C.O.O.F. VISIT.

Dundas Lodge Celebrated 65th Anniversary Last Night.

Dundas Lodge, No. 2, of the Canadian Order of Oddfellows, celebrated its 65th anniversary last night, and the members and visiting brothers spent one of the best and most enjoyable evenings of the many that this old lodge has been noted for. Members from Orkney, Westover, and Troy, together with over sixty from Hamilton, who had chartered a special car, were present. The Hamilton degree team exemplified the first and second degrees, and excelled themselves in the work. Grand Master W. T. Junkin, of Fenelon Falls, honored the lodge by his presence, and in his address stated that the order had had the most prosperous year in its history, both numerically and financially, and predicted one of the most satisfactory reports at Grand Lodge that had ever been presented. His remarks met with enthusiastic applause. The four oldest members of the lodge occupied the chairs, viz: P. G. W. W. Jamieson, P. N. G. P. G. James McKinn, L. M.; P. G. Alex. Crooks, V. G.

P. G. M. M. B. Thomas, N. G. After the work of the evening the brothers sat down to a splendid banquet, prepared by Bro. Bob Shay. Toast, song and sentiment passed, and after one of the most enjoyable evenings ever spent by the members and friends of old Dundas the proceedings were brought to a close by the singing of the National Anthem.

ONLY ONE WAY.

We realize that there is only one way to keep leadership, and that way is to be a leader. That is why our values are so much greater than those of any other grocer, while our qualities are absolutely the highest, every article being selected with the same care and judgment as a man should and would use in selecting for his own table. Advertisement elsewhere, a list of many big values obtainable at Carroll's five stores this week. Look it up now.

ALWAYS THERE.

Chicago, Feb. 11.—John Donovan, known among his fellow bluecoats as Chicago's "most regular policeman," because of the fact that he was never absent from duty a day during eighteen years' service in the police department, is dead of a complication of diseases. He was 55 years old.

AMUSEMENT PARK PLANS.

Maple Leaf Company Proposes to Open in May.

Two-Weeks Industrial Exposition to Begin With.

Great Marathon Runners Now Being Negotiated With.

Hamilton is to have an amusement park. This should indeed be good news for the fun-loving public, for in the future they will not have to go to Toronto or some other outside point when they wish to enjoy the thrills that accompany shooting the chutes, and bumping the bumps, etc.

It will also do a share to boom the greater Hamilton, as the company intends to inaugurate a Hamilton exposition as the formal opening event of the Maple Leaf Park. The plans call for the erection of permanent buildings for the displaying of Canadian made goods and the company intends to encourage exhibitors and make the exposition a national affair. The promoters are even ambitious to make it a worthy rival of the Toronto Exposition. This if successful, will encourage cheap excursions to the city, and will do much to advertise Hamilton. Building will be commenced as soon as the frost is out of the ground, and May 24 is the day set for the opening of the exposition.

After two years of hard work on the part of Samuel L. Robertson, the Maple Leaf Amusement Company is at last in a position to proceed with the construction of its amusement park, which will be constructed at the James track, Burton street. When Mr. Robertson first came here with the idea of building a park, the property, which is commonly known as the half-mile track, appeared to him as being the most suitable location for such an enterprise, and he succeeded in procuring a lease. He has been granted a license by the Council of the township of Burlington, and says that the opening of the park will ultimately be one of the finest amusement parks on the continent. The opening will be in the form of a monster exposition, that will last for twelve days. The company is already arranging for special attractions, and while it does not ask for any financial aid from the merchants and manufacturers of Hamilton, it will try and interest them in the proposition and make the exposition a success.

The intention is to make this exposition an annual affair, and to improve the buildings each year so that they will be suitable for an annual exposition. The company will expend a large amount of money on the scheme, most of which will be in the way of improvements upon the grounds. It will also spend a large sum of money in advertising, and in that way bring visitors to the city, as do the fairs and exhibitions in other cities. The exhibits will consist solely of Canadian goods, depicting the various stages of manufacture. Also a food show bringing together in one building the various cereals, breakfast foods and so forth.

The leading military bands of the United States and Canada will be brought here, and a big massed band concert will be one feature of the two-weeks' exhibition. Among the bands already booked to appear here are the German Marine Band, Creator's Band, Philippine Constabulary Band, from Manila, Mexican Government Band, Royal Italian Band, and an English band which is to make a tour of this continent. Another feature will be a military tattoo, in which musical rides and other military manoeuvres will be featured. A mammoth spectacle depicting the fall of Babylon will be put on nightly during the two weeks in front of the grand stand, the erection of which will start as soon as the frost is out of the ground.

Other attractions will include a 24-hour automobile race, in which some of the riders now at New Orleans will take part, and a 25-mile race for lady drivers. There will be a programme of attractions each afternoon beginning with the stand, the same as they have at Toronto and other exhibitions. The usual hippodrome features, including chariot races, sensational bareback riding and other attractions, as well as Kennedy's Wild West show, will also be featured.

The exposition will last for two weeks, after which the formal opening of the amusement park will take place and the numerous amusement devices will then be in full swing for the season. Efforts will be made to bring conventions to Hamilton and in that way help the city to advertise the city and help make business for others. The various structures in connection with the park will be built, as much as possible, by local labor.

Among the attractions that have already been secured for the park for the summer are the ever popular figure-eight and roller coaster with bumps and dips. Ye Olde Mill, a pleasant boat ride through mysterious grottoes and lakes, will be one of the attractions. This feature alone will cost \$14,000. There will also be the merry-go-round, the Ferris wheel, the circle swing and such attractions as the Pell Mill, Dragon Rouge, Caves of Capri, Newlands home, Darkness and Dawn, Laughing Gallery and pony track. The park will be a blaze of light each night, arrangements having been made to have over fourteen thousand lights installed.

The entrance to the park will be on Barton street, at the northwest corner of the grounds. The track which is on the grounds at present will be changed into a speedway for autos and horses and a beautiful boulevard will replace the present fences. A colonnade will be built at each end of the track. There will be a high class vaudeville theatre on the grounds.

The management claims that the park will be larger than most of the other amusement parks on the other side of the border, and as large as the Scarborough Beach Park at Toronto. The Maple Leaf Amusement Company will build the park proper, the various amusement devices being sublet to promoters. The company is doing all the work without asking local capitalists to subscribe cent, although there is already some local capital invested in the scheme.

Extra attractions will be brought from time to time throughout the summer. Arrangements have already been made to have Bodock's wild animal show, similar to the one now at Earl's Court, London, Eng., and the famous Midget city, composed of sixty of the smallest people in the world here, direct from Coney Island, some during the summer. The dwarfs include Mrs. General Tom Thumb and Count Magri. Another famous attraction will be Rollair's famous illusion, Pharaoh's daughter, one of the

Are You Fat?

You know you cannot stay fat, don't you? That is, you can not be fat and be in style. The day when a fat woman was tolerated is passed. Nowadays all women must be in proportion or be ridiculous. This does not mean you should become skinny, however. You should not get below the hard flesh line. All you ought to lose is the bulky fat. That done, you will find yourself to be a well-formed and therefore handsome woman.

Now, how can this be done? By exercising and dieting? Yes, and no. These two means will bring some results, but not easily nor soon. One is very hard work; the other is torture. Besides, neither can be depended on to cause a uniform reduction. They may take off a fleshy shoulder, for example, and leave the double chin untouched. What you need, you see, is something pleasant to take that without injury to your health will take the fat off uniformly and quickly, say at the rate of a pound a day or so, until it is all gone where you want it to go. For this purpose nothing is less expensive, safer or simpler than Marmola Prescription Tablets. Inexpensive because one large case, costing 75 cents only, will produce results; safe because they cause no wrinkles or stomach trouble, but rather improve the health and complexion, if anything; and simple, because they do all the work without asking thought or effort on the part of the taker. In short, they are the ANSWER if you are fat and wish to be thinner. If your druggist is of the better kind he will have them. If not, write the license to The Marmola Company, Detroit, Mich.

features on the midway at the Seattle exposition which opens next June. An Eskimo village will also be one of the special attractions.

The management has overtures from New York to bring Shrubbs, Longboat, Dorando and Hayes together in a twenty-five mile race on Saturday, May 24th.

Arrangements are pending to have the Driving Club give two matinees on Wednesday, May 20th, and Wednesday, June 2nd, at which several expensive cups will be offered as prizes.

CHIEF ZEATS.

Former Hamilton Policeman is Chief at Winnipeg.

Winnipeg, Feb. 10.—The Police Commissioners yesterday appointed Theodore Zeats to the position of chief of police, the appointment to date from March 1st.

His application for the position was one of sixty-two considered. He is at present employed as a private detective on the Grand Trunk, and was formerly chief of police in Woodstock. He also served for many years on the Hamilton police force.

While in Hamilton P. O. Zeats was looked upon as a man of character and ability and was also one of the leading athletes of the force.

G. A. R.

Local Camp Gave Concert and Ball Last Evening.

The G. A. R. and the Sons of Veterans held a very successful concert and ball last evening in Green's Hall. There was a fair sized audience present. The first part of the evening was devoted to the following programme: Instrumental solo, Miss Bella Cox; vocal solo, Miss Donnelly; vocal solo, Mr. Vipond; duet, Messrs. Vipond and Pett; Lincoln's address, Mr. Geo. Elville; recitation, Miss E. Melody; instrumental solo, Mr. McDonald; paper on "Life of Abraham Lincoln," read by Ed. Bell; duet, Messrs. Vipond and Pett.

The concert was followed by a ball, and later light refreshments were served.

CLEVELAND'S BISHOP.

Rome, Feb. 11.—A consistory of the Congregation of Cardinals was held this morning under Cardinal De Lai. It is reported that the vacancy in the bishopric of Cleveland, Ohio, was filled, and that it was decided to propose that the Pope appoint Monsignor Kennedy, rector of the American College here, to this post.

"My youngest boy, 3 years old, was sick with fever last June, and when he got better the doctor prescribed Scott's Emulsion, and he liked it so well that he drank it out of the bottle, and is now just as plump and strong as any child of his age anywhere... two bottles fixed him O.K."—MR. JOHN F. TEDDER, Box 263, Teague, Freestone Co., Texas.

SCOTT'S EMULSION

is the greatest help for babies and young children there is. It just fits their need; it just suits their delicate, sensitive natures; they thrive on it. Just a little does them so much good and saves you so much worry. You owe it to them and yourself to make them as strong and healthy as possible. Scott's Emulsion will help you better than anything else; but be sure to get Scott's. It's the best, and there are so many worthless imitations.

ALL DRUGGISTS

Mr. Tedder has just written us another letter about his little boy's children. Let us send you a bottle and other information on the subject. A Post Card, please, to the nearest Druggist.

HOME INDUSTRIAL EXPOSITION

IS DRAWING TO A CLOSE

Just two days more. Don't miss this Exposition.

No single event in Hamilton has ever created such universal interest and enthusiasm as this year's Exposition.

Thousands of visitors daily—all intent upon seeing the marvels of machinery in motion, the evolution of different articles of manufacture—the magnificent exhibits of the finished products and the pure food demonstrations.

It's amazing when one realizes what Hamilton is doing within her great workshops and factories—and yet how very little Hamilton people really know about her accomplishments. Just two days more. Come in the mornings.

Steel is King

The Hamilton Steel & Iron Co., The Canadian Drawn Steel Co., The Canada Screw Co., The B. Greening Wire Co., The Burrow, Stewart & Milne Foundry Co., The Gurney-Tilden Stove & Lock Co., The Consolidated Hardware Manufacturing Co., The Hamilton Bridge Co., The Ontario Rolling Mills Co., The Canadian Westinghouse Co., The Banwell-Hoxie Wire Fence Co., The Gurney Scale Co., The The Canada Wire Goods Co., E. T. Wright Tin Works, The McClary Manufacturing Co., The Brown-Boggs Machine Co., Ontario Lantern Co., The Canadian Shovel Co., The Union Drawn Steel Co., The D. Moore Stove Co., The Bowes-Jamieson Foundry Co., The International Harvester Machine Co., The Canadian Iron & Foundry Co., The Frost Wire Fence Co., and many others. What does it all mean? That Hamilton is a great centre of the iron and steel industry. That she has an assured future growth that we scarcely appreciate. That the largest commercial corporation in the world is the United States Steel Corporation. That steel is king, that Hamilton enjoys special advantages in this connection. That the foundation of Hamilton's growth is constructed of electrically welded steel. That every effort should be made to build up that steel structure. That the foundation being safe, the super-structure is only limited by the ambitions of her citizens.

HANGED AT BRAMPTON.

(Continued from Page 1.)

with him continuously since the death sentence was pronounced, to wonder if justice does not get on the wrong track sometimes.

But twelve good men and true of Peel county have heard the evidence, and declared his guilt, and the law of his adopted land says he must die.

It was in the wee small hours of this morning that the condemned man made such an emphatic declaration of his innocence.

When he came to the jail he spoke very little English, hardly enough to make himself understood. Special Constables James Young and George Glasford have been the death watch since the sentence, and the prisoner has become quite confidential with them, in addition to improving his English with their assistance.

Early this morning Jailer Lewis Wilson visited the Swyryda cell with the news that the Court of Appeal had decided not to interfere. All hope of salvation from the gallows was gone, he told the prisoner. Swyryda heard the news without a tremor. Then the two officials got into a conversation with him.

WAS TELLING TRUTH.

"Now, Stephen," said Young, in the friendly way he has managed to cultivate during the long hours of the death watch, "you will certainly have to die. Why not confess before you meet your God? If you killed young Lutwick, why don't you say so?"

Then it was the turn of the condemned man to make this assertion. He was not afraid to die, he said. If he had killed the boy he would say so, he said. It would then be much easier to die. Throughout the morning he continued to reassert his innocence. Before daylight he was sleeping calmly.

Swyryda has no visitors except a priest of the Greek Church, who comes up from Toronto. The priest cannot speak English, and is accompanied here by an interpreter. Swyryda, himself, can speak three languages, but the priest can talk only Polish, and the prayers and other religious services, which are in the condemned man's cell, are in Polish.

WIFE'S LAST VISIT.

Last Wednesday Swyryda's wife visited him. She was unaccompanied. The guards say the parting of the two was very distressing to witness. The poor woman let it be understood that she did not intend to see her husband again.

GALLOWES HIDDEN.

J. R. Radcliffe, the official executioner, is here. He has been about Brampton more or less for a week, and, following his usual custom, he keeps well out of sight. Peel County jail has no death room within the walls of the jail proper, and the scaffold has been erected in the corner of the yard. It is of a style used by Radcliffe at all his outdoor executions recently. There is the hole dug into the ground, admitting of a straight drop of eleven feet for the condemned man. The whole arrangement is carefully obscured from the curious by a ten-foot wooden fence. In addition, the high brick wall surrounding the jail yard makes
