This climate is, by its Providential arrangement the very climate for BAVARIAN BEER.

The climate is natural and uncommonly dry. It is so dry, in comparison with that of the tropics, but it makes a serious difference in various trades and occupations.

For instance in most parts of Europe the climate is so moist that housewives cannot dry their washed clothes except in fine weather, and often in the open fields. It takes them nearly a week to dry their clothes. Here, the clothes washed and hung out in the morning, are dry before night. So, a plastered house in Europe is not fit to live in for six months, because even with the help of fire, it takes so long to dry. Here one room is dry while they are plastering the next one. This perpetual drying up of every fluid by the air about us acts on the blood of the people and would dry them up in a little while if they did not prevent it in some way.

In the early days they tried West India rum and brandy and other distilled liquors. But some years ago they found that this remedy was worse than the disease. It was the universal drunkenness upon rum which called for the Temperance movement. The last is the remedy of temperance and nutrition. It is the only one that is sold in bottles of one, two, three, four, six, eight, ten, twelve, and twenty-four bottles.

BAVARIAN BEER Is offered for sale know nothing about it, except from hearsay. Many of them think it is SMALL BEER, but

BAVARIAN BEER Is not SMALL BEER, by any means, and this should be understood.

We think it no more than right that the sincere but ignorant men who talk against

BAVARIAN BEER Without knowing anything about it should be enlightened. And we think that those who promote Temperance could not do better to further the good work than to recommend the

BAVARIAN BEER As they now do water—a clear and sparkling beverage.

And we think the Newfoundlanders deserve a better fate than to be the victims of Dyspepsia, Liver Complaint, Kidney Disease, Marasmus and Consumption for want of a pure, wholesome, innocent and cheap drink like

Lindberg & Backstrom's BAVARIAN BEER

Which now can be had "in any quantity from our Dealers, viz:

Mr. Leo & Co. The Proprietors only regret they do not introduce BAVARIAN BEER some years ago, as it would have saved the Colony the expense of adding a wing to the Lunatic Asylum, and the increased expense in the Poor relief fund of the Royal Commission to give out

BAVARIAN BEER CONTAINS NO NUTRIENT, And thing that they make a great argument by saying it. Backstrom never said that

BAVARIAN BEER Does not contain nourishment. He shows better. He drinks it himself and tells it for others to drink, NOT TO EAT! It is not only

Nourishing, but it is a Mild, Diffusable Stimulant and a medium of nutrition as well.

Even a prohibitionist might know that he could not live without nutritious food. For this and other reasons the Medical Faculty recommend and use

BAVARIAN BEER. Doctors advise Dyspeptic people to drink

BAVARIAN BEER. N. B.—It will keep in bottles well packed, and in a cool place

FOR A YEAR! At the end of that time it is a fact that

Lindberg & Backstrom's BAVARIAN BEER

Is better than the best Bass, Ale or Scotch Ale, which cost so much more money. Convalescent patients take

BAVARIAN BEER From the hands of the Doctor. Mothers of Families by the repeated directions of the Family Physician, make daily use of

BOTTLED BAVARIAN BEER, Sold by Dealers for family use. Lawyers, Judges, Clerks, Mechanics, Preachers, Lecturers, Editors, Printers, Writers of works, Literary men of every class in this literary and intellectual community, all use

BAVARIAN BEER. Even the Legislature like it, and would undoubtedly have made it a beverage in their Resolutions Chamber, if the House of Assembly had not the late Anti-Conservative Government come to an untimely

BAVARIAN BEER Will be made as usual for sale, and any Temperance Organization or anyone else may have a stock of

Lindberg & Backstrom's BAVARIAN BEER

may through prejudice; they will indulge in Ale and Porter at their dinners but deny the use of BEER. Now, the fact is that the

BAVARIAN and LAGER BEER

Contains less alcohol than either Ale or Porter, and that experience proves that an excess in its use carries less injurious consequences with it than excess in the use of any other kind of this class of beverages. It has even been proved that some constitutions can consume Four, Five, or Six gallons in a single day—a feat perhaps impossible with any other beverage water perhaps excepted, and tending to prove that next to water

BAVARIAN BEER Is the most harmless drink. Such a quantity of milk would surely produce severe indigestion, while the drinking of so much Ale, Porter, or wine would be out of the question.

We cannot of course find fault with those who simply dislike BEER with a natural aversion of the bitter principle of the hops, with which it is more abundantly provided than other BEERS. This may be the reason that many people prefer Ale; but we ought to suggest that in order to have the full benefit of the moderately stimulating and nutritious qualities of any kind of BEER, it must not be drunk at improper hours, as then really good BEER may be quite unpalatable. The best time is at dinner during the use of Beef, Mutton, Pork, etc., to which it is a very desirable addition.

It is a common observation that the diseases in regard to food and drink are, in many individuals, undergoing a change in the course of years. This is simply caused by the modified wants of the system. A young, vigorous person does not need the stimulus of BEER or WINE at the table, which appears to become a necessity to others when they become older. The wisest plan is to follow simply the natural desires as they best indicate the wants of the system, provided these desires are not provoked by the unnatural habits of smoking or chewing tobacco, or an excess of condiments, or peevish temper, or the habit of distilled drinks, which nobody should use, except largely diluted, as is the case with wine, the strongest qualities of which would be alcohol in as high a proportion as it ever should be introduced in a human stomach.

The inconsistency of temperance people in general is, among other things, shown in the fact that they allow the use of fermented Cider, which contains about as much alcohol as Wine, while the latter is so often condemned in New York under the name of German Cider, and of whom we have heard recently that the German Cider is much better than the American article. A friend of several years ago has been made by doctor friend, who has the most precise and accurate knowledge of all, and also contains some of the most valuable and healthful ingredients, which the other beverages are generally preferred by temperance people, who are largely best for the long and happy life, while the wine and Beer drinkers like the refreshing syrup of lemon, or some other fruit.

As it thus appears that not a few people need some stimulus, it may be well to know this fact, and to allow them to indulge in one which is not only harmless but beneficial, in order to refresh a total abstinence and, in which many are unable to persist, who breaking their pledge, lose their self-respect in so far as to indulge in the most pernicious of all habits—the use of the intoxicating distilled liquors.

It is for reason of the above considerations that we have recommended to all who have a chance to do so, to get this Beverage in their neighborhood, to do so in the best of keeping a Bery bottle in the house!

BAVARIAN BEER of the JAGER, on these two people, must be considered from any prejudice against it

THOSE LAVERAGES, if ever had any. If not these try to go to Europe to be convinced; we may visit the BEER-drinking German quarters in this country, note the general health and in a trice a bit of the people, and compare it with the emaciated and bloated with the habit of being satisfied with BEER, but needing the unnatural stimulus of distilled spirits, whiskey, brandy, or even alcohol.

It is indeed a common observation among physicians and students in our large cities, that a Post-Mortem reveals a case whether the subject under examination was a Beer-drinking German, by the better health of the liver for organ, the presence of a liberal supply of adipose (fat) tissue, or whether he was a whiskey drinker, as proved by the diseased condition of kidneys and liver, a stone in the gall bladder, and a tendency to attacks of the urinary system
