Extraordinary Scene at a ceting in the County Maye.

A Pesth despatch says the military shot two persons in the riot on Wednesday night. No disturbances would have occurred if the police had not provoked the people by their brutality. The workmen are reported to be marching from the suburbs to the inner town. Another Pesth despatch asserts that upwards of twenty-five persons were killed and wounded, and fresh disturbances were apprehended on Thursday night. Soldiers are confined in the barracks. Ill-feeling against the Tissa Government has, doubtless, much to do with the present movement. It is feared provincial towns will follow the example of Pesth. A STRIKING REVELATION.

A Berlin despatch says the quarrel at Kalisch, Poland, between the officers of a Russian regiment and their German guests is regarded here as a striking revelation of the present tone of Russian military circles.

EXPLANATIONS DEMANDED.

A Berlin despatch says the Prussian officers who became involved in a quarrel with their entertainers at Kalisch immediately communicated the incident to the military authorities. The Emperor William was much shocked on hearing the news. The German Ambassador at St. Petersburg has been instructed to ask explanations from Russia.

TELEGRAPH VERSUS TELEPHONE.

RENMENT AGAINST THE INTRODUCTION OF TELEPHONES — WHAT THE "TIMES" THINKS ABOUT THE MATTER. The Right Hon. Lord John Manners, At a Cabinet Council to-day, Irish affairs an injunction to restrain English telephone companies and Edison's Telephone Company from using wires for the transmission of messages. This application is based upon the fact that the Government has taken over at a very considerable cost all the telegraphic companies in the United Kingdom, and made them a part of the postal service, and Lord John Manners, in his application for the injunction, sets forth that the establishment of the telephone as a mode of communication would be an infringement upon the rights of the Government thus acquired. The trial of the case is set down for an early day in February.

INADEQUACY OF PRIVATE RELIEF. The Mayors of Sheffield and Brighton, and other towns, have opened relief subscriptions. The universal opinion is that private relief cannot cope with the distress. The Government's plans for meeting it were probably determined to-day. THE TIMES ON THE GOVERNMENT'S ACTION.

The Times this morning denounces the Government's opposition to the telephone extension, and says it believes the Government telegraph system discourages and represses invention. If the Postmaster wins the case Parliament must interfere in the interest of the public. HANDSOME DONATIONS. The Mayor of Sydney, N.S.W., telegraphs that \$10,000 has been subscribed in that city, and Liverpool merchants engaged in the American provision trade have subscribed \$5,000 to the relief of Irish distress.

repeated in all their sadness and horror.
Wives, children, and other relatives surround the mouth of the shaft, frantic with grief, and clamouring for assistance which it is impossible to render the men caught in the terrible death-trap. The calamity will inflict incalculable distress on scores of households, for whose benefit a subscription fund has already been opened.

A FATAL SEAM.

One of the recovered corpses had lost part of the head. Some others were burned to cinders, while some appear to have been killed by the concussion. Gangs of volunteers are descending frequently. Part of the Lycett colliery, where the explosion occurred, is known as the Fair Lady Pit, and is the same in which some men were killed last autumn. The coal belongs to the Banbury or Fiery seam, in which all the great Staffordshire explosions have occurred.

FIRE HINDERING THE EXPLORERS.

A fire has been raging in the pits with great violence since the disaster, hindering the explorers and precluding all hopes that any victims will be rescued alive. A later despatch says the fire is being subdued. Large quantities of debris have been removed, enabling the explorers to proceed more rapidly. The latest report places the total number of deaths at 70. Another explosing is feared. Five more bodies have been recovered from the mine. Twenty others have been found in the pit. They will be brought up to-night. Ventilation has been restored.

THE MOHMUNDS REPULSED.

A despatch from Cabul says the Moh-munds had attacked Lundi Khotal, but were repulsed. They were also defeated with heavy losses on the road between Dakka and Kamdakka.

Lespon, Jan. 18.

The Mohmund outbreak renews the anxiety regarding Afghanistan. General Roberts reports no further hangings. The official telegram asserting that fifteen was the entire number of persons executed, though worded to indicate during the whole campaigs, confessedly covers only the executions ordered since the recepture of Cabul. The Queen confers the Star of India as a mark of her appreciation of General Roberts' services in this last campaign.

A Cabul correspondent quotes the opinion of high authority that there never has been so strong a combination in Afghanistan as the recent one. It having signally failed, no further combination need be feared. It seems reasonable to hope the interference of the British Government in the affairs of Afghanistan will be gradually acquiesced in by the Afghans. Martial law in Cabul has been suspended.

A despatch from Cabul says the British troops are suffering from pneumonia. Another despatch says disrension has arisen among the Afghan leaders, and several disturbances have occurred in the Jellalabad district.

Frankfort, Ky., Jan. 20:—The report of the prison Sanitary Committee to the Legislature on the condition of the penitentiary describes a deplorable state of affairs. The fire was almost out, and for a moment or two she sat the child on the stove, which was just warm. She had hardly done so when some dogs started fighting in the yard. The woman rushed out, leaving her baby on the stove. While she was absent the fire in the stove suddenly flared up, and the stove became so hot that the child was severely burnt. Its life at one time was despaired of, but at present it is in a fair way of recovery.
