, Sawyer, Horton, Thomas, Edger, Coppelan.

Like all hockey matches, this game from start to finish was a grand combination of hustling, rushing, sliding, checking, counter-checking, tripping and falling, with an occasional score of "out" to relieve the score, which was never anything else but Athens' game. They outplayed their opponents at every point and at the end of the time the score stood 4 to 1 in favor of the local team.

Many of the spectators saw hockey played for the first time on Wednesday evening. It is a boisterous game—the Rugby of the rink—and is played with great strength and endurance counts quite as much as skill, speed and quickness. An utter disregard of personal safety seems to animate the players and thapsit of the "goalkeeping" is a "rule" rather than a "rule." It is flavored some to add to the pleasure of the spectators. Hockey, though not enjoyed by many "spoons," grandly reverses the rule and reverses the rule on its way to popular favor and now rules the rink of the continent.

The Athens club contains abundance of good material for a strong and victorious hockey team. They will be able to give a good account of themselves in any contest. Of course, the "Athensian" athletes' Waterloo sounded from the bell in their vicinity.

ATHENS LOCKY CLUB.
 Athens locky club has been challenged to play a Brockville team. The date has not yet been definitely fixed.

Divine service will be held in the basement of Christ church on Sunday evening next at 7 o'clock, and will further notice all services will be held there at the hands of the Rev. Mr. G. H. Hinton, of Ottawa.

Mr. Geo. Chapman of the North Augusta citizen, visited Athens yesterday and purchased from The Reporter a first-class plush paper outfit, and many other ornamental articles, such as are found in the "Bad Boy's diary." The magistrates explained clearly that the outfit was of a fine nature and that they were made of a fine of \$50 and 5 months' mail. On account of its being the first outfit, the J. P. dealt leniently with them, fining them \$2 and costs, making \$4.15. The boys paid their fine and proceeded to the hotel, apparently not a whit abashed by their miserable reputation.

An Indian has been known to carry a letter from Guazapares to Chihuahua and back again in five days, the distance being nearly 300 miles. In some parts where the Tarahumans serve the Mexicans they are used to run in the wild horses, driving them into corrals; they may take two or three days to do the trip. They bring in the horse thoroughly exhausted, while they themselves are still fresh. They will outrun any horse if you give them time enough. They will pursue deer in the snow, or with dogs, in the rain, for days and days, until at last the animal is cornered and shot with arrows, or falls an easy prey from sheer exhaustion, its hoofs dropping off.—Scribner's.

THE ADDRESS SEEMED INCONGRUOUS.
 Shooting and Fishing lately took the following story:

"One of the fishermen, when he left home for the Lower Delta, he would stop by way of Lower Delta; he would stop by way of Lower Delta, or go to Upper Delta. His daughter wished to write to him, but not knowing where the letter would find him, addressed this note:

"Somebody in the Dam Region, Bangalay, Maine."
 And he received the letter.

TERRIBLE STEAMBOAT DISASTER.
 The State of Missouri, Washed-East Passengers drowned.

CINCINNATI, Jan. 21.—The Tribune's correspondent at Harroville, Ky., writes the following:

The great Cincinnati and New Orleans steamer State of Missouri, on her way from the Ohio to Wolf Creek, Ky., 25 miles west of this city, at 6 o'clock Monday night and 6 people met death. The postoffice at Wolf Creek, Ky., is 25 miles from Harroville and was the great difficulty that the following facts were obtained:

At 6 o'clock yesterday morning the rear end of the hull of the steamer was caught at Troy, Ind., seven miles below here and 25 drowned men were found scattered along the shore. As Crookston, two miles below here, half of the cabin, the stern register, the entire stern section and the safe containing a large sum of money were caught. A state room was caught in this city containing a dead man who was not identified.

C. C. Whitehead, one of the passengers who escaped in an oil fatboat pilot, who boarded the ill-fated Missouri at Cincinnati, said that the pilot was about half an hour late in turning the boat. When the shock came a heavy negro jumped aboard and, in the confusion, the boat parted the line and she swung into the river. I saw the boat sinking, and I helped lower the boats and helped all the lady passengers, 35 in number, into one of the boats. In less than four minutes the boat had gone down over her upper decks and began overturning in the darkness. A negro who was frightened and frightened and had a terrible struggle in the water but finally fought his way out and saw him go to the bottom.

Clark Howard, of Paducah, Ky., was arrested. Captain Coppier was arrested for not attempting to save the boat. Pall the men were the pilots and both were saved. The young man was at the wheel and it was said that his carouseness caused the disaster. One of the engineers was saved. The mate by fighting drowning people, while the doctor, who was in the boat and when he was found he was deep in the water. The boat sank in 20 minutes in sinking. The boat was sinking 15 miles an hour.

DEATH IN A FIRE.
 An Ottawa Woman Suffocated to Her Death.

OTTAWA, Jan. 20.—The woman of Joseph Geroch, Rochester, St., was gutted by fire yesterday, and Mrs. Geroch was taken to her death suffocated from smoke. Mrs. Geroch was found near the door, a chair stood right beside her, but she apparently had not been sitting on it at her side. From her position it looked as though she had been the act of getting on her shoes when a death came. As soon as discovered, Mrs. Geroch was carried out of the burning building by the firemen. Though her body was still limp, she was dead. Her face and a part of one side of her body were turned out by the flames, and her hair was signed on one side, but the injuries were not of a nature to cause immediate death. The husband, it is said by neighbors, has not lived at home for five or six days. Mrs. Geroch was 35, it is said, inclined to indulge rather too much in strong drink. She was 32 years of age.

NEBRASKA'S GREAT DISTRESS.
 In one county a fifth of the people are unemployed, and as destitute as a whole.

GREELY CENTER, Neb., Jan. 21.—The distress in this part of the state is appalling. No picture of the suffering has been overdrawn and a great many sad cases have been suppressed. Hundreds of families have nothing to eat and no fuel and children are so nearly naked that they are kept from school. At least one fifth of the people of this county have become country paupers. It is impossible for the people to care for the destitute. Unless a large amount of outside assistance is received at once many farmers and their families will perish. The people are most in need of help.

Some of the best farmers, whose lands are unimproved, are as destitute as the poor kind of securities. A great many of the best population left the state last fall, and all who are here are actual residents, most of them owning their homes.

Controller Wallace's Had Trouble.

BRAHMPOT, Oct. 21.—Yesterday as Mr. Charles Wallace was returning from Ottawa to his home in Woodbridge, driving from Toronto Junction with his son and daughter, the horse became frightened at a house which was being moved at the top of the Black Creek hill, near Weston and ran down the hill at a terrific speed. They controlled the horse for a time but finally ran against the bank. The sleigh overturned, throwing both occupants out with great force and bruising the controller considerably on the side and face, but Tom was only slightly injured.

A St. Paul, Minn. Woman Suffocated.

NIGHTMARE, N. Y., Jan. 21.—Mrs. E. C. Woolson committed suicide by cutting her throat with a razor. Mrs. Woolson was the mother of Dr. Wm. Woolson who was for a number of years a telegraph operator in Buffalo and who took his life last year by cutting his throat about two years ago while home on a visit.

Dr. Baxter in Haldimand.

CATYU, Jan. 21.—A large meeting of the Reformers of Haldimand held Saturday, Dr. Baxter was the only name presented to the meeting as a candidate to represent the reform in the bye-election for the local house, rendered necessary by the retirement of Mr. Scott. The doctor's nomination was thus unanimous.
