### A MODERN MEDICINE FOR YOUNG CHILDREN

No sane mother would wish herself treated under the conditions of medicine or surgery of half a century ago. Why then should she give her tender little child the old-fashioned medicines that have not changed in half a century, and which more likely than not contain poisonous opiates that will not cure the child, but merely drug it into temporary insensibility? Baby's Own Tablets is a modern medicine prepared with all the care and skill of modern medical science. This medicine cures all stomach, bowel, teething and other ailments of childhood and babyhood. And the mother has the guarantee of a government analyst that it contains no opiate or poisonous drug. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co. ## LETTER TO THE EDITOR

DEAR ADVOCATE:

In the valued "Leader" of the 25th inst. there appears a correspondence signed "English Church Man", about which, I have, with your permission, a few words to say. As to what he says about the church hymns portraying the doctrinal tenets held by the church, it may be said that all the hymns of all the churches are of a religious and sublime nature, tending to the development of man's moral and spiritual uplifting, and the Easter hymns of all the churches seem with our belief in the Resurrection of our Saviour, but of doctrine, nothing. As to his flying at the Pastor of St. Andrew's one may say, that the Pastor is perfectly well able to defend himself and needs no champion, but his direct insult to the ladies composing the "Women's Auxilliary" to my mind deserves the condemnation of all good churchmen.

He knows, none better, that St. Andrews is financially embarrassed; he knows, none better, that there are some of us do not pay what we promised to support the Pastor, nor do we all give him that moral support that he should by graceing the church with our presence more frequently, and handing in our envelopes more promptly, all of which is the direct need of these Bazaars and Sales of clothing and what not, that have fallen to the lot of "Women's Auxilliary". These women have been indefatigable in their efforts to keep the church out of debt as far as possible, and to serve, and get the credit and sympathy, of not only their own congregation, but of all the denominations in our town, their traducer to the contrary notwithstanding. It is a little unfortunate perhaps that the W. A. did not hold their harmless food sale a day or two later, if it were for nothing else than to keep this spectacular English Church man quiet, but "needs must when the wolf drives".

If it was a mistake to call this sale during the last hours of Lent, it was made inadvertently and without intent to do wrong, there can be no doubt of that: it makes one think that "English Church man" has been looking for an opportunity to air his spleen for some time, and it would not make any difference what the W. A. did or did not do, the climax had to come anyway. When he paraphrases the hymn he quotes, and like "Silas Wegt" with the wooden leg, drops into poetry, he displays the cloven foot most lamentably.

It is a consolation to know that this attempt to hold these ladies up to ridicule and contumely, has fallen flat and is rebounding to his own discredit.

And now Mr. English Church man, I may say that if our mothers had been less militant and more prayerful, we both might have been better churchmen. Speaking for myself my mother taught me that there are two basic principles in true Christianity. 1st Love thy neighbor as thyself. 2nd Abound in Charity to all men. I remain dear Editor

Yours truly  
JUSTICE.
