THINK OF IT NOW!

Although much I aid about the impor-tance of a blood-purifying medicine, it may be possible that the subject has never seriously claimed your attention. Think of it now! Almost every person has some form of serof-ilous poison latent in lis veins. When this develops in Serofulous Sores, Ulcers, or Eruptions, or in the form of Rheumatism, or Organic Diseases, the suffering that en-sues is terrible. Hence the gratitude of those who discover, as thousands yearly do, that

Ayer's Sarsaparilla will thoroto eridicate this evil from the

FARM AND HOUSEHOLD.

-A horse-shoe has been invent shoe. A rim at the bottom and a buckle at the back hold it in place

-It has been discovered that arti ficially hatched chickens can never become motherly hens. Not one of them can lay eggs, and they are only fit for eating.

-The idea that horns on cattle are a useless encumbrance and should be bred away, seems actually to be gaining ground. Why should cows have horns any more than a horse?

-The sparrow has not only lost caste abroad, but he is losing it at The country papers of England are filled with discussions by farmers as to the best methods for his extermination.

Best Durham Heifer Calf, R A Smith.

England is estimated to have strom contagious lung plague, etween 1842 and 1860, 5,648,780 ead of cattle, valued at \$400,000,000.

During the following nine cars the loss is estimated at 1,000,000.

-Dr. Hoskins, in the Vermont —Dr. Hoskins, in the Vermont Watchman gives a young farmer this very sensible advice. He says it is much better, as a rule to buy hay than manure; that when hay can be bought at \$6 or \$7 a ton, it is much cheaper than manure at a dollar per load; that a ton of hay properly fed to the cows of a butter dairy, if the manure—the whole of dairy, if the manure—the whole of the liquid and solid—is saved and returned to the field, ought to raise another ton. There is no doubt that the liquid and solid—is saved and returned to the field, ought to raise another ton. There is no doubt that the liquid and solid—is saved and returned to the field, ought to raise another ton. There is no doubt that the liquid and solid—is saved and returned to the field, ought to raise another ton. There is no doubt that the liquid and solid—is saved and returned to the field, ought to raise another ton. There is no doubt that the liquid and solid—is saved and returned to the field, ought to raise another ton. There is no doubt that the liquid and solid—is saved and returned to the field, ought to raise another ton. There is no doubt that the liquid and solid—is saved and returned to the field, ought to raise another ton. There is no doubt that the liquid and solid—is saved and returned to the field, ought to raise another ton. There is no doubt that the liquid and solid—is saved and returned to the field, ought to raise another ton. There is no doubt that the liquid and solid—is saved and returned to the field, ought to raise another ton. proved farming, and the only thing such greenhorns as to sell their hay for so low a price. It is about on a par with the trade when Esau sold his birthright. /

Temperance and the Church.

The Baptist Convention of Nova Scotia, New Brunswick and P. E. Island-probably the largest religious representative gathering in the Maritime Provinces, as it numbers a | 8 church membership of nearly forty two thousand communicants on the 22nd of August last. The following Resolution, offered by Rev. J. B. Woodland, was enthusias tically passed in a full meeting, only one delegate voting nay :

one delegate voting usy.

Whereas, the verdict of the experience of centuries in respect to the traffic in intoxicating liquors has proved it to be an enemy to the best interests of our country, ruinous in its results to the social, moral and spiritual well-being of the people, and one of the most formidable obstacles to on Tuesday, 13th Oct., 1885. the progress of the gospel of Christ;

And Whereas, experience has also taught
us that the use of wine and beer is con-

future as much of a staple article of manufacture as the common road wagon of to-day. In England fiteen million dollars are now invested in their production, employment being given to ten thousand proceed to the state of the s
