A SORRY EXHIBITION. The people of New Brunswick are being treated to a very sorry exhibition by the press, which voices the sentiments of the local opposition. As a matter of fact it particulars of which we propose to speak, but it suits the purposes of the office-seeking faction that a campaign of slander should be kept up, and they lend it approval and sanction. Messrs. Hanington, Stockton, Alward, Powell, Stevens and the rest do not think that Mr. Blair is a corrupt man and a dishonorable trickster. They know better. Some of them know better, because they have been associated with him in party work and have learned powers, as leader of the government, he is a good party man, he is nevertheless guided by what he conceives to be the public interest. THE PROGRESS OF RECIPROCITY.

Largely through the instrumentality of Erastus Wiman, Senator Sherman has given notice of the following additional section to the McKinley tariff bill. "That whenever it shall be certified to the president of the United States that the government of the dominion of Canada shall, by law or regulation, admit free of duty into all its ports coal mined in the Inited States, he shall make proclamation of the fact, and thereafter, while such law or regulation is in force coal mined in the

IT MAY BE A GOOD MOVE.

A Paris despatch says that England has states, and has offered to interfere in Armenia until order is restored. This may be another of the shrewd strokes of foreign policy that Lord Salisbury has made lately. When England interferes order is set so high that it takes forever and a day to reach it. She interfered for that purpose in Egypt, and it is dawning upon the mind of the world that she is there to stay. Somehow Englishmen seem to possess the faculty of handling semi-civilized people, and they would, no doubt make a success of restoring order in Armenia. This would mean the ion of Canada has declared its desire to the border of Russia, which would be establishment of a settled community on enter into such commercial arrangements very useful in keeping the way to India complete or partial removal of duties upon the trade between Canada and the United States as will result in a open, and ultimately mean the extension of English influence over the whole of
