SECRETARY GLEASON

Of The Woman's Catholic Order of Forresters, Chicago,

St. Francis Xavier Court No. 174, Endorses Lydia E. Pinkham's Vegetable Compound.

Some women are tireless in their home work, others in their work in the church or their favorite society or club; they laugh and sing and are happy. But think of the poor one who is left at home, utterly unable to make any effort whatever, broken hearted and despondent.

The horror of female complaints is upon her; she is oppressed by that distressing bearing-down feeling, backache, her nerves are all gone, don't care to move and wants only to be left alone.

O, dear sister, don't you know by this time that Lydia E. Pinkham's Vegetable Compound will surely reach the cause of all this trouble and make you well and strong! It certainly will cure you as certainly as the sun Read what Mrs, Gleason says:

MRS. M. GLEASON, Chicago, Ill.

"I want every woman to know that Lydia E. Pinkam's Vegetable Compound has been of untold value to a large number of women of our order. I know positively that it has cured many of the most distressing diseases of the pelvic organs, falling of the womb, ovarian troubles, and painful menstruation. There is no question in the world but that it is superior to any medicine for women. I have used it myself and know whereof I speak. — Yours truly, Mrs. M. Gleason, 554 West Taylor St., Chicago.

Two More Sufferers Cured.

"DEAR MRS. PINEHAM: - I was | ick with female weakness. I took all kinds of medicines, you might ay, and was operated on by doctors, but they did me no good. After taking five bottles of Lydia E. Pinkham's Vegetable Compound I found willing and am now enjoying. found relief and am now enjoying good health. Since taking your medcine I have become the mother of a little boy. I will praise your medi-SARAB E. REEDER, Amsden, Ohio. (Dec. 27,

"DEAR MRS. PINKHAM : - I suffered daily from backache and stom-ach ache. Menstruation was suppressed for six months, and then appeared again, but very painful and irregular. Instead of consulting a doctor I thought I would try Lydia E. Pinkham's Vegetable Compound. I now feel as well and strong as ever I did, and since taking it I have given birth to a little boy, will advise all sick women to use it.' -MRS. IDA PETTERSON, Box 93, Amasa, Mich. (March 1, 1901.)

Mountains of gold could not purchase such testimony as we are constantly publishing; only the unquestionable merit of Mrs. Pinkham's great medicine can accomplish so much. Write to Mrs. Pinkham, at Lynn, Mass. if you are Ill. The efficiency of her advice is proven by thousands of letters from wo-men who have been cured of female troubles by her guidance and medicine.

\$5000 REWARD. — We have deposited with the National City Bank of Lyan, \$600 which will be paid to any person who can find that the above testimonial letter are not genuine, or were published before obtaining the writer's special per mission.

Unnecessary to Suffer from Asthma This distressing complaint can be perfectly cured by inhaling Catarrhoone a vegetable antiseptic that stroys the germs which cause the dis-ease. Catarrhozone is inhaled at the mouth from a convenient pocket inaler, and after permeating the minutest air cells, is exhaled slowly through the nostrils. It stops the cough, makes breathing regular, and erradicates the Asthma so thoroughly from the system that it never returns, Don't suffer from Asthma, use Catarrhozone, it will speedily cure you. SUPERSTITIONS AT SEA.

Quaint Notions Still Prevail Among It is a mistake, according to a well nown young navat officer, to suppose that the sailors of one present navy are free from super. In. "I remember," he said, "only five years ago when I was in the training ship that the old salts there were as full of old supertitious beliefs as any of their ance ould have been.

"When at sea in a dead calm, the swaying of the masts in the motionless atmosphere sometimes causes a peculiar wailing sound like distant cries. This, the old seamen assured us, was the moaning of the souls of sailors lost

"Another one of their pet beliefs is that all sailors that die by drowning are at once transformed into Cape Horn pigeons, or, as they are also called, Mother Carey's chickens. Officers are supposed to find their reincarnations in sea gulls and mews, while the big. solitary albatrosses, following the wake of passing vessels, are the souls of captains who have gone down with their ships. These are the reasons why sailors never kill these birds.

"I remember that these tales impressed me a great deal in those days when I was still a mere boy. On one occasion I was sitting in the forecastle on my watch below, chatting with the boatswain's mate, a real old timer, when our conversation was interrupted by a low wail of agony, louder than that usually produced by the wind. We listened in a deep, awed stlence.

" 'Boy,' said the boatswain's mate, 'ye hear that? That's a seaman's call wot's

"Again the wall disturbed the silence. "'Yes,' said the old sailor in an anxious whisper; 'that's some old salt wot's lost his life on board this vessel. Likely he's come for something he's

"After awhile I ventured out on deck. The wails were coming from the roof of the forecastle. I climbed up and there found the captain's little son tugging away at the cat's tail, which the poor animal was resenting with the full power of its lungs."

GENIUS AT WORK.

Sarti, the musician, composed only in

Bossuet worked in a cold room, with his head warmly enveloped. It is said that Schiller, before com

Guido Reni painted with much pomp. He dressed himself magnificently and had his pupils attend him in silence ranged around him.

The historian Mezeray would work only with a candle, even at midday and in midsummer. He never failed to wait on his visitors, even to the street, with

Jeremy Bentham jotted his ideas on upon each other, and this pile of little ers stitched together was the first forms of his manuscripts.

Michael Angelo, Leonardo da Vinci Titian, Rubens, passed from the chisel to the pen or the brush. The change rested them from the preceding work and thus during long life they accomplished marvelous works.

Former Perfumes.

Our forefathers were great people for scents and perfumes, fragrant herbs and spices, and the astonishing amount of seasoning they put with the simplest dishes prepares one for almost any combination. When to make a cherry tart they found it necessary to make a sirup of cinnamon, ginger and "sawnders" and to add rosewater to the icing, one can imagine how they set to work to cook a cormorant. Perhaps if we remind our readers that many chambers were provided with "drafts' which occasionally required cleaning and that rushes took the place of carpets they will realize one of the reasons for the use of perfumes. "Sweet waters" were occasionally sprinkled under the rushes in great houses or for revels or on the mattresses and bed

Playing Wagner Upside Down. A London paper tells a story of Wagner in the days of his youth and poverty calling upon Rossini in Paris and noticing "a little composition" of his own on the piano rack. The reply of Rossini when it was pointed out to him that the music was upside down was perhaps hardly up to the best form of "the polite Frenchman." "You see, I found it sounded better that way." Elli Nye's compliment to Wagner was in a happier vein. He told the great composer that he had no doubt his music was really much better than it sounded .- London Speaker.

It is well known that terrible rheumatism and sciatica cause more help-lessness, acute suffering -and agony than any of the diseases that afflict humanity. The great medicinal vir-tues of Paine's Celery Compound make t the only trustworthy specific for he cure of all forms of rheumatism. Thousands of strong testimonial letters from the most prominent people prove that Paine's Celery Compound has completely banished rheumatism, when all other treatment has failed. Mr. George March, Victoria Avenue,

North, Hamilton, Ont., says—
"Having experienced all the pains and agonies of that awful disease, rheumatism, for the past ten years, and having met so many disappointlittle squares of paper, which he piled kinds, I consider it a duty to let suffering men and women know what Paine's Celery Compound did for when my very life was in peril. "I was strongly recommended

give Paine's Celery Compound a fair trial for my troubles. I bought it and used it, and the results were simply marvellous.

'I was so encouraged and overjoyed that I had at last found the medicine that could cure even such a long standing case as mine. I continued the use of the Compound, and now find myself a new man in every respect. Paine's Celery Compound also banishes pains and troubles that I experienced in the region of my kidneys. I consider Paine's Celery Compound my health-giver, and life-preserver."

The popular view of the relation of the blood to human character and conduct is marked in many a familiar ex-pression. We speak of there being "bad blood" between people at enmity, of "blue blood" as indicating ancestry, "black blood" as describing treacherous nature, and in many another phrase mark our belief that in the mental moral and physical man, "the blood is the life." The one basis of a healthful, happy and useful life is pure blood. With the blood pure, disease has no permanent lodging place in the system. For this reason the use of Dr. Pierce's Golden Medical Discovery rids the body of diseases which have their origin in impurity of the blood. It absolutely purifies the blood, carrying off the waste and poisonous matter, increasing the action of the blood making glands, and building up the body by supplying the blood in quantity and quality such as is essential to a condition of health. It cures ninety-eight people out of every hundred who give it a fair trial.

HAVE WOMEN INTUITION? one Writer Says They Have Never

Literature is the final expression of human thought. If women can lay claim to a special faculty of intuition why do they not manifest it in their writings? Intuition, if it means any-thing, means- the faculty that gets down to the germ of actions and characteristics and focuses external traits into a central verity recognizable to the general public. Now, there are more female writers than male. No woman poet has ever written an in-evitable line, a line that flashes spontaneously out of the unknown and casts an illuminating light upon the abyss. Woman has added practically nothing to our stock of familiar quotations. Take down your Bartlett or your anthology, and you may be surprised to find that from Mrs. Browning to Mrs. Meynell women have never coined a plirase which has passed into the com-

mon currency of speech. Mrs. Browning has indeed written fine lines, but nothing of hers can be said to have become a household word. Nor has any woman novelist created any character that is generally recognized as typical. George Eliot has come closest with her Tito Melema and Mrs. Poyser. You would appeal only to the educated few if you described a person as a Tito or a Poyser. But call a man a Don Quixote, a Micawber, a Dogberry, a Falstaff, a Colonel Newcome, a Bilfil, a Parson Adams or Bob Acres, call a woman a Mrs. Malaprop, a Becky Sharp, a Beatrice, a Diana Vernon, a Meg Merrilles, and even the illiterate will mentally classify the individual as you wish him or her to be classified.

"Ah, but," you say, "in real life women are the true intuitions. They size up a man or a woman at a glance. They are never mistaken when they trust to their instincts."

I can only testify to my own experience. I have not found that women's snap judgments of character are imbued with any special verity. They form likes or dislikes quicker than a man does because they are quicker on the trigger of conjecture. They can only be one of two things, right or wrong. If time proves that they are right, as they must be in 50 per cent of cases, the right guess is remembered and treasured up by the slower minded man as an extraordinary instance of intuition. The wrong guess is forgot-ten.-William S. Walsh in Era.

To Save Tempers and Collars. "You button your collar the wrong way," said the salesman as he was selling neckwear to a customer.

Now, when you go to take it off you will have to tug at the end of the collar and crumple it, because you can't get a proper hold of it, but if you had the left end on top you could get it off easily, then loosen the collar behind, and the right end could be easily detached. That's why men have so much trouble taking off well laundered collars. Remember to fasten the right side first and then the left, and you will save your

Astronomical Solutions, Though 300 years have elapsed since the death of Tycho Brahe, it appears that we are in many lines almost as far from the ultimate goal as when he began the great work of exploring the skies before the days of Kepler, when all Europe was slumbering in intellectual darkness. The science of the stars indeed has been refined and perfected in an unparalleled degree and infinitely

extended in all directions, but with the bounds of darkness pushed back step by step the goal is not and never will be in sight. An infinity of objects and causes and an endless variety of phe nomena are yet to be explored, and the work of the mind is rather a process of development to the perfect under standing of the universe than the solu-

Mrs. J. M. Timbers, of Hawkesbury, Tells How She Obtained Relief After Doctors Had Failed.

From the Post, Hawkesbury, Ont. Mrs. James M. Timbers is well known to nearly everybody in Hawk-esbury, Vankleek Hill and surround ign country. She was born in Van-kleek Hill, but since her marriage, twelve years ago, has lived in Hawkesbury, and is greatly esteemed by all who know her. Mrs. Timbers is one of the many thousands who have proved the very great value of Dr. Williams' Pink Pills, and gives her experience for the benefit of other sufferers. She says:-"While nursing my first child I suffered from a nursfirst symptom was a sharp pain followed by a growth, which gradually increased in size until it became as large as an egg. It was exceedingly painful and caused me great suffering. I consulted a doctor, who gave me medicine, but it did me no good. Then I consulted another doctor, who said I would have to undergo an operation. In the meantime, however, the tumor broke, but would not heal, and, as a result, I was feeling very much run down. At this time my attention was directed to Dr. Williams' Pink Pills, and I began using these. I soon felt that they were giving me increased strength, and after using a few boxes, the tumor disappeared, and I was as well as ever I had been. My health has since been good, and I cannot speak too highly of Dr. Williams' Pink

Captain Lacey, an Earnest Worker in Hamilton, Ont., Endured Awful Pain-His Patience is Rewarded at

The life of an officer in the Salvaion Army is never a bed of roses. No man or woman has a place in his wonderful organization who is not prepared for hard work. There is no room in the Army for those who are afraid of hunger, ex-

It is quite natural then, that many of these devoted men and women find themselves very much run down, and the victims of many forms of disease Captain Lacey of Hamilton, than whom there is no more self-sacrific ing officer in the service of the Salvation Army in Canada, was tortured for eight long years with Dyspepsia. He exercised the greatest care possible in his diet and did everything

in his power to correct the trouble. but to no purpose.

He used many medicines and treatments, some of which gave him s little temporary relief, but none gave him a permanent cure.

At last, by the advice of friends, he

began a treatment of Dodd's Dys-pepsia Tablets, and the results in his case were simply marvelous. The first dose gave him positive and instant relief, and before the first box was completely used he was almost entirely cured.

He can now eat anything he cares to without the slightest uni consequences, and his general health is very much improved.

It is not often that such
