Oxford, June 29, 1897 Wrought Iron Range Co., Ltd. Toronto, Canada,

To whom it may concern. I boughta Home Comfort Range of the Wrought Iron Range Co. in May, and on the 12th of June my house and its contents were stroyed by fire. The Range have ng been subjected to the most in tense heat, it was predicted by many that it was ruined, but the body of the Range was as solid as before the fire, and not a piece warped or out of place. The reservoir was of course melted, and the vessels damaged, but the Wrought Iron Range Co. replaced them free of charge and put them in good working order. As to the merits of the range it is a perfect baker and good heater, and I can conscientiously recommend them for my Range stands as evidence of the fact that they are the best made. Any one doubting the above statements can see my Range at my farm near Conor's Mills, N. S., or get my sworn statement of the above facts, or the
